Architecture Thinking across Boundaries Rajesh Heynickx,Ricardo Costa Agarez,Elke Couchez,2021-01-14 While most studies on the history of architectural theory have been concerned with what has been said and written this book is concerned with how architecture theory has been created and transmitted Architecture Thinking across Boundaries looks at architectural theory through the lens of intellectual history Eleven original essays explore a variety of themes and contexts each examining how architectural knowledge has been transferred across social spatial and disciplinary boundaries whether through the international circulation of ideas transdisciplinary exchanges or transfers from design practice to theory and back again Dissecting the frictions transformations and resistances that mark these journeys the essays in this book reflect upon the myriad routes that architectural knowledge has taken while developing into architectural theory They critically enquire the interstices geographical temporal and epistemological that lie beyond fixed narratives They show how unstable vital and eminently mobile the processes of thinking about architecture have been **The Architects' Journal** ,2002

Architecture Today, 2001 *Rationalist Traces* Andrew Peckham, Torsten Schmiedeknecht, Charles Rattray, 2007-10-22 Modern European architecture has been characterised by a strong undercurrent of rationalist thought Rationalist Traces aims to examine this legacy by establishing a cross section of

contemporary European architecture placed in selected national contexts by critics including Kos Moravnszky and Josep Maria Montaner Subsequent interviews discuss the theoretical contributions of Giorgio Grassi and OM Ungers and a survey of Max Dudler and De Architekten Cie's work sets out a consistency at one remove from avant garde spectacle or everyday expediency In Germany Rationalism offers a considered representation of state institutions while elsewhere outstanding work reveals different approaches to rationality in architecture often recalling canonical Modernism or the Rational Architecture of the later postwar period Whether evident in patterns of thinking a particular formal repertoire a prevailing consistency or exemplified in individual buildings this relationship informs the mature work of Patrick Berger Claus en Kaan Architekten Carlos Ferrater Cino Zucchi or Hans Kollhoff The buildings and projects of a younger generation Javier Garc a Solera GWJ Architekten AG biq Andrea Bassi or Beniamino Servino present a Rationalism less conditioned by a concern to promote a unifying aesthetic While often sharing a deliberate economy of means or a sensual sobriety they present a more oblique or distanced relationship with the defining work of the 20th century

Blurred Transparencies in Contemporary Glass Architecture Aki Ishida, 2020-04-22 Blurred Transparencies in Contemporary Glass Architecture brings to light complex readings of transparent glass through close observations of six pivotal works of architecture Written from the perspectives of a practitioner the six essays challenge assumptions about fragility and visual transparency of glass A material imbued with idealism and utopic vision glass has captured architects' imagination and glass's fragility and difficulties in thermal control continue to present technical challenges In recent decades architecture has witnessed an emergence of technological advancements in chemical coating structural engineering and fabrication methods that resulted in new kinds of glass transparencies Buildings examined in the book include a sanatorium with expansive windows delivering light and air to recovering tuberculosis patients a pavilion with a crystal clear glass plenum circulating air for heating and cooling a glass monument symbolizing the screen of personal devices that shortened the distance between machines and humans and a glass building symbolizing the social and material intertwining in the glass ceiling metaphor Connecting material glass to broader cultural and social contexts Blurred Transparencies in Contemporary Glass Architecture enlightens students and practitioners of architecture as well as the general public with interest in design The author demonstrates how glass is rarely crystal clear but is blurred both materially and metaphysically revealing complex readings of ideas for which glass continues to stand

Ai Weiwei: Spatial Matters Ai Weiwei, 2014-04-04 A richly illustrated exploration of Ai Weiwei's installation and architecture projects focusing on the artist's use of space Outspoken provocative and prolific the artist Ai Weiwei is an international phenomenon In recent years he has produced an astonishingly varied body of work while continuing his role as activist provocateur and conscience of a nation Ai Weiwei is under city arrest in Beijing after an 81 day imprisonment he is accused of tax evasion but many suspect he is being punished for his political activism including his exposure of shoddy school building practices that led to the deaths of thousands of children in the 2008 Sichuan earthquake In 2009 he was

badly beaten by the police during his earthquake investigations Ai Weiwei's work reflects his multiple artistic identities as conceptual artist architect filmmaker designer curator writer and publisher This monumental volume developed in association with the artist draws on the full breadth of Ai Weiwei's architectural installation and activist work with a focus on his use of space It documents a huge range of international projects with drawings plans and photographs of finished work It also includes excerpts from Ai Weiwei's famous blog shut down by Chinese authorities in 2009 in which he offers pithy and scathing commentary on the world around him Essays by leading critics and art historians and interviews with the artist drawing out his central concerns accompany the 450 beautifully reproduced color illustrations of his work *RIBA Journal*, 2001-07 *Contemporary Swiss Architecture*, 1953 Swiss Graphic Design Richard Hollis, 2006-01-01 Originally published London Laurence King Pub 2006 *Modern Architecture* Naomi Stungo, 2002 This series of monographs presents the stars of the world of architecture and their greatest works Each book features over 50 colour photographs and is written by an acknowledged expert to create an authoritative and insightful assessment of the career of its subject *World Architecture*, 2002 **The International Studio**, 1902 International Literary Market Place. European Edition, 1968 Construction Matters Stefan Holzer, Silke Langenberg, Clemens Knobling, Orkun Kasap, 2025-03-04 Construction History Construction Heritage Recent Construction Historiography Industrialization Engineering Sciences Building Materials Building Actors Construction History is still a fairly new and small but quickly evolving field The current trends in Construction History are well reflected in the papers of the present conference Construction History has strong roots in the historiography of the 19th century and the evolution of industrialization but the focus of our research field has meanwhile shifted notably to include more recent and also more distant histories as well This is reflected in these conference proceedings where 65 out of 148 contributed papers deal with the built heritage or building actors of the 20th or 21st century The conference also mirrors the wide spectrum of documentary and analytical approaches comprised within the discipline of Construction History Papers dealing with the technical and functional analysis of specific buildings or building types are complemented by other studies focusing on the lives and formation of building actors from laborers to architects and engineers from economical aspects to social and political implications on legal aspects and the strong ties between the history of construction and the history of engineering sciences The conference integrates perfectly into the daily work at the Institute for Preservation and Construction History at ETH Zurich Its two chairs the Chair for Building Archaeology and Construction History and the Chair for Construction Heritage and Preservation endeavor to cover the entire field and to bridge the gaps between the different approaches methodologies and disciplines between various centuries as well as technologies learning together and from each other The proceedings of 8ICCH give a representative picture of the state of the art in the field and will serve as a reference point for future studies
