Religious Fundamentalism in the Contemporary World Santosh C. Saha, 2004-01-01 Today new and ever more pernicious forms of terrorist violence threaten the world Because these new forms of violence are so often linked to religious radicalism modern terrorism has challenged the secular ethics of contemporary civil society There is a pressing need to understand modern religious movements that have added militancy and belligerence as fundamental elements of religious practice Contributors to this volume painstakingly tackle the question of how to define the contours of current religious fundamentalism as they examine the private and public postures of fundamentalist rhetoric the importance of its regional variants and the damage it can do to regional and national education systems Their analysis tracks trends in religious movements that aspire to radicalize reform and violently topple governments and nations while highlighting the difference between fundamentalist interpretations and other longstanding juridical political and intellectual traditions

Global Rebellion Mark Juergensmeyer, 2008 This is an indispensable book in helping us understand the new world disorder that seems to be overtaking us Juergensmeyer points out that much of the world neither understands nor finds attractive the idea of a secular state He helps us see that religious nationalism is a fact of life that will be with us for a long time to come Deconstructing any simple notion of fundamentalism he shows us how it is possible to live with religious nationalism constructively without demonizing it That is a major achievement Robert Bellah coauthor of *Habits of the Heart* For years Mark Juergensmeyer has served as a kind of Cassandra figure warning us all about the rise of religious violence the global reach of religious nationalism and the challenges posed by new religious identities to the secular nation state Now that the world is finally listening Juergensmeyer remains our best guide in unraveling the complex interplay between religion and politics in the modern world *Global Rebellion* once again demonstrates why Juergensmeyer is the foremost authority on the global sociology of religion This is an awe inspiring work by arguably the most important thinker on the subject Reza Aslan author of *No god but God The Origins Evolution and Future of Islam*

In the Shadow of the Swastika Marzia Casolari, 2020-07-30 This book examines and establishes connections between Italian Fascism and Hindu nationalism connections which developed within the frame of Italy's anti British foreign policy The most remarkable contacts with the Indian political milieu were established via Bengali nationalist circles Diplomats and intellectuals played an important role in establishing and cultivating those tie ups Tagore's visit to Italy in 1925 and the much more relevant liaison between Subhas Chandra Bose and the INA were results of the Italian propaganda and activities in India But the most meaningful part of this

book is constituted by the connections and influences it establishes between Fascism as an ideology and a political system and Marathi Hindu nationalism While examining fascist political literature and Mussolini's figure and role Marathi nationalists were deeply impressed and influenced by the political ideology itself the duce and fascist organisations These impressions moulded the RSS a right wing Hindu nationalist organisation and Hindutva ideology with repercussions on present Indian politics This is the most original and revealing part of the book entirely based on unpublished sources and will prove foundational for scholars of modern Indian history *Ancient Religions, Modern Politics* Michael A. Cook, 2016-12-06

Why Islam is more political and fundamentalist than other religions Why does Islam play a larger role in contemporary politics than other religions Is there something about the Islamic heritage that makes Muslims more likely than adherents of other faiths to invoke it in their political life If so what is it *Ancient Religions Modern Politics* seeks to answer these questions by examining the roles of Islam Hinduism and Christianity in modern political life placing special emphasis on the relevance or irrelevance of their heritages to today's social and political concerns Michael Cook takes an in depth comparative look at political identity social values attitudes to warfare views about the role of religion in various cultural domains and conceptions of the polity In all these fields he finds that the Islamic heritage offers richer resources for those engaged in current politics than either the Hindu or the Christian heritages He uses this finding to explain the fact that despite the existence of Hindu and Christian counterparts to some aspects of Islamism the phenomenon as a whole is unique in the world today The book also shows that fundamentalism in the sense of a determination to return to the original sources of the religion is politically more adaptive for Muslims than it is for Hindus or Christians A sweeping comparative analysis by one of the world's leading scholars of premodern Islam *Ancient Religions Modern Politics* sheds important light on the relationship between the foundational texts of these three great religious traditions and the politics of their followers today [Conflict Change and Persistence](#) Meirav Mishali-Ram, 2019-09-05 This book traces the roots of the two enduring rivalries the India Pakistan and Arab Israeli conflicts It then compares trends of development and change over time and examines their impact on the persistence of each conflict Covering a wide range of historical events spanning seven decades in the two regions including major militarized disputes and peace negotiations the study points to variation in interstate relations and a significant increase in animosity between states and non state players It shows how changes in the agenda and the identity discourse of the main actors involved in these conflicts have undermined the idea of a two state solution hindering the resolution of the persistent conflicts in South Asia and the Middle East
