## **Rome Autrefois Et Aujourd'hui:**

The Roman World Victor Chapot, 1928 *Belgium and the Holy See from Gregory XVI to Pius IX (1831-1859)* Vincent Viaene, 2001 The Roman orientation was the keystone of the religious revolution of the Catholic revival New or renewed congregations priests close to the people militant laymen gave a decidedly social activist turn to the faith At this crossroad of religion modernity the papacy could all the more make its weight felt as the Belgian Constitution granted the clergy a unique liberty in relations with Rome Over time the Vatican would exert a powerful impact on the shape of modern politics in Belgium The special relationship between Belgium Rome was no one way traffic From a somewhat curious ecclesiastical court hopelessly entangled in the old spider web of the Papal States the papacy became the institution we know today the leader of a modern Catholic opinion Belgium played a role of major importance in this transformation The central theme of the book can therefore be defined as a process of mutual integration if not acculturation across the Alps **Le Monde Romain.
