Tsagalis, 2024-09-03 The Doloneia is the most controversial book of the Iliad its authenticity having been doubted since antiquity Modern scholars are divided between those who regard it as a major interpolation by a later poet who was trained in the technique of epic composition and those who see it as the earliest manifestation of the very ancient theme of lochos However the first claim assumes the stylistic homogeneity of book 10 while the second sweeps out dictional and thematic difficulties by attributing them to the theme of ambush that is weakly represented in the extant corpus of archaic Greek epic By applying sophisticated interpretive tools such as intratextual association intertextual allusion and oral neoanalysis this book maintains that Iliad 10 is thematically consonant with the rest of the Iliad and that it has evolved from an earlier Iliadic version after the addition of the Rhesus episode which did not circulate as an independent composition but formed part of lost oral epic poetry with cyclic features that focused on the events after the death of Achilles *Medieval Warhorse* Oliver H. Creighton, Robert Liddiard, Alan K. Outram, Carly Ameen, Kate Kanne, 2025-02-24 The image of the armoured knight mounted on his charging warhorse is one of the most evocative of the Middle Ages As distinctive symbols of social status horses were central to the medieval aristocratic image and closely bound up with concepts of knighthood and chivalry while as weapons of war bred for size strength and stamina they changed the face of battle Drawing upon new interdisciplinary research this volume presents

a fresh perspective on warhorses and medieval horses generally in Britain understood within its wider European context It adopts an integrated approach that covers the full array of evidence for medieval horses from their physical remains bones teeth and DNA equipment and armour through to visual sources such as sculpture and wall paintings and documentary and landscape evidence for the environments in which they were bred and trained Analyses of these sources of information are first presented individually and then integrated and cross compared with the historical record to present a new chronology of horse stature conformation and appearance and to generate new understandings of the changing place of the horse in the medieval world Journal of Medieval Military History: Volume XXII Kelly DeVries, John France, Clifford J.
