Making Sense Of Media:

Making Sense of Media and Politics Gadi Wolfsfeld, 2011-06-23 Politics is above all a contest and the news media are the central arena for viewing that competition. One of the central concerns of political communication has to do with the myriad ways in which politics has an impact on the news media and the equally diverse ways in which the media influences politics. Both of these aspects in turn weigh heavily on the effects such political communication has on mass citizens. In *Making Sense of Media and Politics* Gadi Wolfsfeld introduces readers to the most important concepts that serve as a framework for examining the interrelationship of media and politics: political power can usually be translated into power over the news media; when authorities lose control over the political environment they also lose control over the news; there is no such thing as objective journalism; nor can there be the media are dedicated more than anything else to telling a good story; the most important effects of the news media on citizens tend to be unintentional and unnoticed. By identifying these five key principles of political communication the author examines those who package and send political messages; those who transform political messages into news; and the effect all this has on citizens. The result is a brief, engaging guide to help make sense of the wider world of media and politics and an essential companion to more in-depth studies of the field. *Making Sense of the Media* Eleonora Castaño Ferreira, João Paulo Castaño Ferreira, 1997 It draws on students' own experiences to develop their creativity, imagination and critical skills. In *Making Sense of the Media* the authors demonstrate how teachers can use Freire's techniques to deal with the enormous challenges of multicultural education in this country. *Making Sense of Media* George R. Rodman, 2001 *The Making Sense of Politics, Media, and Law* Gary Watt, 2023-04-13 From Trump's 'make America great again' to Johnson's 'build back better' performative politicians use *The Making Sense* to persuade their public audiences. Law makers do it too. A courtroom trial is a truth factory in which facts are not found but forged. The court of popular opinion is another such factory though its processes are often flawed and its products faulty. Where courts of law aim to make civil peace, trial by Twitter makes civil strife. Even in mainstream media, journalists make news for public consumption so that all news is to an extent fake news. In a world of making how can we separate craft from craftiness? With insights from disciplines including law, politics, rhetoric, media studies, psychology, sociology, marketing and performance studies *The Making Sense of Politics, Media and Law* offers a constructive way to approach controversies from transgender identity to cancel culture. This title is also available as open access on Cambridge Core. *Media Studies* Paul Long, 2014-07-10 *Media Studies Texts Production Context* 2nd Edition is a comprehensive introduction to the various approaches in the field. Why Study the Media? Roger Silverstone,1999-10-22 It s easy to be snobbish about media culture the great merit of Roger Silverstone s book is to make the reader understand just how important that culture is Richard Sennett

New York University A remarkable book which argues for a new paradigm for the study of the media Daniel Dayan Centre National de la Recherche A persuasive and sophisticated discussion of the role of the media in modern life at the threshold of the twenty first century Ellen Seiter University of California A very important book one that moves media theory and argument on at long last This is an attempt to get people to think differently about the media not just when they are writing essays but also when they are arguing about media in everyday life Simon Frith University of Stirling The centrality of the media all media to human experience from the conduct of everyday life to the exercise of power to the creation of culture is inescapable We live in an intensely mediated world Yet the academic study of the media has rarely made its own insights accessible and relevant to those outside its own limited sphere Indeed it is constantly under attack for its lack of rigour apparent failure to address the needs of industry and its inability to tell us anything substantive about the world in which we live Written as a manifesto and in order to set a new intellectual agenda Why Study the Media argues for the importance of the media in our culture and society and the consequent necessity of taking the media seriously as an object of enlightened but rigorous investigation At once human and humane Why Study the Media will be welcomed by all those in search of new ways of thinking about our mediated world
