Myanmar Dilemmas And Options The Challenge Of Economic Transition In The 1990s:

Myanmar Dilemmas and Options Mya Than, 1990 The political upheavals in the Union of Myanmar in 1988-89 precipitated many changes in the political, social and economic sectors. The country is now at a critical crossroad in its history and development. This study on Myanmar's options in terms of restructuring its economy is therefore useful and timely. The papers in this volume attempt to identify the major issues concerning the role of the state and economic management, the new directions in resource, agricultural and industrial development and the challenges arising from the opening up of the economy to the stimuli of external trade and capital movements. Burma's Economy in the Twentieth Century Ian

Brown, 2013-11-07 At the beginning of the twentieth century Burma was among the most prosperous territories in the East. Yet since gaining independence in 1948 its economy has struggled. Burma's developmental failure has often been attributed to gross mismanagement of the economy by the military who took power in 1962, but in this illuminating book Ian Brown, one of the leading economic historians of Southeast Asia, provides a fresh examination of the country's economic past, thereby setting that failure in the context of the colonial period. For the first time a review of Burma's economic experience in the final decades of British rule is integrated with an analysis of its economy since independence, providing a detailed understanding of the complex origins of Burma's economic failure in the second half of the twentieth century. This is a compelling introduction to Burma's political and economic history for students in Southeast Asian history, development studies and political science.

India--Myanmar Relations Rajiv Bhatia, 2015-08-11 This book provides a comprehensive evaluation of India's multi-faceted relations with Myanmar. It unravels the mysteries of the complex polity of Myanmar as it undergoes transition through democracy after long military rule. Based on meticulous research and understanding, the volume traces the trajectory of India-Myanmar associations from ancient times to the present day and offers a fascinating story in the backdrop of the region's geopolitics. An in-depth analysis of the India-Myanmar-China Triangle brings out the strategic stakes involved. It will be of great interest to researchers and scholars of international relations, peace and conflict studies, defence and strategic studies, politics, South and Southeast Asian studies as well as policy makers and political think tanks.

Developmental States Linda Low, 2004 As the Asian crisis triggered or precipitated the meltdown, a second objective is to explore the reasons and factors for the breakdown or redundancy of developmental states, distinguishing between domestic transformative capacity and external global factors as identified. A third objective is to cull experiences and lessons beyond East Asia. With many transition economies in Central and Eastern Europe, beside China and Indochinese states, the theory and practice of developmental states may be a useful bridge. These are by no means exhaustive and comprehensive. The volume aims to question and address issues. For individual developmental states covered in this volume, country-specific lessons may also be drawn for them to be reconfigured to stay relevant. The most important consideration for this volume is to value and add to the literature both the theory and principles of the Asian developmental state as well as empirical observations.

