difficult to produce and even harder to fix Not surprisingly the color has been associated with all that is changeable and fleeting childhood love and money Only in the Romantic period did green definitively become the color of nature Pastoureau also explains why the color was connected with the Roman emperor Nero how it became the color of Islam why Goethe believed it was the color of the middle class why some nineteenth century scholars speculated that the ancient Greeks couldn't see green and how the color was denigrated by Kandinsky and the Bauhaus More broadly Green demonstrates that the history of the color is to a large degree one of dramatic reversal long absent ignored or rejected green today has become a ubiquitous and soothing presence as the symbol of environmental causes and the mission to save the planet With its striking design and compelling text Green will delight anyone who is interested in history culture art fashion or media
