Joseph Romilly, Fellow of Trinity College and Registrary of the University of Cambridge Joseph Romilly, 1967 Romilly's Cambridge Diary ,1967 Romilly's Cambridge Diary, 1832-42: Selected Passages from the Diary of the Rev. Joseph Romilly, Fellow of Trinity College and Registrary of the **University of Cambridge** Joseph Romilly, 1967 William Whewell Lukas M. Verburgt, 2024-10-08 William Whewell the famous master of Trinity College in Cambridge was a central figure in nineteenth century British scientific culture and one of the last great polymaths His influential work ranged from history and philosophy of science education architecture mineralogy and political economy to mathematics engineering natural theology metaphysics and moral philosophy Among his many gifts to science was his role as cofounder and president of the British Association for the Advancement of Science and his wordsmithing he coined the terms scientist physicist linguistics and electrode While he was himself an opponent of evolution through natural selection Whewell's most famous works including his Bridgewater Treatise 1833 and Philosophy of the Inductive Sciences 1840 played a formative role in Charles Darwin's creation of the theory of evolution William Whewell Victorian Polymath reexamines the whole of Whewell's oeuvre as well as the wide range and internal unity of his many polymathic endeavors placing him within the early Victorian intellectual landscape and highlighting his exchanges with other important figures of the period such as John Herschel Charles Lyell and Robert Peel Bringing together a group of eminent and emergent scholars the volume explores all major aspects of Whewell's reform project and its legacy both in the sciences and the humanities in the Victorian era and beyond *Cambridge Theology in the Nineteenth Century* David M. Thompson, 2017-03-02 Many books have been written about nineteenth century Oxford theology but what was happening in Cambridge This book provides the first continuous account of what might be called the Cambridge theological tradition by discussing its leading figures from Richard Watson and William Paley through Herbert Marsh and Julius Hare to the trio of Lightfoot Westcott and Hort It also includes a chapter on nonconformists such as Robertson Smith P T Forsyth and T R Glover The analysis is organised around the defences that were offered for the credibility of Christianity in response to hostile and friendly critics In this period the study of theology was not yet divided into its modern self contained areas A critical approach to scripture was taken for granted and its implications for ecclesiology the understanding of salvation and the social implications of the Gospel were teased out in Hort's phrase through enquiry and controversy as a way to discover truth Cambridge both engaged with German theology and responded positively to the nineteenth century crisis of faith

<u>Cambridge University Archives</u> D. M. Owen,2011-06-02 A list of all the materials deposited in the Cambridge University Archives before June 1987 **Mr Hopkins' Men** A.D.D. Craik,2008-03-21 A few years ago in the Wren Library of Trinity College Cambridge I came across a remarkable but then little known album of pencil and watercolour portraits The artist of

most perhaps all was Thomas Charles Wageman Created during 1829 1852 these portraits are of pupils of the famous mat matical tutor William Hopkins Though I knew much about several of the subjects the names of others were then unknown to me I was prompted to discover more about them all and gradually this interest evolved into the present book The project has expanded naturally to describe the Cambridge educational milieu of the time the work of William Hopkins and the later achievements of his pupils and their contemporaries As I have taught applied mathematics in a British university for forty years during a time of rapid change the struggles to implement and to resist reform in mid nineteenth century Cambridge struck a chord of recognition So too did debates about academic standards of honours degrees And my own experiences as a graduate of a Scottish university who proceeded to C bridge for postgraduate work gave me a particular interest in those Scots and Irish students who did much the same more than a hundred years earlier As a mathematician I sometimes felt frustrated at having to suppress virtually all of the ne mathematics associated with this period but to have included such technical material would have made this a very different book Romilly's Cambridge Diary, 1832-42 Joseph Romilly, 2009-07-20 The Rev Joseph Romilly 1791 1864 was a bachelor clergyman of the Church of England a Fellow of Trinity College and from 1832 to 1861 Registrary of the University of Cambridge He kept a regular diary from 1829 to his death and this selection introduced and edited by J P T Bury covers the years 1832 1842 Romilly was a cultured and travelled man of means he met many of the ablest scholars and leaders of his day and was a welcome quest in great houses This volume which begins in the year of Romilly's election as Registrary is a unique record of Cambridge before the Royal Commission of 1852 with many valuable sidelights on nineteenth century society and on intellectual life or the more relaxed Robert Willis (1800-1875) and the Foundation of Architectural History Alexandrina Buchanan, 2013 The first full side of it scale biography of Robert Willis the founding father of architectural history The 1702 Chair of Chemistry at **Cambridge** Mary D. Selected Passages from the Diary of the Rev. Joseph Romilly ... Chosen, Introduced and Annotated by J. P. T. Bury Joseph Romilly, 1967 From Cranmer to Davidson Stephen Taylor, 1999 Important texts in the Church's history collected together in one volume This first miscellany volume to be published by the Church of England Record Society contains eight edited texts covering aspects of the history of the Church from the Reformation to the early twentieth century The longest contribution is a scholarly edition of W J Conybeare s famous and influential article on nineteenth century Church Parties other documents included are the protests against Archbishop Cranmer's metropolitical powers of visitation the petitions to the Long Parliament in support of the Prayer Book and Randall Davidson's memoir on the role of the archbishop of

