Forever Craps Frank Scoblete, 2004-03-24 For the first time ever Frank reveals the full story of the legendary Captain of Craps the man who invented the 5 Count and the Supersystem from his childhood in Brooklyn during the Great Depression to his adventures in World War II to his postwar business booms and busts and to his discovery of the 5 Count and his assembling of the Crew **The Evolution of Imperfection** Laurence D. Hurst, 2025-04-08 How understanding our genetic imperfections can change our view of evolution and enrich what it means to be human If we start with the presumption that evolution is a constantly improving process some aspects of our evolution just do not make sense We have a high rate of genetic diseases for example and much of our DNA seems to be pointless In *The Evolution of Imperfection* Laurence Hurst explores our apparently rotten genetic luck Hurst a leading authority on evolution and genetics argues that our evolutionary imperfections proceed directly from two features the difficulties of pregnancy and the fact that historically there are relatively few of us In pregnancy natural selection can favor chromosomes that kill embryos in species including ours that continuously receive resources from the mother Most fertilized eggs don't make it and incompatibilities between the fetus and mother can lead to lethal disorders of pregnancy The historically small population size enhances the role of chance which in turn leads to both accumulation of unnecessary DNA and more mutation So what can save us One answer may lie in

genetic medicine which has given us therapies that make killer conditions preventable and even curable Hurst suggests that our seeming imperfections could be the key to a new way to understand evolution itself Looking at circumstances that seem to defy explanation we might come to a richer understanding of how evolution really works and what it means to be human

Backbeat Gangsters Jeffrey Sussman, 2025-04-15 During the early days of rock and roll the mob used every tactic they could from creating their own record labels bribing radio DJs and stacking jukeboxes with their own artists to exploiting and intimidating performers and creating their own black market of bootlegged records to make millions In the 1950s when rock and roll music burst upon the scene the major established record companies thought that the new music was a passing teenage trend but mobsters were there and pounced on the new business opportunity They opened small independent record companies signed ambitious young singers and musicians and produced truckloads of 45 rpm records To make sure that their records would be successful the mob bribed disc jockeys in major cities to play the records and made sure jukeboxes which were already mob controlled were filled to capacity with the new music Whatever it took to gain airtime and repeated plays of their songs the mob made sure it happened Backbeat Gangsters includes the stories of the most sinister people who took control of the record business during the early days of rock and roll as well as those of the numerous young performers who were exploited and received threats and beatings instead of the compensation they were promised The Mafia used intimidation and violence to achieve their ends and made millions from denying royalties maintaining copyrights and trademarks bribing DJs and numerous scams like flooding the market with counterfeit records which didn't have the burden of paying royalties In yet another well researched and thorough account Jeffrey Sussman details how the mob was able to infiltrate and control another aspect of American culture with devastating results
