Matisse In Morocco:

Matisse in Morocco Jeff Koehler, 2025-06-03 The remarkable and little known story of the two groundbreaking winters that Henri Matisse spent painting in Morocco a fertile period that transformed his art and marked his work until the very end In winter of 1912 Henri Matisse forty two nearing mid career and yet to find lasting critical acceptance public admiration or financial security since exploding to the forefront of the avant garde in 1905 with his iconoclastic Fauve paintings was struggling Once the vanguard leader the Parisian avant garde now considered him pass His important early collectors including Gertrude and Leo Stein had stopped buying his work and were fully championing Picasso and he had exhibited little in the last few years In the face of Cubism that was now dominating the art scene Matisse needed to get away from Paris in order to advance his distinctive artistic vision Almost on a whim he went to Tangier Matisse had already been profoundly inspired by Islamic art and was primed for his arrival in the Moroccan city where such art was integrated into everyday life Despite the challenges of rain insomnia depression and finding models the sojourn was such a success he returned the following winter which would lead to even greater artistic triumph Matisse in Morocco tells the story of the artist s groundbreaking time in Tangier and how it altered Matisse s development as a painter and indelibly marked his work for the next four decades Through Koehler s research and travel we experience Matisse s time in Tangier the paintings and their subjects his relationships with his wife Am lie and his two important collectors and then come to understand the impact Morocco its light colors culture and artistic traditions had on his art From Landscape Viewed From a Window to Zorah on the Terrace from Kasbah Gate to the dream like tableau Moroccan Caf these works from Morocco are now recognized as some of the most significant and dazzling of Matisse s illustrious career *Matisse in Morocco* Jack Cowart, 1990

Matisse's Poets Kathryn Brown, 2017-09-21 Throughout his career Henri Matisse used imagery as a means of engaging critically with poetry and prose by a diverse range of authors Kathryn Brown offers a groundbreaking account of Matisse's position in the literary cross currents of 20th century France and explores ways in which reading influenced the artist's work in a range of media This study argues that the *livre d'artiste* became the privileged means by which Matisse enfolded literature into his own idiom and demonstrated the centrality of his aesthetic to modernist debates about authorship and creativity By tracing the compositional and interpretive choices that Matisse made as a painter print maker and reader in the field of book production this study offers a new theoretical account of visual art's capacity to function as a form of literary criticism and extends debates about the gendering of 20th century bibliophilia Brown also demonstrates the importance of Matisse's self placement in relation to the French literary canon in the charged political climate of the Second World War and its aftermath Through a combination of archival resources art history and literary criticism this study offers a new interpretation of Matisse's artist's books and will be of interest to art historians literary scholars and researchers in book history and modernism **Orientalist Aesthetics** Roger Benjamin, 2003-02-03 Lavishly illustrated with exotic images ranging from Renoir's forgotten Algerian oeuvre to the abstract vision of Matisse's Morocco and beyond this book is the first history of Orientalist art during the period of high modernism Roger Benjamin drawing on a decade of research in untapped archives introduces many unfamiliar paintings posters miniatures and panoramas and discovers an art movement closely bound to French colonial expansion Orientalist Aesthetics approaches the visual culture of exoticism by ranging across the decorative arts colonial museums traveling scholarships and art criticism in the Salons of Paris and Algiers Benjamin's rediscovery of the important Society of French Orientalist Painters provides a critical context for understanding a lush body of work including that of indigenous Algerian artists never before discussed in English The painter critic Eugène Fromentin tackled the unfamiliar atmospheric conditions of the desert Etienne Dinet sought a more truthful mode of ethnographic

painting by converting to Islam and Mohammed Racim melded the Persian miniature with Western perspective Benjamin considers armchair Orientalists concocting dreams from studio bric brac naturalists who spent years living in the oases of the Sahara and Fauve and Cubist travelers who transposed the discoveries of the Parisian Salons to create decors of indigenous figures and tropical plants The network that linked these artists with writers and museum curators was influenced by a complex web of tourism rapid travel across the Mediterranean and the march of modernity into a colonized culture Orientalist Aesthetics shows how colonial policy affected aesthetics how Europeans visualized cultural difference and how indigenous artists in turn manipulated Western visual languages

Henry Ossawa Tanner Henry Ossawa Tanner, Anna O. Marley, 2012 This book constitutes a very welcome contribution to the public appreciation and scholarly study of Henry Ossawa Tanner a painter of considerable significance in both Europe and America and one whose religious imagery merits careful consideration These well researched essays by an international team of scholars offer substantial reflections on complex issues of race and religion and situate the artist's work and career within the context of his life and times This is a robust framing of Tanner as a cultural phenomenon and one that readers will find quite rewarding David Morgan Professor of Religion at Duke University and author of The Embodied Eye Religious Visual Culture and the Social Life of Feeling Henry Ossawa Tanner has finally been recognized as an important artist in the last twenty years and is now firmly part of the American canon as the first major African American painter to emerge from the academy This book enriches our understanding of Tanner's historic place in American art by considering his work as an early modernist religious artist a status entwined with his race but not defined by it These essays by an impressive collection of scholars are full of substantially new material and succeed in broadening our conception of Tanner's life and work Bruce Robertson Professor of Art and Architecture at the University of California Santa Barbara
