Wolf, 1936 **Colonialism and Culture** Nicholas B. Dirks, 2025-10-01 Colonialism and Culture edited by Nicholas B Dirks is an insightful exploration of the intricate relationship between colonialism and cultural transformation The book features contributions that reflect how colonialism reshaped cultural identities and expressions across the globe and how it remains a potent force defining both historical and contemporary landscapes Drawing on cases from different historical periods and geographic locations the essays examine how colonial powers imposed and justified their dominance through cultural means such as transforming local cultures into rigid categories of the other The impact of this cultural hegemony extended beyond the local to influence metropolitan societies altering notions of race nationality and power even in the colonizers homelands Essays delve into various aspects such as the role of missionary work in the Philippines peasant resistance in Southeast Asia labor practices in colonial Kenya and the conceptualization of time and development in colonial India The work encourages a reconsideration of colonialism not just as a historical occurrence but as an active component in the configuration of modern cultural and social institutions Engaging with the intersection of power and culture the book challenges readers to rethink traditional narratives of empire and its legacy offering new insights into the ongoing global implications of colonial structures *Rubber: The Social and Natural History of an Indispensable Substance* Vidya Rajan, 2025-06-26 THIS FASCINATING SOCIAL AND NATURAL HISTORY OF RUBBER WILL LAY BARE THE SHOCKING STORY OF AN ANCIENT SUBSTANCE THAT EXISTS QUIETLY IN THE BACKDROP OF OUR EVERYDAY LIVES The Aztecs and the Mayas believed that rubber possessed immense cosmic significance Today it is an indispensable and omnipresent part of human society But how did the journey of the substance take the turns that it did transforming it from an object of amusing curiosity to one of necessity Natural sciences expert Vidya Rajan takes us back in time to the Mesoamerican civilisation when rubber extracted from trees was used for a surprising variety of purposes from playing an early version of football to making waterproof footwear She tells us about the patent wars that it sparked Of how the demand for rubber triggered a terrible gory exploitation of the native populations of the Amazon Basin and the Congo regions where rubber trees were found in abundance Of how rubber came into existence at all over aeons of existential struggle between plants and animals and how it shaped them both This fascinating social and natural history of rubber will lay bare the extraordinary story of an ancient substance that underpins the fabric of our everyday lives The Essence of Stigler Kurt R. The Color Line and the Assembly Line Elizabeth Esch, 2018-05-04 The Color Line and the Assembly Line tells a new story of the impact of mass production on society Global corporations based originally in the United States have played a part in making gender and race everywhere Focusing on Ford Motor Company s rise to become the largest richest and most influential corporation in the world The Color Line and the Assembly Line takes on the traditional story of Fordism Contrary to popular thought the assembly line was perfectly compatible with all manner of racial practice in the United States Brazil and South Africa Each country s distinct racial hierarchies in the 1920s and 1930s informed Ford s often divisive labor processes Confirming racism as an essential component in the creation of global capitalism Elizabeth Esch also adds an important new lesson showing how local patterns gave capitalism its distinctive features *Raw Materials Bibliography* United States Tariff Commission, 1939 **The Banana Tree at the Gate** Michael Dove, 2011-01-01 The Hikayat Banjar a seventeenth century native court chronicle from Southeast Borneo characterizes the irresistibility of natural resource wealth to outsiders as the banana tree at the gate Michael R Dove employs this phrase as a root metaphor to frame the history of resource relations between the indigenous peoples of Borneo and the world system standing on its head the prevailing view of resource poor and economically marginal tropical forest dwellers In analyzing production and trade in forest products pepper and especially natural rubber Dove shows that the involvement of Borneo s native peoples in commodity production for global markets is ancient and highly successful This success is based on the development of a dual household economy with distinct subsistence and market oriented sectors which has historically made these smallholders extremely competitive with the large scale heavily capitalized state supported plantation sector Dove sheds new light on the nature of smallholders and in particular their relationship with the global economic system He demonstrates that processes of globalization began

millennia ago and that they have been more diverse and less teleological than often thought His analysis replaces the image of the isolated tropical forest community that needs to be helped into the global system with the reality of communities that have been so successful and competitive that they have had to fight political elites to keep from being forced out The ubiquitous but historically inaccurate emphasis on isolation and resource poverty disguises that the overweening characteristic of these communities is their political marginality and that their greatest want is not to be uplifted economically but to be empowered politically

The Devil and Mr Casement Jordan Goodman, 2020-05-05 In September 1910 the human rights activist and anti imperialist Roger Casement arrived in the Amazon to investigate reports of widespread human rights abuses in the vast forests stretching along the Putumayo river There the Peruvian entrepreneur Julio Cesar Arana ran an area the size of Belgium as his own private fiefdom his British registered company operated a systematic programme of torture exploitation and murder Fresh from documenting the scarcely imaginable atrocities perpetrated by King Leopold in the Congo Casement was confronted with an all too recognisable scenario He uncovered an appalling catalogue of abuse nearly 30 000 Indians had died to produce four thousand tonnes of rubber From the Peruvian rainforests to the City of London Jordan Goodman recounts a crime against humanity that history has almost forgotten but whose exposure in 1912 sent shockwaves around the world Drawing on a wealth of original research *The Devil and Mr Casement* is a story of colonial exploitation and corporate greed with enormous contemporary political resonance
