**A Matter of Choice** Philip Hodgkiss, 2022-01-01 A Matter of Choice represents a substantive discussion of the concept of choice in human affairs taken against the backdrop of ethics and religion Drawing on a range of contributions Hodgkiss demonstrates in this study that though often not the primary issue under consideration a concern with choice has featured continually in human thought from the Hellenistic world of the Stoics to the post Kantian environment of modern philosophy Moreover he argues that the social and historical dimension of choice has been consistently underplayed and that the role of choice in modern economic and political developments is underestimated at our peril Through a critical account of the literature Hodgkiss adeptly diagnoses the insufficiency of the current conception of the choice making sovereign individual in the contemporary liberal democratic capitalist context and outlines the implications of this philosophy for the choice maker

A Matter of Perception Margaret Berger Morse, 2006-10 Madeline Ross's life was in an upheaval Hurt and disappointed perceiving that her church had betrayed her she sought to find the truth Old wounds of childhood abuse and a failing marriage added to her state of mind What was she to do Would her faith carry her through Had God truly forsaken her A story of betrayal heartbreak loss of relationship and the journey of life it is also one of faith and perseverance Madeline knew she would die if she did not do something She knew she had a choice to live or to die This book is dedicated to all men and women who no longer believe themselves victims      **A Matter of Discretion** Brian R. Calfano, Melissa R. Michelson, Elizabeth A. Oldmixon, 2017-04-12 Clergy are pillars of local religious communities and Roman Catholic priests are perhaps the quintessential examples of pastors functioning as political elites The political science literature demonstrates that priests indeed clergy more generally are well positioned to influence the faithful even if this influence is somewhat inconsistent At their core priests are opinion leaders and representatives of their church to both the faithful and their local communities But exactly how Catholic priests determine the political acts and attitudes associated with their elite role remains a puzzle We suggest it is the product of an interactive institutional social and psychological milieu the complexity of which has not been fully assessed in the extant literature Though some might prefer to think of priests as profiles in courage operating above the political fray the institutional and personal realities of priest life often forces them to deal with the political realm In doing so priests are variably responsive to different principals or reference groups that represent specific dimensions of their professional context Drawing on a series of randomized experiments on samples of Roman Catholic priests in the US and Ireland we find that priests cognitively draw on varying professional and personal cues in responding to their employer's institutional preferences Furthermore how priests represent their church's political preferences to parishioners appears to be a matter of individual level discretion      *Investigating Certain Matter Relating to Food Production, Distribution, and Consumption* United States.
