Callens, 2009-10-02 In a career spanning forty years the Chicago born David Mamet 1947 not only left his imprint on American drama with stage classics like *American Buffalo* *Glengarry Glen Ross* and *Oleanna* he systematically ventured into different genres and media as a way of experimenting honing his craft and broadening his audiences The international scholars assembled in the present volume assess Mamet's career to date focussing particularly on his forays into film television the novel and adaptation translation as well as on how his work fared in the hands of other artists whether with serious or comic intentions By measuring his works diverse incarnations against each other his more apodictic theorizings and essays in the light of formal institutional and historical determinants this volume also contributes to a more general reflection on the intermedial and interdisciplinary practice of contemporary artists *The American Play* Marc

Robinson, 2009-05-26 In this brilliant study Marc Robinson explores more than two hundred years of plays styles and stagings of American theater Mapping the changing cultural landscape from the late eighteenth century to the start of the twenty first he explores how theater has and has not changed and offers close readings of plays by O'Neill Stein Wilder Miller and Albee as well as by important but perhaps lesser known dramatists such as Wallace Stevens Jean Toomer Djuna Barnes and many others Robinson reads each work in an ambitiously interdisciplinary context linking advances in theater to developments in American literature dance and visual art The author is particularly attentive to the continuities in American drama and expertly teases out recurring themes such as the significance of visuality He avoids neatly categorizing nineteenth and twentieth century plays and depicts a theater more restive and mercurial than has been recognized before Robinson proves both a fascinating and thought provoking critic and a spirited guide to the history of American drama **The Facts on File**

Poetics of Politics Sebastian M. Herrmann, Carolin Alice Hofmann, Katja Kanzler, Stefan Schubert, Frank Usbeck, 2015-04-22 This volume proposes the poetics of politics as an analytic angle to interrogate contemporary cultural production in the United States As recent scholarship has observed American literature and culture around the turn of the millennium while still deeply informed by the textual self consciousness of postmodernism are marked by a rekindled interest in matters of social concern This revived interest in politics is frequently read as a grand epochal transition Sidestepping such a logic of periodization this book points to the interplay between the textual and the political as a dynamic always locally specific that affords unique insights into the characteristics of the contemporary moment The sixteen case studies in this book explore this interplay across a wide range of media genres and modes Together they make visible a broad cultural concern with negotiating social relevance and textual self awareness that permeates and structures contemporary US popular culture
