Klaus-Peter Gast, Louis I. Kahn, 1999 1999 is the twenty fifth anniversary of Louis kahn s death In the second half of teh twentieth century Louis Kahn s designs took on enormous significance for international architecture Kahn belonged to that generation of architects which perfected and simultaneously surpassed Modernism Most of Kahn s projects were realised in the USA and several large projects were built in Asia From Kahn s early work to larger projects such as the National Capital of Bangladesh in Khaka and the Kimbell Art Museum in Fort Worth the documented works all illustrate the human aspect in Kahn s work **Louis Kahn**

Mateo Kries, Jochen Eisenbrand, Stanislaus von Moos, 2012 The American architect Louis Kahn 1901 1974 is regarded as one of the great master builders of the twentieth century With complex spatial compositions an elemental formal vocabulary and a choreographic mastery of light Kahn created buildings of archaic beauty As the first comprehensive publication on this architect in 20 years the book *Louis Kahn The Power of Architecture* presents all of his important projects It includes essays by prominent Kahn experts and an expansive illustrated biography with many new facts and insights about Kahn s life and work In a number of interviews leading architects such as Frank Gehry Renzo Piano Peter Zumthor and Sou Fujimoto underline Kahn s significance in today s architectural discourse An extensive catalogue of works features original drawings and architectural models from the Kahn archive The compendium is further augmented by a portfolio of Kahn s travel drawings as well as photographs by Thomas Florschuetz which offer completely new views of the Salk Institute and the Indian Institute of Management *Louis I Kahn* Robert McCarter, 2005-06-16 US architect Louis Kahn

1901 74 was one of the greatest influences on world architecture during the second half of the twentieth century This monograph focuses on Kahn s major designs from the Yale Art Gallery in New Haven Connecticut the Salk Institute La Jolla California the Kimbell Art Museum in Fort Worth Texas Phillips Exeter Library Exeter New Hampshire to the National Capital of Bangladesh and the Indian Institute of Management in Ahmedabad as well as a number of unfinished projects in order to understand his work and philosophy **Louis I. Kahn**

Louis I. Kahn, Luca Bellinelli, 1999 Accademia di architettura Mendrisio This publication on the construction of the Kimbell Art Museum by Louis I Kahn may prove very useful to students and to anyone interested in gaining further knowledge of the distinctive features of the Kimbell museum It documents the long and arduous quest that often characterizes a creative process even that of a great master such as Louis I Kahn The design of the Kimbell Art Museum is the product of extraordinary intuition and results in a masterly synthesis that solves all

the problems posed by the site and the specific purpose of the construction i Cataloghi dell Accademia di architettura 2 The series I Cataloghi documents the exhibitions i e reviews undertaken by the Academy of Architecture of the architectural works and events of the 20th century The initial stages are dedicated primarily to a comparison between the principal figures of this century and contemporary emerging architects This comparison attempts to trace the link that unites the birth and development of a theory to its subsequent concrete application along the winding path of research The exhibitions and their accompanying catalogues aim to offer all readers not only those attending the Academy a review of architects and architectural works that have enriched and continue to enrich the discipline of building **The Louis I. Kahn Archive:**

Buildings and projects, 1962-1965 Louis I. Kahn,1987 *Louis I Kahn* Thomas Leslie,2005-04-26 Philadelphia architect Louis I Kahn 1901 1974 was one of the most influential American architects of the twentieth century His work widely recognized as a link between modern and classical traditions is distinguished by its simple yet monumental design In this book Thomas Leslie shows that Kahn was also an extraordinarily gifted technologist and that his careful presentation of engineering principles set the stage for the high tech movement in Europe and America The examination of four major buildings the Yale Art Gallery the Richards Medical Laboratories the Salk Institute and the Kimbell Art Museum and several smaller projects by Kahn reveals this hidden theme an expressive integration of construction structure and services into buildings that dramatically highlight the processes involved in their making and function Previously unpublished drawings construction photographs and sketches complement new diagrams that illustrate the profound technical poetry within Kahn s buildings Because of its new approach to Kahn s work this book will be a vital resource for architects and designers both as a comprehensive analysis of these buildings and as a new interpretation of their constructed meaning Students and educators will also benefit from the book s focus on the role of basic building science in the design and construction of four major monuments of late twentieth century architecture 100 black and white illustrations Plans, Sections and Elevations

Richard Weston,2004 CD ROM contains files for all of the plans sections and elevations included in the book **The Greenwood Encyclopedia of Homes through World History** James M. From Agnesi to Mirzakhani Paola

