## **Rousseau And Marx And Other Writings:**

Rousseau and Marx Galvano Della Volpe, 1979      **The Humanist Controversy and Other Writings** François Matheron, Louis Althusser, 2020-05-05 There can be little doubt that Louis Althusser was one of the most influential philosophers of the twentieth century and his influence subsists in many of the concepts currently deployed in disciplines such as cultural studies social theory and literary criticism Yet Althusser was also a leading intellectual in the French Communist Party and a foremost participant in the debates in the human sciences that are marked by the names of Claude Lvi Strauss Jacques Lacan and Georges Canguilhem His writings were major interventions in a specific political and theoretical conjuncture and it is this aspect of his work that this new collection of previously untranslated texts seeks to reflect Consisting of writings from the very height of Althusser's intellectual powers during the period 1966-67 this book covers among other things the critique of Lvi Strauss's structuralism the theory of discourse and its relationship to psychoanalysis the place of Ludwig Feuerbach the tasks of Marxist philosophy and the famous humanist controversy

Marxism and Totality Martin Jay, 1984 Totality has been an abiding concern from the first generation of Western Marxists most notably Lukács Korsch Gramsci and Bloch through the second exemplified by the Frankfurt School Lefebvre Goldmann Sartre Merleau-Ponty and Della Volpe up to the most recent typified by Althusser Colletti and Habermas Yet no consensus has been reached concerning the term's multiple meanings expressive decentered longitudinal latitudinal normative or its implications for other theoretical and practical matters By closely following the adventures of this troublesome but central concept Marxism Totality offers an unconventional account of the history of Western Marxism      *Constitutionalism beyond Liberalism* Michael W. Dowdle, Michael A. Wilkinson, 2017-01-26 Constitutionalism beyond Liberalism bridges the gap between comparative constitutional law and constitutional theory The volume uses the constitutional experience of countries in the global South China India South Africa Pakistan Indonesia and Malaysia to transcend the liberal conceptions of constitutionalism that currently dominate contemporary comparative constitutional discourse The alternative conceptions examined include political constitutionalism societal constitutionalism state-based Rousseauian conceptions of constitutionalism and geopolitical conceptions of constitutionalism Through these examinations the volume seeks to expand our appreciation of the human possibilities of constitutionalism exploring constitutionalism not merely as a restriction on the powers of government but also as a creating collective political and social possibilities in diverse geographical and historical settings

**Social Institutions and the Politics of Recognition: From the Reformation to the French Revolution** Tony Burns, 2020-08-19 This second volume continues the story told in the first by focusing on the writings of a selection of seminal thinkers in the seventeenth and eighteenth centuries in England the German-speaking world and in France ending with the debate around the French Revolution of 1789 Tony Burns discusses the work of Thomas Hobbes John Selden Sir Matthew Hale John Locke Samuel Clarke Johannes Althusius Samuel Pufendorf Gottfried Wilhelm Leibniz Jean Barbeyrac the

anonymous author of Militaire philosophe Claude Buffier l abb de Saint Pierre Jean Jacques Burlamaqui Montesquieu Jean Jacques Rousseau l abb de Siey s Jeremy Bentham Immanuel Kant Mary Wollstonecraft and Claude Henri de Saint Simon The author concludes with an analysis of the concept of administration in the writings of Saint Simon as a point of transition to the discussion of the themes of bureaucracy technocracy and managerialism in the third volume     **People's Power** Peter Roman,2019-07-11 The study on which this book is based began in 1986 with the fifth legislative session of the Cuban municipal assemblies The research on which the book is based was supported in part by grants from the City University of New York PSC CUNY Research Foundation     *Hegel's Philosophy of Right After 200 Years* Shterna Friedman,2022-10-20 Hegel s Philosophy of Right 1820 articulated a startling new vision of modern society as an integrated whole governed by the principle of freedom a vision that profoundly altered political theory and through Hegel s influence on Marx deeply changed the world in which we live Yet Hegel s thought is so notoriously obscure that it is difficult to pull together its many complex threads in order to understand what he accomplished and how he managed to do it In this volume leading political theorists and philosophers attempt to illuminate the impact of Hegel by looking back on the Philosophy of Right after two centuries shedding light on some of its most controversial elements Among the topics discussed are Hegel s theory of bureaucracy Marx s critique of that theory Hegel s alternative to nationalism his political cosmology his critique of natural law his organic idea of the good and his view of totality The contributors are Frederick Beiser Shterna Friedman Darren Nah Frederick Neuhouser Angelica Nuzzo Alan Patten Terry Pinkard Paul Rosenberg and Jacob Roundtree This book was originally published as a special issue of Critical Review     **The Unfinished System of Karl Marx** Judith Dellheim,Frieder Otto Wolf,2018-04-13 This book examines what we can gain from a critical reading of Marx s final manuscript and his conclusion of the systematic presentation of his critique which was the basis for Engels s construction of the third volume of his infamous Capital The text introduces the reader to a key problem of Marx s largely implicit epistemology by exploring the systematic character of his exposition and the difference of this kind of systematicity from Hegelian philosophical system construction The volume contributes to establishing a new understanding of the critique of political economy as it has been articulated in various debates since the 1960s especially in France Germany and Italy and as it had already been initiated by Marx and some of his followers with Rosa Luxemburg in a key role All the chapters are transdisciplinary in nature and explore the modern day relevance of Marx s and Luxemburg s theoretical analysis of the dominance of the capitalist mode of production     **The Young Karl Marx** David Leopold,2007-06-28 The Young Karl Marx is an innovative and important study of Marx s early writings These writings provide the fascinating spectacle of a powerful and imaginative intellect wrestling with complex and significant issues but they also present formidable interpretative obstacles to modern readers David Leopold shows how an understanding of their intellectual and cultural context can illuminate the political dimension of these works An erudite yet accessible discussion of Marx s influences and targets frames the author s critical engagement with

