Making Space For Theatre British Architecture And Theatre Since 1958:

Making Space for Theatre J. R. Mulryne, Margaret Shewring, 1995-01-01 **Theatre Spaces 1920-2020** Iain Mackintosh, 2023-03-09 In this lavishly illustrated hands on account of the creation of new theatre spaces spanning a century Iain Mackintosh offers a compelling history that is part memoir part impassioned call to rethink the design of our theatre spaces and the future of live theatre As the originator of theatre designs as diverse as the Cottesloe in 1977 Glyndebourne in 1994 the Orange Tree Theatre in 1991 the Martha Cohen Theatre in 1985 and the Tina Packer Playhouse in 2001 he discovered why the same show worked in some theatres but not in others It is this unique blend of experience that informs this account of many of the best known theatre spaces in Britain besides many international examples including the Guthrie Theater Minneapolis and the Oslo Opera House Running throughout is a consideration of factors which have shaped design thinking during this time and which demand attention today After the long theatre closures driven by the Covid 19 pandemic Mackintosh argues that now is the time to discover the routes travelled over the last century Published in partnership with the Society of Theatre Research the book features a foreword by Sir Richard Eyre Director of the National Theatre 1987 1997 *Theatre and Architecture* Juliet Rufford, 2015-01-14 Theatre and architecture are seeming opposites one a time based art form experienced in space the other a spatial art experienced over time The book unpicks these assumptions demonstrating ways in which theatre and architecture are essential to each other and contextualizing their dynamic relationship historically and culturally *Designing for the Theatre* Francis Reid, 2013-10-08 Now in its second edition *Designing for the Theatre* has established itself as the authoritative introduction to the processes of design for the theatre Covering the contribution which can be made by costume sets props and lighting to a stage production the author explains the purpose and process involved in their design Included in this second edition are new photographs and drawings illustrating some of the most exciting and diverse current trends in stage design *Setting the Scene* Alistair Fair, 2016-03-03 During the twentieth century an increasingly diverse range of buildings and spaces was used for theatre Theatre architecture was re formed by new approaches to staging and performance while theatre was often thought to have a reforming role in society Innovation was accompanied by the revival and reinterpretation of older ideas The contributors to this volume explore these ideas in a variety of contexts from detailed discussions of key architects work including Denys Lasdun Peter Moro Cedric Price and Heinrich Tessenow to broader surveys of theatre in West Germany and Japan Other contributions examine the Malm Stadsteater ideal theatres in post war North America found space in 1960s New York and Postmodernity in 1980s East Germany Together these essays shed new light on this complex building type and also contribute to the wider architectural history of the twentieth century **Theatre Buildings** Association of British Theatre Technicians (ABTT), Margaret Shewring, 2024-02-20 In 2021 its Diamond Jubilee year the Association of British Theatre Technicians ABTT undertook to revise *Theatre Buildings A Design Guide* Routledge 2010 This new edition Routledge 2023

has substantially re written text with fresh images and entirely new reference projects providing essential guidance for all those engaged in the design of theatre buildings Edited by Margaret Shewring Emeritus Reader University of Warwick former Director of the Postgraduate Diploma and MA in Theatre Consultancy this new publication is written by a team of international experts architects theatre consultants acousticians engineers and industry professionals led by Tim Foster Foster Wilson Size and Robin Townley CEO of the ABTT It provides an invaluable resource for those looking to build remodel or conserve theatre buildings taking into account the significant changes which have taken place in the last twelve years in all aspects of theatre design and technical practice It locates those changes in the wider context of the need for sustainability in the theatre industry in response to the climate emergency inclusivity diversity of access placemaking and concerns for health and wellbeing This new edition provides guidance for anyone who seeks inspiration and encouragement to create or improve a place of entertainment or who seeks to understand what might be required to accommodate an audience for the presentation of live performance and the successful use operation and organisation of such a venue Its generous format and the thirty two new reference projects more than 260 high resolution colour images and 175 diagrams and specially commissioned plans make it accessible and informative both to the general reader and the professional specialist

Twentieth-Century British Theatre Claire Cochrane, 2011-10-27 In this book Claire Cochrane maps the experience of theatre across the British Isles during the twentieth century through the social and economic factors which shaped it Three topographies for 1900 1950 and 2000 survey the complex plurality of theatre within the nation state which at the beginning of the century was at the hub of world wide imperial interests and after one hundred years had seen unprecedented demographic economic and industrial change Cochrane analyses the dominance of London theatre but redresses the balance in favour of the hitherto marginalised majority experience in the English regions and the other component nations of the British political construct Developments arising from demographic change are outlined especially those relating to the rapid expansion of migrant communities representing multiple ethnicities Presenting fresh historiographic perspectives on twentieth century British theatre the book breaks down the traditionally accepted binary oppositions between different sectors showing a broader spectrum of theatre practice **Inside the Royal Shakespeare Company** Colin

Chambers, 2004-02-24 This is the inside story of the Royal Shakespeare Company a running historical critique of a major national institution and its location within British culture as related by a writer who is uniquely placed to tell the tale It describes what happened to a radical theatrical vision and explores British society s inability to sustain that vision Spanning four decades and four artistic directors Inside the Royal Shakespeare Company is a multi layered chronicle that traces the company s history offers investigation into its working methods its repertoire its people and its politics and considers what the future holds for this bastion of high culture now in crisis Inside the Royal Shakespeare Company is compelling reading for anyone who wishes to explore behind the scenes and consider the changing role of theatre in modern cultural life It offers

a timely analysis of the fight for creative expression within any artistic or cultural organisation and a vital document of our times *Event-Space* Dorita Hannah,2018-07-11 As the symbolists constructivists and surrealists of the historical avant garde began to abandon traditional theatre spaces and embrace the more contingent locations of the theatrical and political event the built environment of a performance became not only part of the event but an event in and of itself Event Space radically re evaluates the avant garde s championing of nonrepresentational spaces drawing on the specific fields of performance studies and architectural studies to establish a theory of performative architecture Event was of immense significance to modernism s revolutionary agenda resisting realism and naturalism and simultaneously the monumentality of architecture itself Event Space analyzes a number of spatiotemporal models central to that revolution both illuminating the history of avant garde performance and inspiring contemporary approaches to performance space Cultural Planning Graeme Evans,2002-09-26 Cultural Planning is the first book on the planning of the arts and culture and the interaction between the state arts policy the cultural economy and town and city planning
