Imagined Audiences Jacob L. Nelson, 2021 Many believe the solution to ongoing crises in the news industry including profound financial instability and public distrust is for journalists to improve their relationship with their audiences This raises important questions How do journalists conceptualize their audiences in the first place What is the connection between what journalists think about their audiences and what they do to reach them Perhaps most importantly how aligned are these imagined audiences with the real ones Imagined Audiences draws on ethnographic case studies of three news organizations to reveal how journalists assumptions about their audiences shape their approaches to their audiences Jacob L Nelson examines the role that audiences have traditionally played in journalism how that role has changed and what those changes mean for both the profession and the public He concludes by drawing on audience studies research to compare journalism s imagined

audiences with actual observations of news audience behavior The result is a comprehensive study of both news production and reception at a moment when the relationship between the two has grown more important than ever before

Reporting the Courts Richard Jones, 2024-12-04 This book makes a critical intervention into debates about journalism and the crisis in local news Interrogating the history and current practice of court coverage in the UK the author argues for its importance as a central feature of both open justice and public interest reporting The book challenges narratives of a decline in the perceived quality of local media Yet it also highlights a reliance on major local press companies facing acute financial challenges meaning court reporting faces a potentially precarious future The book critically examines coverage of the courts in the context of financial crises which have diminished both newspapers and the criminal justice system How the norms of court journalism emerged and evolved are put under scrutiny and the book then considers how court reporting is practiced today including the use of cameras and social media as well as remote hearings during and since the pandemic The author takes us inside a major murder trial and explores why court reporting remains worth preserving and enhancing Offering recommendations which could help to maintain and extend coverage of the courts this volume will interest students and scholars of journalism mass communication media studies media law and communication studies

Handbook of Global Media Ethics Stephen J.A. Ward,2021-09-02 This handbook is one of the first comprehensive research and teaching tools for the developing area of global media ethics The advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims For many scholars teachers and journalists the existing journalism ethics e g existing codes of ethics is too parochial and national It fails to provide adequate normative guidance for a media that is digital global and practiced by professional and citizen A global media ethics is being constructed to define what responsible public journalism means for a new global media era Currently scholars write texts and codes for global media teach global media ethics analyse how global issues should be covered and gather together at conferences round tables and meetings However the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics This handbook is a milestone in the field and a major contribution to media ethics **Changing and Unchanging Face of U.S. Civil Society** Marcella Ridlen Ray,2017-12-02

Ray has written a book that should be read by anyone interested in the current debates about the general health of civil society in the United States American Journal of Sociology The formation maintenance and well being of American civil society is a topic of intense debate in the social sciences Until now this debate has lacked rigor with the term civil society commonly used interchangeably and imprecisely with other terms such as civic engagement Today s discourse also lacks methodological discipline and relies too heavily on narrowly selected evidence in support of a particular argument In this invaluable contribution to the debate Marcella Ridlen Ray supplies an empirical study based on a theoretical model of democratic civil society one that posits high levels of communication diversity autonomy mediation and voluntary association In Ray s account the emergent story of U S civil society is that of a dynamic institution not necessarily one that is linear in its progression It is a tale of flux resilience and stability over the long term that is consistent with subtexts on political equilibrium she notes in the work of early political analysts such as Aristotle Machiavelli Locke Burke and later Tocqueville Ray dispels the widely accepted myth that Americans are increasingly apathetic and withdrawn from common interests The evidence reveals a persistence of long standing public spiritedness despite the fact that individuals use wider discretion in deciding if and how to attach to community and despite a historical lack of enthusiasm for performing civic duties in lieu of more pleasurable leisure activity This public spiritedness continues to reflect embedded religious cultural values that disproportionately influence how and when people dedicate time and money to associational life U S civil society has grown more inclusive and democratic as Americans venture at growing rates across differences in perspective
