African Americans in Sports Gary A. Sailes,2017-07-05 Research on African American athletes generally focuses on negative stereotypes of physical prowess and socially controversial themes Most studies investigate racism prejudice discrimination and exploitation experienced by African American athletes Many studies contrast African American and white athletes on a number of variables that support prevailing elitist stereotypes and denigrate African American athletes But few studies investigate the diverse and complex cultural dichotomies within the infrastructure of sport in the African American community Gary Sailes maintains that it is crucial to develop a more eclectic and immersed cultural approach when investigating African American involvement in competitive sports The contributors to African Americans in Sports show that there are also intrinsic cultural paradigms that are evident presenting an informative and interesting narrative regarding African American athletes The chapters that make up this volume were written by noted scholars who were selected based on their expertise in their specific academic areas They write about different components of the experience of African American male athletes Chapters and contributors include Race and Athletic Performance A Physiological Review by David W Hunter The Athletic Dominance of African Americans Is There a Genetic Basis by Vinay Harpalani African American Player Codes on Celebration Taunting and Sportsmanlike Conduct by Vernon L Andrews and Stacking in Major League Baseball by Earl Smith and C Keith Harrison Many chapters were originally published as a special issue of the Journal of African American Men This volume should be read by all those involved in athletics as well as by sports sociologists and African American studies scholars *CMJ New Music Report* ,1999-08-16 CMJ New Music Report is the primary source for exclusive charts of non commercial and college radio airplay and independent and trend forward retail sales CMJ s trade