Magnaghi-Delfino,Giampiero Mele,Tullia Norando,2019-10-08 The volume reports on interdisciplinary discussions and

interactions between theoretical research and practical studies on geometric structures and their applications in architecture the arts design education engineering and mathematics These related fields of research can enrich each other and renew their mutual interest in these topics through networks of shared inspiration and can ultimately enhance the quality of geometry and graphics education Particular attention is dedicated to the contributions that women have made to the scientific community and especially mathematics The book introduces engineers architects and designers interested in computer applications graphics and geometry to the latest advances in the field with a particular focus on science the arts and mathematics education *Reinventing Jerusalem* Simone Ricca, 2007-05-25 The Jewish quarter of Jerusalem today

seems like an organic fusion of a modern Israeli city with an ancient Jewish heritage However as Simone Ricca details in this fascinating book the aesthetics of the Jewish Quarter were deliberately planned and executed by Israel after it was occupied during the 1967 war Secular nationalist as well as religious politicians agreed that it should be turned in to the capital of the Jewish nation and that it should be excavated and developed in such a way as to create a sense of continuity with the Jewish people's historical claims to the land Zionist ideology was thus translated in to bricks and mortar as modern civic amenities were constructed around historic sites such as the Wailing Wall and the Hurva Synagogue Ricca examines the politics of heritage conservation and shows that the Old City's reconstruction did not so much preserve the past as inscribe an identity on to the future Revisualizing Visual Culture Chris Bailey, Hazel Gardiner, 2016-04-08 In the past twenty years digital

technology has had a radical impact on all the disciplines associated with the visual arts this book provides expert views of that impact By looking at the advanced ICT methods now being employed this volume details the long lasting effects and advances now made possible in art history and its associated disciplines The authors analyze the most advanced and significant tools and technologies from the ongoing development of the Semantic Web to 3D visualization focusing on the study of art in the various contexts of cultural heritage collections digital repositories and archives They also evaluate the impact of advanced ICT methods from technical methodological and philosophical perspectives projecting supported theories for the future of scholarship in this field The book not only charts the developments that have taken place until now but also indicates which advanced methods promise most for the future **Congressional Record** United States. Key Houses of the Twentieth Century Colin Davies, 2006 Featuring over 100 of the most significant and influential houses of the twentieth century For each of the houses included there are numerous accurate scale plans showing each floor together with elevations sections and site plans where appropriate All of these have been specially drawn for this book and are based on the most up to date information and sources **Project of Crisis** Marco Biraghi, 2013-08-30 An examination of the influential Italian architectural historian Manfredo Tafuri's historical construction of contemporary architecture The influential Italian architectural historian Manfredo Tafuri 1935 1994 invoked the productive possibilities of crisis writing that history is a project of crisis *progetto di crisi* In this entry in the Writing Architecture series Marco Biraghi explores Tafuri's

multifaceted and often knotty oeuvre using the historian's concept of a project of crisis as a lens through which to examine his historical construction of contemporary architecture. Mindful of Tafuri's statement that there is no such thing as criticism only history, Biraghi carefully maps the influences on Tafuri's writing: Walter Benjamin, Karl Krauss, Massimo Cacciari and the architect Ludovico Quaroni among others in order to create a portrait of one of the most complex minds in twentieth-century architecture and architectural history. Tracing an arc from Tafuri's first articles in the magazine *Contropiano* to the idea of contradiction at the center of the project of crisis, Biraghi cites Tafuri's writing on some of his contemporaries including Louis Kahn, Le Corbusier, Robert Venturi, Aldo Rossi and the Five Architects, Peter Eisenman, Michael Graves, Charles Gwathmey, John Hejduk and Richard Meier. Tafuri's historical construction of the contemporary, Biraghi explains, is based on the idea that the past is open, providing the present with ever-changing and indeterminate form. There is no contradiction between Tafuri the historian and Tafuri the contemporary critic; only the greatest possible integration. The importance of Tafuri's interpretation of architecture goes beyond mere academic or historiographic interest. Biraghi argues that Tafuri's notion of the project of crisis is fundamentally important in understanding our present-day architectural condition.

 Klaus-Peter Gast, Louis I. Kahn, 2001. This comprehensive and innovative study presents the fundamental features of Louis I. Kahn's architecture and describes his key buildings. It is based on drawings prepared specially for this book and previously unpublished photographs and has been described as the most rigorous and precise study so far attempted in the German language. Kurt W. Forster. Previously available in hardcover, it is now being published in softcover, ensuring that it will be accessible to all who are interested in the legacy of Kahn's work.

Understanding Islamic Architecture Attilo Petruccioli, Khalil K. Pirani, 2013-09-13. The ongoing debate among practitioners and in academia about the meaning and understanding of Islamic architecture will be energized by this book. It contains essays by architects and academics from various parts of the world which clarify how the various disciplines of the design profession can be employed to build in the spirit of Islam. Divided into three sections, the book covers meaning from Faith which draws meaning from the Islamic faith in order to propose a built environment that is universally beneficial; analysis of History which examines historical buildings and planning concepts and suggests how to apply lessons learned to contemporary practice; contemporary Trends which discusses current trends in architecture, education and socio-economic aspects of various Muslim countries. Illustrated throughout, this book will appeal to students and scholars, practising architects and planners alike.
