Invisible Universe, The: Dark Matter, Dark Energy, And The Origin And End Of The Universe Antonino Del

Popolo,2021-04-20 This book describes some of the frontier problems of cosmology our almost total ignorance of what the Universe is made up of the mystery of its origin and its end The book starts with a description of the historical events that led to the construction of the Big Bang model together with the stages that transformed the Universe from a very hot place to a very cold one full with the structures that we observe today These structures stars galaxies etc constitute only 5% of the contents of the Universe Concerning the remaining 95% dubbed dark matter and dark energy we know very little and we have only indirect evidence of their existence The text describes the story and the protagonists who showed the need for the existence of this missing matter the observations and puzzles they had to solve to understand that dark matter was not ordinary matter The book describes the hunt for dark matter carried out with instruments operating in space on the Earth's surface and in laboratories built in the bowels of the Earth It also describes dark energy which manifests itself in the accelerated expansion of the Universe and appeared only a few billions of years ago The book discusses why dark energy must exist and what its existence implies especially for the future and the end of our Universe

Gerry Ferguson,1998-11-01 In this age of globalization many legal experts see evidence of swift global movement toward an eventual single world legal system Yet the trend to political and economic integration in some parts of the world is matched by the trend to disintegration in others where strong cultural and political resistance to external influences exists Asia Pacific Legal Development traces current and prospective developments in several legal systems of the Asia Pacific region to make sense of these trends and counter trends The contributing authors represent a wide variety of specialist expertise both public and private and together they encompass the three sectors that constitute a modern system of formal law the economic the behavioural and the civic Taking into account the opinions and perspectives of both indigenous and non indigenous experts on topics ranging from prostitution to constitutional law the book surveys how several ASEAN nations as well as Canada Australia and New Zealand are confronting social economic and legal change In the first three parts chapters are grouped along general sectoral lines to cover economic civic and behavioural themes while in the fourth cross sectoral contexts are addressed With the introduction and concluding chapter the editors provide an overall integrating framework as well as provocative insights into trends in legal development in the Asia Pacific region and on comparative legal research and writing in general Asia Pacific Legal Development is not only an exemplary model for cooperative and comparative legal research and scholarly pluralism but also a rich study of the increasingly relevant issue of convergence and divergence of legal systems with a unique Asian focus Immunology of Intracellular Parasitism F. E. G. Cox,F. Y. Liew,1998-07 Intracellular prokaryotic and eukaryotic organisms cause some of the most intractable problems in the fields of human and animal infectious diseases Such infections are characteristically long and chronic and accompanied

by deleterious immunopathological changes The nine chapters in this volume all written by internationally acknowledged experts in their fields explore the immunological features common to representative intracellular organisms and also the special features whereby particular species evade immune attack and how they are destroyed with special reference to experimental and human listeriosis tuberculosis leishmaniasis toxoplasmosis African and American trypanosomiasis malaria cryptosporidiosis and the cattle disease theileriosis The emphasis is on the roles of lymphocytes macrophages NK cells cytokines and the contrasting roles of Th1 Th2 cells in protective and counter protective immune responses The importance of understanding these phenomena for the development of vaccines for strategies for ameliorating immunopathological responses and for explaining why some infections are important concomitants in AIDS while others are not is stressed This volume brings together and establishes links between diverse studies concerning the immunological aspects of the host parasite relationship otherwise scattered throughout the literature Authoritative and up to date it will be of particular interest to anyone working or teaching in the fields of immunology parasitology microbiology and infectious diseases

Touch of Passion Susan Spencer Paul, 2007-04-01 My Dearest Reader When you hear my story perhaps you will think me a man unable to control his own hungers his own temptations But I warn you that I am no such thing I am simply a man who knows what he wants and what he can't live without It is only fair to tell you that my clan is one descended from magic I have learned these powers are both a blessing and a curse for the magic that flows through my blood controls my fate utterly and completely When I first saw the beautiful Loris I knew she was my unoliaeth my oneness the woman I am destined to unite with for all eternity At that moment I allowed my passion to lead me to do the unthinkable I employed a forbidden magic to win Loris's heart How did I know that my error would lead to a black curse that still haunts me today How could I have known that the curse would irrevocably cast Loris's affection for me to

another man Now I am left to ponder how I might win Loris back black curse be damned I believe there must be a way For while it is the darkest realms of magic that keeps Loris from becoming mine there is another power at play the undying unending love of one man for one woman And I pray that in the end that will be enough Your obedient servant Kian Seymour Castle Tylluan London