Marx's account of the emergence, character and future replacement of the modern state. This combination of historical and analytical approaches results in a sympathetic but not uncritical exploration of such fundamental themes as alienation, citizenship, community, anti-Semitism and utopianism. The Young Karl Marx is a scholarly and original work which provides a radical and persuasive reinterpretation of Marx's complex and often misunderstood views of German philosophy, modern politics and human flourishing.

**Harold Laski, the Reluctant Marxist** Peter Lamb, 2024-09-13 This book examines Harold Laski's relationship to Marxism. Laski was a reluctant Marxist; he had been a pluralist, democratic socialist who wanted to reach a better society by means of parliamentary, constitutional and associational channels. In fact, he never abandoned these early aspirations. In the 1930s and 1940s, he wove them into a distinctive Marxist position as he gradually came to believe that there was no answer to Marxist philosophy on history, social change and the prospects for socialism. It is the incorporation of his earlier political thought into his later work that makes his Marxism so fascinating and his work raises important questions. Harold Laski's Marxism aims to bring a relatively forgotten political theorist back into the spotlight. Peter Lamb provides an overview to Laski's political thought in the 20th century and explores his connections to essential foundations of Marxist thought. He ends with a discussion of ways in which Laski's Marxism is of lasting significance and can contribute to more recent Marxist and neo-Marxist debates.

**The Regime of the Brother** Juliet Flower MacCannell, 2002-01-22 The Regime of the Brother is one of the first attempts to challenge modernity on its own terms. Using the work of Lacan, Kristeva and Freud, Juliet MacCannell confronts the failure of modernity to bring about the social equality promised by the Enlightenment. On the verge of its destruction, the Patriarchy has reshaped itself into a new and often more oppressive regime: that of the Brother. Examining a range of literary and social texts from Rousseau's *Confessions* to Richardson's *Clarissa* and from Stendhal's *De L'Amour* to James's *What Maisie Knew* and Jean Rhys's *Wide Sargasso Sea*, MacCannell illustrates a history of the suppression of women, revealing the potential for a specifically feminine alternative.

**The Radical Attitude and Modern Political Theory** J. Edwards, 2006-11-14 The Radical Attitude and Modern Political Theory focuses on the appearance of modernity that can be best described as radical. First appearing in the sixteenth century, the attitude is best seen not as a coherent ideology or tradition but as a series of conceptual resources that continue to inform political discourse in the present.

**Revolutionary Democracy** Soma Marik, 2018-03-09 In this wide-ranging and insightful work, Soma Marik defends the legacy of the Bolshevik Revolution, arguing against many of its detractors that the early communist regime was centrally concerned with both the liberation of women and the expansion of democracy. Soma Marik teaches Women's Studies and History at Jadavpur University.

**Technosystem** Andrew Feenberg, 2017-10-02 We live in a world of technical systems designed in accordance with technical disciplines and operated by technically trained personnel, a unique social organization that largely determines our way of life. Andrew Feenberg's theory of social rationality represents both the threats of technocratic modernity and the potential for democratic change.

*The Hysterical Sublime* Matthew Flisfeder, 2025-06-26 Developing the concept of the hysterical sublime first theorised by Fredric Jameson to challenge posthumanist perspectives on the Anthropocene this book facilitates the rethinking of universal and dialectical humanism as concepts for grappling with 21st century capitalism In recent years posthumanist theories have been concerned with the overlapping dilemmas of global climate change digital automation and artificial intelligence corresponding to the age of the Anthropocene Matthew Flisfeder

explores how the fear of technology becomes for Jameson a substitute for the fears of the capitalist system and shows that posthumanism displaces such fears onto the figure of the human and anthropocentrism Drawing on Hegelian Lacanian theory the book argues that to rethink dialectical humanism requires moving past the historicist versions of Marxist humanism that imagine a complete reconciliation with non human nature that includes a process of dis alienation Flisfeder also studies posthumanism s performative contradiction of dismissing humanism while at the same time depending on the very concepts that constitute the core of humanist thought freedom equality responsibility and autonomy Through the concept of the hysterical sublime this book argues that not only is anthropocentrism and humanism the unconscious core of posthumanist theory emancipatory politics must take ownership of this perspective and renew universalist and dialectical humanism as the core of the political project resistant to capitalism and the Capitalocene
