## **Romantic Revolution In America Volume 2:**

**Main Currents in American Thought Vol 2** Vernon Louis Parrington, 1954      **The Romantic Revolution in America, 1800-1860** Vernon Louis Parrington, 1987      **The Romantic Revolution in America, 1800-1860** Vernon Louis Parrington, 1927 **CURRENTS IN AMERICAN THOUGHT AN INTERPRETATION OF AMERICAN LITERATURE FROM THE BEGINNINGS TO 1920**      *The Romantic Revolution in America: 1800-1860* Michael Young, 2017 The development of literature between 1800 and 1860 in the United States was heavily influenced by two wars The War of 1812 hastened the development of nineteenth century ideals and the Civil War uprooted certain growths of those vigorous years The half century between these dramatic episodes was a period of extravagant vigor the final outcome being the emergence of a new middle class Parrington argues that America was becoming a new world with undreamed potential This new era was no longer content with the ways of a founding generation The older America of colonial days had been static rationalistic inclined to pessimism and fearful of innovation During the years between the Peace of Paris 1763 and the end of the War of 1812 older America was dying The America that emerged which is the focal point of this volume was a shifting restless world eager to better itself bent on finding easier roads to wealth than the plodding path of natural increase The culture of this period also changed Formal biographies written in this period often gave way to eulogy it was believed that a writer was under obligation to speak well of the dead Consequently scarcely a single commentary of the times can be trusted and the critic is reduced to patching together his account out of scanty odds and ends A new introduction by Bruce Brown highlights the life of Vernon Louis Parrington and explains the importance of this second volume in the Pulitzer Prize winning study Provided by publisher      **The Cambridge History of American Literature: Volume 2, Prose Writing 1820-1865** Sacvan Bercovitch, Cyrus R. K. Patell, 1994 This is the fullest and richest account of the American Renaissance available in any literary history The narratives in this volume made for a four fold perspective on literature social cultural intellectual and aesthetic Michael D Bell describes the social conditions of the literary vocation that shaped the growth of a professional literature in the United States Eric Sundquist draws upon broad cultural patterns his account of the writings of exploration slavery and the frontier is an interweaving of disparate voices outlooks and traditions Barbara L Packer s sources come largely from intellectual history the theological and philosophical controversies that prepared the way for transcendentalism Jonathan Arac s categories are formalist he sees the development of antebellum fiction as a dialectic of prose genres the emergence of a literary mode out of the clash of national local and personal forms Together these four narratives constitute a basic reassessment of American prose writing between 1820 and 1865 It is an achievement that will remain authoritative for our time and that will set new directions for coming decades in American literary scholarship      **Timelines of American Literature** Cody Marrs, Christopher Hager, 2019-01-29 A collection of engaging essays that seeks to uniquely reperiodize American literature It is all but inevitable for literary history to be divided into periods Early American antebellum modern

post 1945 such designations organize our knowledge of the past and shape the ways we discuss that past today These periods tend to align with the watershed moments in American history even as the field has shifted its perspective away from the nation state It is high time we rethink these defining periods of American literary history as the drawing of literary timelines is a necessary even illuminating practice In these short spirited and imaginative essays 23 leading Americanists gamely fashion new unorthodox literary periods from 600 B C E to the present from the Age of Van Buren to the Age of Microeconomics They bring to light literary and cultural histories that have been obscured by traditional timelines and raise provocative questions What is our definition of modernism if we imagine it stretching from 1865 to 1965 instead of 1890 to 1945 How does the captivity narrative change when we consider it as a contemporary not just a colonial genre What does the course of American literature look like set against the backdrop of federal denials of Native sovereignty or housing policies that exacerbated segregation Filled with challenges to scholars inspirations for teachers anchored by an appendix of syllabi and entry points for students *Timelines of American Literature* gathers some of the most exciting new work in the field to showcase the revelatory potential of fresh thinking about how we organize the literary past

**West of Emerson** Kris Fresonke, 2003-01-06 Where did American literature start The familiar story of Emerson and Thoreau has them setting up shop in Concord Massachusetts and determining the course of American writing *West of Emerson* overhauls this story of origins as it shifts the context for these literary giants from the civilized East to the wide open spaces of the Louisiana Purchase Kris Fresonke tracks down the texts by explorers of the far West that informed Nature Emerson's most famous essay and proceeds to uncover the parodic Western politics at play in classic New England works of Romanticism Westerns this book shows helped create Easterns *West of Emerson* roughs up genteel literary history Fresonke argues for a fresh mix of American literature one based on the far reaches of American territory and American literary endeavor Reading into the record the unexplored writings of Lewis and Clark Zebulon Pike Stephen Long and William Emory Fresonke forges surprising connections between the American West and the American visions emanating from the neighborhood of Walden Pond These connections open a new view of the politics and by way of the notion of design the theological lineage of manifest destiny Finally Fresonke's book shows how the cast of the American canon no less than the direction of American politics came to depend on what design one placed on the continent

*A Companion to American Fiction, 1780 - 1865* Shirley Samuels, 2008-04-15 This Companion presents the current state of criticism in the field of American fiction from the earliest declarations of nationhood to secession and civil war Draws heavily on historical and cultural contexts in its consideration of American fiction Relates the fiction of the period to conflicts about territory and sovereignty and to issues of gender race ethnicity and identity Covers different forms of fiction including children's literature sketches polemical pieces historical romances Gothic novels and novels of exploration Considers both canonical and lesser known authors including James Fennimore Cooper Hannah Foster Nathaniel Hawthorne Herman Melville and Harriet Beecher Stowe Treats neglected topics

such as the Western novel science and the novel and American fiction in languages other than English      **The Last of the Mohicans** James Fenimore Cooper,1986-07-01 Cooper s most enduringly popular novel combines heroism and romance with powerful criticism of the destruction of nature and tradition Set against the French and Indian siege of Fort William Henry in 1757 The Last of the Mohicans recounts the story of two sisters Cora and Alice Munro daughters of the English commander who are struggling to be reunited with their father They are aided in their perilous journey by Hawk eye a frontier scout and his companions Chingachgook and Uncas the only two survivors of the Mohican tribe But their lives are endangered by the Mangua the savage Indian traitor who captures the sisters wanting Cora to be his squaw In setting Indian against Indian and the brutal society of the white man against the civilization of the Mohican Cooper more than any author before or since shaped the American sense of itself as a nation For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators      *American History Awards 1917-1991* Heinz-D. influence on American democracy The book next addresses Calvin s critical role in American theology inspecting the relationship between Jonathan Edwards s and Calvin s church practices the diverse views on the Calvinist theological tradition in the nineteenth century the ways in which Calvin was understood in the historiography of Williston Walker and Perry Miller and Calvin s influence on twentieth century theologies Finally the book explores Calvinism s influence on American literature examining the work of such writers as Samson Occom Harriet Beecher Stowe Max Weber Mark Twain John Updike and Marilynne Robinson This important book is the first to introduces readers to the breadth and depth of Calvin s influence along the spectrum of American thought and society from the 18th century to modern times     **The**
