The Journal of Physical Education ,1962 **Calvin Peete** Gordon Hobson,2024-02-06 The first ever biography of an overlooked PGA star and one of the best Black golfers in history His story is unprecedented in the world of golf Born to a family of migrant laborers Calvin Peete dropped out of school in the eighth grade went to work picking crops first swung a golf club at the age of 23 and rose to the top of the PGA In Calvin Peete Golf s Forgotten Star Gordon Hobson tells for the first time Peete s incredible story Hobson recounts how when Peete joined the lily white PGA tour in 1976 he stood out from the competition in more ways than one Peete wasn t raised in country clubs and didn t learn the game at prestigious golf universities He sported a huge Fu Manchu cowboy boots and had diamonds embedded in his teeth Peete had a permanently bent left elbow and practiced endless hours in a public park to develop one of the most accurate swings in the history of golf He endured years of futility and despair but eventually he emerged as the best player on the Tour from 1982-86 Calvin Peete s story is inspiring but it also reveals the struggles many Black golfers endured even after the Caucasian only clause was removed from the PGA s bylaws He may have won twelve championships played on the US Ryder Cup team twice and won the prestigious Vardon Award but the road to success wasn t easy Calvin Peete Golf s Forgotten Star shows how even without the advantages some people are born into one can find success through hard work determination and fortitude **STEM in the Technopolis: The Power of STEM Education in Regional Technology Policy** Cliff Zintgraff,Sang C. Suh,Bruce Kellison,Paul E. Resta,2020-05-27 This book addresses how forward thinking local communities are integrating pre college STEM education STEM pedagogy industry clusters college programs and local state and national policies to improve educational experiences drive local development gain competitive advantage for the communities and lead students to rewarding careers This book consists of three sections foundational principles city regional case studies from across the globe and state and national context The authors explore the hypothesis that when pre college STEM education is integrated with city and regional development regions can drive a virtuous cycle of education economic development and quality of life Why should pre college STEM education be included in regional technology policy When local leaders talk about regional policy they usually talk about how government universities and industry should work together This relationship is important but what about the hundreds of millions of pre college students taught by tens of millions of teachers supported by hundreds of thousands of volunteers who deliver STEM education around the world Leaders in the communities featured in STEM in the Technopolis have recognized the need to prepare students at an early age and the power of real world connections in the

process The authors advocate for this approach to be expanded They describe how STEM pedagogy priority industry clusters cross sector collaboration and the local incarnations of global development challenges can be made to work together for the good of all citizens in local communities This book will be of interest to government policymakers school administrators industry executives and non profit executives The book will be useful as a reference to teachers professors industry professional volunteers non profit staff and program leaders who are developing running or teaching in STEM programs or working to improve quality of life in their communities
