Rooms Which Were People:

Making Room for People Lei Qu, Evert Hasselaar, 2011 *Making Room for People* elaborates on preferences in housing. It explores how users, occupants, and citizens can express their needs, searching for the enhancement of individual choice and control over their residential environment and the predicted positive spin-offs for urban collectives. The central question is: What are the conditions under which an increase of people's choice and voice over the places they inhabit contribute to more liveable urban areas? The options to make choices and to have a say in urban design and housing matters are used as a conceptual framework. Choice and voice are the main concepts that structure the empirical material.

War Room: The People, Tactics and Technology behind Narendra Modi's 2014 Win Ullekh NP, 2015-01-26 *War Room* stands out as an example of real field work and rigorous research. Anyone who wants to understand how decisions are made in India should read this brilliant study of the BJP. Dr. Walter K. Andersen, author of *The Brotherhood in Saffron: The Rashtriya Swayamsevak Sangh and Hindu Revivalism*, Ullekh NP has crafted a well-researched and gripping narrative of how the BJP seized the moment in 2014. Its penetrating analysis of the personalities, politics, and methods of Modi and Amit Shah makes it a useful resource for answering the major question of India's near-term political future: Will the BJP in the Modi era realize its ambition of building 2014 to emerge as the dominant party nationwide? Sumantra Bose, Professor of International and Comparative Politics, London School of Economics, author of *Transforming India: Challenges to the World's largest Democracy*. Ullekh NP tells the story of Narendra Modi's campaign to lead the world's largest democracy. A man destined to reign on his own terms, Modi knew that being resilient was more important than being first and fast. Years after *War Room* is published, people will refer to it as the book that told the story of India's most spectacular election in May 2014 in all its subtle and magnificent details. Chitra Subramaniam, Award-winning Journalist and Author.

The Bedroom Michelle Perrot, 2018-08-21 An erudite and highly enjoyable exploration of the most intriguing of personal spaces from Greek and Roman antiquity through today. The winner of France's prestigious Prix Femina Essai 2009, this imaginative and captivating book explores the many dimensions of the room in which we spend so much of our lives: the bedroom. Eminent cultural historian Michelle Perrot traces the evolution of the bedroom from the time of the ancient Greeks and Romans to today, examining its myriad forms and functions: from royal king's chamber to child's sleeping quarters, to lovers' trysting place, to monk's cell. The history of women so eager for a room of their own and that of prisons where the principal cause of suffering is the lack of privacy is interwoven with a reflection on secrecy, walls, the night, and its mysteries. Drawing from a wide range of sources including architectural and design treatises, private journals, novels, memoirs, and correspondences, Perrot's engaging book follows the many roads that lead to the bedroom: birth, sex, illness, death. In its endeavor to expose the most intimate nocturnal side of human history.

The Foreign Missionary Chronicle, 1839 *People and Spaces* Tamie Glass, Lindsay Graham, 2024-12-30 *People and Spaces: Experience, Ethics, and Intent* examines the dynamic relationship between built environments and human behavior in

today's rapidly evolving world. Co-edited by a designer and a psychologist, this interdisciplinary collection reveals how the spaces we inhabit shape and reflect our self-expression, social structures, and cultural values. Drawing on diverse perspectives, case studies, and innovative research, *People and Spaces* equips readers from any discipline with practical, human-centric knowledge to enhance environments in meaningful ways. This blend of essays and expert insights demonstrates the value of intentional approaches to design and research and offers actionable guidance for creating supportive and sustainable environments. This book is relevant to a broad audience, including scholars, professionals, and students in architecture, interior design, psychology, and related fields, as well as industry practitioners interested in the intersection of built environments and human experience. It is an essential resource for those seeking to understand and influence the dynamic relationship between people and space.
