each stage of the White House's architectural and decorative evolution      **Retail Recovery** Mark Pilkington, 2021-08-19 Shortlisted for the Business Book Awards 2022 The world's retail sector has been devastated in recent years by two unstoppable forces: internet shopping and the Covid 19 lockdown. The result: huge numbers of prestigious brands have gone under or are now a shadow of their former selves and large parts of the world economy have fallen into a recession with reduced employment and incomes across large parts of society. High streets and shopping malls lie half empty, causing a vacuum at the heart of our communities and societies and many discretionary products have simply become too expensive for people to buy on a regular basis. There is now an urgent need to regenerate our local shopping areas: so how can retailers and brands respond to this crisis? Fortunately, new shoots of recovery are emerging from the wreckage of the old order: new brands, new ways of providing value and new and innovative methods of creating interest to draw in consumers, all of which have the potential to kick-start the retail economy. *Retail Recovery* offers a comprehensive analysis of these new forces that are changing the way in which we browse for and buy products and how we experience and engage with the brands themselves. It includes in-depth interviews with some of the most innovative players in the UK, Europe and North America in the hope of drawing out key learning points for the rest of the industry. It also provides essential guidelines for governments as they strive to rebuild and reinforce the retail spaces within our communities, allowing them to create a more effective economic lifeline for retailers, shoppers, retail workers, manufacturers and distributors.

*Handbook of Transatlantic North American Studies* Julia Straub, 2016-05-10 Transatlantic literary studies have provided important new perspectives on North American, British and Irish literature. They have led to a revision of literary history and the idea of a national literature. They have changed the perception of the Anglo-American literary market and its many processes of transatlantic production, distribution, reception and criticism. Rather than dwelling on comparisons or engaging with the notion of influence, transatlantic literary studies seek to understand North American, British and Irish literature as linked with each other by virtue of multi-layered historical and cultural ties and pay special attention to the many refractions and mutual interferences that have characterized these traditions since colonial times. This handbook brings together articles that summarize some of the crucial transatlantic concepts, debates and topics. The contributions contained in this volume examine periods in literary and cultural history, literary movements, individual authors as well as genres from a transatlantic perspective, combining theoretical insight with textual analysis.