observed elsewhere This volume comprises 13 chapters in two parts *Industrial and Trade Policy Reform in Developing Countries* Ramesh Adhikari, Colin H. Kirkpatrick, John Weiss, 1992 *Regional Community Building in East Asia* Lee Lai To, Zarina Othman, 2016-09-01 This volume is a collection of papers written by nationals or former nationals of the respective country in ASEAN and Northeast Asia Unlike other works written by scholars outside ASEAN or East Asia it offers an insider's point of view of the 10 ASEAN states China Japan and South Korea on regional community building While a nationalist perspective may permeate throughout the study it is also clear that pursuing regional cooperation is considered to be important by the respective author denoting the non exclusivity between nationalism and regionalism and the mutual reinforcement of the two Each author of this volume has made a deliberate effort to introduce and survey the developmental challenges and experiences of his or her country from a historical perspective All authors without exception have emphasized the importance and advantages in staying with ASEAN or linking up with ASEAN by China Japan and South Korea in political security economic and socio cultural terms Their papers also reveal that the self help and self strengthening mechanism emphasized by the ASEAN Plus Three process will take time to bear fruits In the meantime it seems that bilateral interactions and cooperation between ASEAN and Northeast Asian states remain to be more dominant as shown in this study One can argue that bilateral interactions are the building block of multilateralism interactions To be sure there is a deliberate effort in this study to highlight unity in diversity in East Asia in general and ASEAN in particular *The State in Myanmar* Robert H. Taylor, 2009 **State Dominance in Myanmar** Tin Maung Maung Than, 2007 Focuses on the state's efforts to industrialize Myanmar first through direct intervention and planning under a socialist economic framework as interpreted by the state leaders 1948-88 and lately 1989 onwards through state managed outward orientation *Burma* P. Carey, 1997-07-28 An up to date collection of essays by leading academics and Burma specialists covering some of the key economic ethnic political and social problems which currently confront Burma The book is divided into four parts Politics and Constitution Making Foreign Policy Views from the Periphery and the Challenges of Development Peter Carey's introduction provides a useful historical background and assesses the political prospects for Aung San Suu Kyi's National League for Democracy following her 1995 release **New Tigers and Old Elephants** Carl F. Horowitz, 2019-01-22 Which factors identify winners tigers in the development game and which characterize losers elephants are described in this approach to understanding economic development in a post cold war environment **The Southeast Asia Handbook** Patrick Heenan, Monique Lamontagne, 2013-04-03 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century The series allows the non specialist student to explore a wide range of complex factors social and political as well as economic that affect the growth of developing regions in Asia Europe and South America Each Handbook provides an overview chapter discussing the region's economic conditions within an historical

and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region's economy, its population, natural resources, foreign trade, labor problems, and economic inequalities and other vital factors. Human Rights in Development Yearbook 1998

Hugo Stokke, Arne Tostensen, 2023-12-14. The eleventh in the series of yearbooks on Human Rights in Developing Countries, this volume marks a departure from previous editions and a new beginning. The Yearbook will now bear the title of Human Rights in Development to reflect the fact that it will explore the role of human rights as an integral part of the development process. The new title is also an indication of the fact that the scope of the Yearbook has widened to include human rights topics and issues in the more developed parts of the world as well as in the developing countries covered hitherto. Moreover, human rights are themselves in development, and the new Yearbook plans to keep track of standard setting in the human rights field. Finally, the new title reflects the Yearbook's aim of engaging in more international and comparative studies on the one hand, and in more focused local issues on the other. With the rapid spread of new information technology and improved local monitoring capacity in developing countries, there may be less of a need for the type of nation level country studies the Yearbook performed in the past. Two themes cut across the series of articles contained in the current edition. One, human rights promotion, is explored in various ways: one article looks at the establishment of national human rights institutions as instruments of promotion; another analyses development interventions in terms of their impact on local populations drawing on UN and World Bank experience; yet another argues the case for using aid in human rights promotion, exemplified by Dutch aid to Guatemala; a fourth investigates the policies of the EU and ASEAN in seeking to improve the human rights situation in Burma; and finally, one article looks at the work of the ILO in standard setting and implementation in the field of child labour. The other theme, local conflict, is addressed in two articles: one looking at local communities in Latin America caught between local customs and ideologically charged civil wars, and the other investigating the tensions between centralized rule and local autonomy in Kenya recently erupting into ethnic violence. The Human Rights in Development Yearbook is a joint project of the Chr Michelsen Institute, Bergen; the Danish Centre for Human Rights, Copenhagen; the Icelandic Human Rights Centre, Reykjavik; the Ludwig Boltzmann Institute of Human Rights, Vienna; the Netherlands Institute of Human Rights, Utrecht; the Norwegian Institute of Human Rights, Oslo; and the Raoul Wallenberg Institute of Human Rights and Humanitarian Law, Lund.