Canterbury in the early twentieth century Stephen Taylor is Professor in the History of Early Modern England University of Durham Contributors PAUL AYRIS MELANIE BARBER ARTHUR BURNS JUDITH MALTBY ANTHONY MILTON ANDREW ROBINSON STEPHEN TAYLOR BRETT USHER ALEXANDRA WALSHAM Mary Somerville and the Cultivation of Science, 1815-1840 E.C. Patterson, 2012-12-06 Among the myriad of changes that took place in Great Britain in the first half of the nineteenth century many of particular significance to the historian of science and to the social historian are discernible in that small segment of British society drawn together by a shared interest in natural phenomena and with sufficient leisure or opportunity to investigate and ponder them This group which never numbered more than a mere handful in comparison to the whole population may rightly be characterized as scientific They and their successors came to occupy an increasingly important place in the intellectual educational and developing economic life of the nation Well before the arrival of mid century natural philosophers and inventors were generally hailed as a source of national pride and of national prestige Scientific society is a feature of nineteenth century British life the best being found in London in the universities in Edinburgh and Glasgow and in a few scattered provincial centres A Concise History of the University of Cambridge E. S. Leedham-Green, 1996-09-26 This concise illustrated history of the University of Cambridge from its thirteenth century origins to the present day is the only book of its kind in print and is intended as a standard introduction for anyone interested in one of the world's greatest academic institutions Many individuals are celebrated here who have exerted great influence upon developments within the University and beyond But forces for change have often come from outside the University from central government or from the aspirations and expectations of society at large One of the prime objectives of this book is to describe how the university has reacted to or resisted these external pressures At the same time it conveys an impression of the day to day experiences of students and their teachers and administrators over the University s 700 year history Major university institutions such as the University Press and the University Library are also described briefly The book contains many attractive and often unusual illustrations of subjects ranging from medieval manuscripts to the striking new building Romilly's Cambridge Diary 1842-1847 Joseph Romilly, 1994 Charles Darwin: The Beagle projects of the 1990s Letters Charles Darwin, Conrad Martens, 2008-09-04 Charles Darwin s voyage on the HMS Beagle is a gripping adventure story and a turning point in the making of the modern world Brought together here in chronological order the letters he wrote and received during his trip provide a first hand account of a voyage of discovery that was as much personal as intellectual We follow Darwin's adventures as he prepares for his travels lands on his first tropical island watches an earthquake level a city and learns how to catch ostriches from a running horse We witness slavery political revolution and epidemic disease and share the otherworldly experience of landing on the Galapagos Islands and collecting specimens His letters are counterpoised by replies from family and friends that record a comfortable intimate world back in England Original watercolours by the ship's artist Conrad Martens vividly bring to life Darwin's descriptions of his travels

Wordsworth, Coleridge, and 'the Language of the Heavens' Thomas Owens, 2019 Thomas Owens explores exultant visions inspired by Wordsworth's and Coleridge's scrutiny of the night sky the natural world and the domains of science He examines a set of scientific patterns which the poets used to express ideas about poetry religion criticism and philosophy and sets out the importance of analogy in their creative thinking Rhinoplasty and the nose in early modern British medicine and culture Emily Cock, 2019-09-19 Challenging histories of plastic surgery that posit a complete disappearance of Gaspare Tagliacozzi's rhinoplasty operation after his death in 1599 Rhinoplasty and the nose in early modern British medicine and culture traces knowledge of the procedure within the early modern British medical community through to its impact on the nineteenth century revival of skin flap facial surgeries The book explores why such a procedure was controversial and the cultural importance of the nose offering critical readings of literary noses from Shakespeare to Laurence Sterne Medical knowledge of the graft operation was accompanied by a spurious story that the nose would be constructed from flesh purchased from a social inferior and would drop off when that person died The volume therefore explores this narrative in detail for its role in the procedure's stigmatisation its engagement with the doctrine of medical sympathy and its unique attempt to commoditise living human flesh
