Rosenstock-Huessy Papers Eugen Rosenstock-Huessy, 1981 **Time Bettering Days and Other Essays** Eugen

Rosenstock-Huessy, 2025-05-20 The contributions of Eugen Rosenstock Huessy 1888 1973 one of the most profound and original thinkers of the twentieth century span several disciplines in the humanities history philosophy sociology linguistics religion although his work is ultimately uncategorizable In 1933 immediately upon the ascent of Hitler he emigrated to the United States from Germany where he had been teaching at the University of Breslau In the US he was a professor at Harvard University for two years and then moved to Dartmouth College where he taught until 1957 His voice is prophetic urgent and compelling and it remains relevant This volume is a compilation of nine essays written between 1937 and 1961 all but one of them previously unpublished **Creator** Peter J. Leithart, 2023-12-05 Discussion about God s work of creation are

often overwhelmed by questions such as the age of the earth and the relationship between divine creation and evolution Without completely ignoring these issues this rigorously grounded theological interpretation of Genesis 1 engages thinkers like Plato Martin Luther and Karl Barth **Idolizing the Idea** Wayne Cristaudo, 2019-10-16 Ever since Plato made the case for the primacy of ideas over names philosophy has tended to elevate the primacy of its ideas over the more common understanding and insights that are circulated in the names drawn upon by the community Commencing with a critique of Plato s original philosophical decision Cristaudo takes up the argument put forward by Thomas Reid that modern philosophy has generally continued along the way of ideas to its own detriment His argument identifies the major paradigmatic developments in modern philosophy commencing from the new metaphysics pioneered by Descartes up until the analytic tradition and the anti domination philosophies which now dominate social and political thought Along the way he argues that the paradigmatic shifts and break downs that have occurred in modern philosophy are due to being beholden to an inadequate sovereign idea or small cluster of ideas which contribute to the occlusion of important philosophical questions In addition to chapters on Descartes and the analytic tradition and anti domination philosophies his critical history of modern philosophy explores the core ideas of Locke Berkeley Malebranche Locke Hume Reid Kant Fichte Hegel Schelling Marx

Kierkegaard Schopenhauer Nietzsche Husserl and Heidegger The common thread uniting these disparate philosophies is what Cristaudo calls ideaism sic Rather than expanding our reasoning capacity ideaism contributes to philosophers imposing dictatorial principles or models that ultimately occlude and distort our understanding of our participative role within reality Drawing upon thinkers such as Pascal Vico Hamann Herder Franz Rosenzweig Martin Buber and Eugen Rosenstock Huessy Cristaudo advances his argument by drawing upon the importance of encounter dialogue and a more philosophical anthropological and open approach to philosophy **Franz Rosenzweig and Jehuda Halevi** Barbara Ellen Galli, Franz Rosenzweig, 1995 Galli s primary aim is to explore Rosenzweig s statement that his notes to Halevi s poems exemplify a practical application of the philosophic system he set out in The Star of Redemption Through an extended multifaceted investigation of Rosenzweig s thought Galli uncovers his philosophy of translation out of which she determines and unravels his philosophic conclusion and his belief that there is only one language In the final chapters she concentrates on the notes to the poems and in doing so attempts to philosophize according to Rosenzweig s own mandate full speech is word and response

Traces of the Trinity Peter J. Leithart, 2015-03-10 As the Triune God created the world so creation bears the signs of its Creator This evocative book by an influential Christian thinker explores the pattern of mutual indwelling that characterizes the creation at every level Traces of the Trinity appear in myriad ways in everyday life from our relations with the world and our relationships with others to sexuality time language music ethics and logic This small book with a big idea the Trinity as the Christian theory of everything changes the way we view and think about the world and places demands on the way we live together in community **The Cross and the Star** Wayne Cristaudo, Frances Huessy, 2009 This book brings to

publication three essays by Rosenstock Huessy on Nietzsche and a translation of a chapter from his Sociology clarifying the post Nietzschean approach of the new thinking *Maimonides Review of Philosophy and Religion Volume 2, 2023*, 2023-09-04 The Maimonides Review of Philosophy and Religion is an annual collection of double blind peer reviewed articles that seeks to provide a broad international arena for an intellectual exchange of ideas between the disciplines of philosophy theology religion cultural history and literature and to showcase their multifarious junctures within the framework of Jewish studies Contributions to the Review place special thematic emphasis on scepticism within Jewish thought and its links to other religious traditions and secular worldviews The Review is interested in the tension at the heart of matters of reason and faith rationalism and mysticism theory and practice narrativity and normativity doubt and dogma **There is a Garden**

in the Mind Paul A. Lee, 2013 A recount of the serendipitous meeting with English gardener Alan Chadwick in Santa Cruz in the 1960s and the work that developed the UC Santa Cruz Chadwick Garden the first organic and biointensive garden at a U S university **Resources in education**, 1989-04 **Deep Exegesis** Peter J. Leithart, 2009 The book is a powerful invitation to enter the depths of a text **Religion, Redemption and Revolution** Wayne Cristaudo, 2012-04-28 Religion Redemption and Revolution closely examines the intertwined intellectual development of one of the most important Jewish

