**Cyclopedia of Music and Musicians** Champlin (jr.), 1890      **University of California Publications in Modern Philology**, 1919      Readers and Their Fictions in the Novels and Novellas of Gottfried Keller Gail K. Hart, 2020-05-01 This study seeks to alter our understanding of Keller's realism by problematizing the act of reading within fiction. The story of reading in Keller's fiction is a self-conscious meditation on the schism between life and its literary representation and it emphasizes the incapacity of that representation to actually and substantially influence the life it is based on. This has consequences for the didactic writer. The act of reading here generally involves a collision between fiction and its other and a move or tragic failure to move toward an acceptance and affirmation of the non-correspondence between life and literature a process that renders moral didacticism a quixotic project. This position runs counter to the prevailing view of Keller as a consciously didactic author who tried to create a credible copy of reality in order to revise and repair the real world by inspiring readers to make the depicted improvements in their nonfictional universe      Henry V. Henry VIII. Titus Andronicus. Romeo and Juliet William Shakespeare, 1902      **The New England Modern Language Association, an Historical Sketch** James Geddes, 1907      *Report of the Committee of Twelve of the Modern Language Association of America* Modern Language Association of America. Committee of Twelve, 1911      Rewriting Germany from the Margins Petra Fachinger, 2001 The margins in Petra Fachinger's work are occupied largely by second generation migrant writers from Spain Italy and Turkey German Jewish writers of diverse ethnic origins and writers born in the GDR. She demonstrates that during the 1980s and 1990s writers from various cultural backgrounds engaged in oppositional discourse to construct their own version of Germany and write back to the German canon. While most studies of texts by minority writers in Germany favour content over form Fachinger focuses on identifying counter-discursive strategies and applies postcolonial theory concerned with textual resistance to the German situation. In doing so this study effectively relates marginal writing in Germany to similar forms of writing in other national and cultural contexts. The oppositional impulse whether manifested in counter-canonical discourse postcolonial picaresque hybridity rewriting of genre or grotesque realism is prompted by the exclusionary politics of the dominant culture. The discursive strategies used by the authors discussed to rewrite Germany expose the assumptions that underlie German public discourse and destabilise notions of Germanness Jewishness and Turkishness. Fachinger's reading of texts by marginal writers in Germany all of whom endeavour to resist marginalisation while simultaneously experiencing or even celebrating the margin as a site of empowerment was motivated by the absence of comparative studies of such writing. Rewriting Germany from the Margins demonstrates the necessity and usefulness of comparative approaches to minority discourses across national and cultural borders      **The Works of Shakespeare** William Shakespeare, 1901      **Catalogue Number** Johns Hopkins University. Keinänen, Per Sivefors, 2022-01-27 Charting the early dissemination of Shakespeare in the Nordic countries in the 19th century this opens up an area of global Shakespeare studies that has received little attention to date With case studies exploring the earliest translations of Hamlet into Danish the first translation of Macbeth and the differing translations of Hamlet into Swedish adaptations into Finnish Kierkegaard's reworking of King Lear and the reception of the African American actor Ira Aldridge's performances in Stockholm as Othello and Shylock it will appeal to all those interested in the reception of Shakespeare and its relationship to the political and social conditions The volume intervenes in the current discussion of global Shakespeare and more recent concepts like rhizome which challenge the notion of an Anglocentric model of centre versus periphery It offers a new assessment of these notions revealing how the dissemination of Shakespeare is determined by a series of local and frequently interlocking centres and peripheries such as the Finnish relation to Russia or the Norwegian relation with Sweden rather than a matter of influence from the English Cultural Sphere **Catalog of Copyright Entries** Library of Congress.
