Rostros de México Bernice Kolko, 1966 **Hacedores de imágenes** Roberto Rosique, 2004 **Indian Conquistadors** Laura E. Matthew, Michel R. Oudijk, 2014-02-13 The conquest of the New World would hardly have been possible if the invading Spaniards had not allied themselves with the indigenous population This book takes into account the role of native peoples as active agents in the Conquest through a review of new sources and more careful analysis of known but under studied materials that demonstrate the overwhelming importance of native allies in both conquest and colonial control In Indian Conquistadors leading scholars offer the most comprehensive look to date at native participation in the conquest of Mesoamerica The contributors examine pictorial archaeological and documentary evidence spanning three centuries including little known eyewitness accounts from both Spanish and native documents paintings lienzos and maps mapas from the colonial period and a new assessment of imperialism in the region before the Spanish arrival This new research shows that the Tlaxcalans the most famous allies of the Spanish were far from alone Not only did native lords throughout Mesoamerica supply arms troops and tactical guidance but tens of thousands of warriors Nahuas Mixtecs Zapotecs Mayas and others spread throughout the region to participate with the Spanish in a common cause By offering a more balanced account of this dramatic period this book calls into question traditional narratives that emphasize indigenous peoples roles as auxiliaries rather than as conquistadors in their own right Enhanced with twelve maps and more than forty illustrations Indian Conquistadors opens a vital new line of research and challenges
