home Proust, Pastiche, and the Postmodern or Why Style Matters James F. Austin, 2013-08-28 Proust Pastiche and the Postmodern or Why Style Matters argues against the traditional view that Marcel Proust wrote pastiches that is texts that imitate the style of another author to master his literary predecessors while sharpening his writerly quill On the contrary James F Austin demonstrates that Proust's oeuvre and *In Search of Lost Time* in particular deploy pastiche to other ends Proust's pastiches in fact do things with words to create powerful real world effects His works are indeed performative acts that forge social relationships redefine our ideas of literature and even work against oppressive political and economic discourses Building on the speech act theory of J L Austin Jacques Derrida and J Hillis Miller and on the postmodern theory of Fredric Jameson this book not only elucidates the performative nature of pastiche but also shows that the famous Goncourt pastiche from *In Search of Lost Time* has attracted so much attention because it already attained the postmodern that is it eliminated temporal depth and experience transforming time itself into a nostalgic style of an era and into the sort of aestheticized surface that came to define postmodernism decades later To reflect this transformation of pastiche this work rearticulates its history in France around Proust Reconfiguring a scholastic classically inspired pedagogical tradition based on imitation and breaking with the dominant satirical practice Proust's work opened up possibilities in the twentieth century for a new kind of pastiche playful and performative in the literary field and postmodern in a French cinema that as with the Goncourt pastiche represents time as the visual style of an era whether unreflexively in heritage films such as Régis Wargnier's *Indochine* or discerningly in Eric Rohmer's *Lady and the Duke* which uses period pictorial and painterly conventions to illustrate how the representation of history onscreen typically flattens time into style *Recovering 1940s Horror Cinema* Mario DeGiglio-Bellemare, Charlie Ellbé, Kristopher Woofert, 2014-12-11 The 1940s is a lost decade in horror cinema undervalued and written out of most horror scholarship This collection revises reframes and deconstructs persistent critical binaries that have been put in place by scholarly discourse to label 1940s horror as somehow inferior to a classical period or canonical mode of horror in the 1930s especially as represented by the monster films of Universal Studios The book's four sections re-evaluate the historical political economic and cultural factors informing 1940s horror cinema to introduce new theoretical frameworks and to open up space for scholarly discussion of 1940s horror genre hybridity periodization and aesthetics Chapters focused on Gothic and Grand Guignol traditions operating in forties horror cinema 1940s proto slasher films the independent horrors of the Poverty Row studios and critical reevaluations of neglected hybrid films such as *The Vampire's Ghost* 1945 and slippery auteurs such as Robert Siodmak and Sam Neufield work to recover a decade of horror that has been framed as having fallen victim to repetition exhaustion and decline *Electronic Musician*, 2005
