Class, Race, Gender, and Crime Gregg Barak,Paul Leighton,Jeanne Flavin,2010-07-16 A decade after its first publication Class Race Gender and Crime remains the only non edited book to systematically address the impact of class race and gender on criminological theory and all phases of the administration of criminal justice including its workers These topics represent the main sites of inequality power and privilege in the U S which consciously or

unconsciously shape people's understandings of who is a criminal and how society should deal with them. The third edition has been thoroughly updated and revised. Maintaining the accessible high interest narrative from previous editions, it incorporates current data, recent theoretical developments and new examples ranging from Bernie Madoff and the recent financial crisis to the increasing impact of globalization in addition to classic examples. This edition also features a revised structure to better tailor the book for use in the classroom. Part I now provides an introduction to criminology and criminal justice. Part II introduces foundational information on the key concepts of class and economic privilege, race, ethnicity and white privilege, gender and male privilege and the intersections of these privileges. And Part III examines victimization, criminal law, criminal prosecution and punishment, looking at each through the lenses of class, race and gender.