Fiery Dragons Sean Turnell, 2009. This book tells the story of Burma's financial system of its banks, moneylenders, and microfinanciers from colonial times to the present day. It argues that Burma's financial system matters, and that the careful study of this system can tell us something more general about Burma, not least about how the richest country in Southeast Asia at the dawn of the twentieth century became the poorest at the dawn of the twenty-first. While financial systems and

institutions matter in all countries Turnell argues that they especially count in Burma as events in the financial and monetary sphere have been unusually spectacularly prominent in Burma's turbulent modern history The story of Burma's financial system and its players is one that has shaped the country It is a dramatic story of interest beyond the confines of economics and development studies **Foreign Investment in Southeast Asia in the Twentieth Century** J. Lindblad,1998-01-14

This monograph is the first book length study of foreign direct investment in Southeast Asia during both the late colonial period and in the contemporary period It examines the leading Southeast Asian countries receiving foreign investment this century The arrival of today's Asian investors from Japan and the four Asian NICs is described after a brief discussion of the transitionary period of warfare decolonization and assertion of newly independent states Special attention is given to the impact of foreign investment on the economic development of the host country **Promoting Human Rights in Burma**

Morten B. Pedersen,2008 Since 1988 when Burma's military rulers crushed a popular uprising Western governments have promoted democracy as a panacea for the country's manifold development problems Morten B Pedersen argues that Western democracy rhetoric has not supplied the solution to these problems Based on extensive field research Promoting Human Rights in Burma proposes an alternative model of critical engagement that emphasizes more pragmatic efforts to help bring a deeply divided society together and promote socioeconomic development as the basis for longer term political change

East Asian Dynamism Steve Chan,2019-03-08 East Asian Dynamism continues to offer a succinct account of Pacific regional political economy from the dawn of the modern world system to projections of alternative futures Steve Chan is a master at demystifying the geography history and culture of the region while bringing to life the current policy choices and dilemmas facing its people Political Corruption and Political Geography Peter J. Perry,2018-12-20 First published 1997

this volume examines the way in which political corruption remains neglected as a matter of scholarly enquiry and research There is still a powerful and traditional taboo which is quite out of the step with the topic's real world significance and the increasing attention it receives from serious sections of the media The book aims by systematic exposition and case study to break down that taboo and to demonstrate the topic's importance within a framework provided by the discipline of geography The novelty of the book is then that it considers a formerly unconsidered factor corruption as part of the world's geography as both part of the geographical context in which human activity takes place and as a spatially variable condition explicable at least in part in terms of other geographies The conclusion is that much geographical scholarship ignores this factor at the risk of its credibility The Emergence of Modern Southeast Asia David P. Chandler,Norman G. Owen,William R. Roff,David Joel Steinberg,Jean Gelman Taylor,Robert H. Taylor,Alexander Woodside,David K. Wyatt,2004-11-30

Myanmar (Burma) since 1962: the Failure of Development Peter John Perry,2021-02-27 Why has Myanmar Burma a country rich in resources rice timber minerals descended to least developed country status Is the explanation to be found inside Burma or beyond Is the failure of development due to political authoritarianism and conflict Or perhaps the drugs

trade is partly to blame This book contends that all these factors have contributed But it also maintains that the mismanagement of the country s resources is of equal or even greater importance A clear answer to the question of Burma s developmental failure is sought by focussing upon the misuse of resources in concert with those factors that are more usually emphasized

The Emergence Of Modern Southeast Asia Norman G. Owen, 2005-01-01 The modern states of Indonesia Vietnam Thailand the Philippines Myanmar Malaysia Singapore Cambodia Laos Brunei and East Timor were once a tapestry of kingdoms colonies and smaller polities linked by sporadic trade and occasional war By the end of the nineteenth century however the United States and several European powers had come to control almost the entire region only to depart dramatically in the decades following World War II

perspective on this complex region Although it does not neglect nation building the central theme of its popular and long lived predecessor *In Search of Southeast Asia* the present work focuses on economic and social history gender and ecology It describes the long term impact of global forces on the region and traces the spread and interplay of capitalism nationalism and socialism It acknowledges that modernization has produced substantial gains in such areas as life expectancy and education but has also spread dislocation and misery Organizationally the book shifts between thematic chapters that describe social economic and cultural change and country chapters emphasizing developments within specific areas will establish a new standard for the history of this dynamic and radically transformed region of the world