thinkers of the twentieth century Franz Rosenzweig and his friend and teacher Christian sociologist Eugen Rosenstock Huessey The first major English work on Rosenstock Huessey it also provides a significant reinterpretation of Rosenzweig's writings based on the thinkers' shared insights including their critique of modern Western philosophy and their novel conception of speech This groundbreaking book provides a detailed examination of their new speech thinking paradigm a model grounded in the faith traditions of Judaism and Christianity Wayne Cristaudo contrasts this paradigm against the radical liberalism that has dominated social theory for the last fifty years Religion Redemption and Revolution provides powerful arguments for the continued relevance of Rosenzweig and Rosenstock Huessey's work in navigating the religious social and political conflicts we now face

Revolutions Paul Caringella, Glenn Hughes, 2013-02-21 *Revolutions Finished and Unfinished From Primal to Final* is an important philosophical contribution to the study of revolution It not only makes new contributions to the study of particular revolutions but to developing a philosophy of revolution itself Many of the contributors have been inspired by the philosophical approaches of Eric Voegelin or Eugen Rosenstock Huessey and the tension between these two social philosophies adds to the philosophical uniqueness and richness of the work

Biblical Studies and the Shifting of Paradigms, 1850-1914 Henning Graf Reventlow, William R. Farmer, 1995-05-01 The volume contains the contributions to a symposium in which specialists in different fields worked together in the attempt to throw by their cooperation more light on the conditions theological convictions and worldview political climate influence of state officials educational institutions and churches which were influential in the development of biblical studies in the second half of the 19th century The discussion originated with a special problem the thesis of William Farmer one of the co editors of the volume that the appointment of Heinrich Julius Holtzmann who defended the priority of the gospel of Mark as the oldest synoptic gospel to the New Testament professorship in Strasbourg in 1872 was the result of a direct intervention of the imperial chancellor Bismarck in the context of the kulturkampf who wished thereby to weaken the Roman Catholic position defending the supremacy of the chair of St Peter by the authority of the gospel of St Matthew Mt 16 18 The question belongs in the broader context of the presuppositions of Bible exegesis in the second half of the 19th century As both editors agreed that the matter is not yet finally settled it seemed to be essential for coming to deeper insights into the conditions under which biblical exegesis was enacted in the 19th century to broaden the scenery and to include other aspects that might throw more light on a period widely unknown to many scholars belonging to the present generation Therefore specialists of different fields joined a symposium in order to elucidate from their respective viewpoints and interests basic themes and methods of biblical exegesis scientific theology and the relations between state and university in the 19th century especially during the period of the second Reich But the themes were not restricted to this special area They included also a wider outlook into the first half of the century and across the borders of Germany into other European countries So the volume contains a collection of essays which have in common that all of them contribute to a better knowledge of the inner and outer

conditions which formed climate and results of Biblical interpretation in the period **Revelation 1-11 (ITC)** Peter J. Leithart, 2018-02-22 The Book of Revelation is the last book in the canon of the New Testament and its only apocalyptic document though there are short apocalyptic passages in various places in the gospels and the epistles This first of two volumes on Revelation offers systematic and thorough interpretation of the book of Revelation Revelation brings together the worlds of heaven earth and hell in a final confrontation between the forces of good and evil Its characters and images are both real and symbolic spiritual and material and it is frequently difficult to know the difference between them Revelation s cryptic nature has ensured that it would always be a source of controversy This commentary focuses on the theological content gleaned the best from both the classical and modern commentary traditions and showing the doctrinal development of Scriptural truths Scholarship on the book of Revelation has nonetheless not only endured but even captured the imagination of generations of Bible students both professionals and laypeople alike Through its focus on the message of the book through scholarly analysis this International Theological Commentary reconnects to the ecclesial tradition of biblical commentary as an effort in ressourcement though not slavish repetition **Client Participation in Human Services** Constance T. Fischer, Stanley L. Brodsky, "Speak that I May See Thee!" Harold Stahmer, 1968 **The Illusion of History Illusion of History** Andrew R. Russ, 2013 European radical political thought represented by Jean Jacques Rousseau Karl Marx and Michel Foucault has deeply impacted the Western intellectual tradition and political life These thinkers sought to transform Western societies by critiquing institutions that they felt led to oppression of groups They saw societies and institutions as part of a history that constantly develops and has no objective timeless purpose or principles They understood the history of things people do and of events that happen in a primarily evolutionary way As a result these radical political thinkers have often been thought to have a strong historical consciousness Andrew Russ argues in this book that a closer look at their philosophical underpinnings finds that Rousseau Marx and Foucault are much less historical in their methodology than is widely believed Instead they share a more timeless view one indebted to principles ordinarily seen as timeless or transcendent Russ finds that these thinkers are actually quite dependent on the philosopher who concluded the Enlightenment Immanuel Kant Russ s study shows how Kant s view of human freedom and subjectivity as timeless actually informs the work of the radical political position ABOUT THE AUTHOR Andrew R Russ is lecturer in European studies at the University of Adelaide
