Spaghetti Westerns at the Crossroads Fisher Austin Fisher, 2016-04-30 What links Italian neorealism to *Django* Unchained French comic books to Third World insurgency and Bollywood song and dance to Eastern Bloc film distribution As this volume illustrates the answers lie in the Spaghetti Western genre As the reference points of American popular culture became ever more prominent in post war Europe the hundreds of films that make up the Italian or Spaghetti Western documented profound shifts in their home country's cultural outlook while at the same time denying specifically national discourses An object of fascination and great affection for fans filmmakers and academics alike the Western all italiana arose from a diverse confluence of cultural strands and would become a pivotal moment in cinematic history Reappraising a diverse selection of films from the internationally famed works of Sergio Leone to the cult cachet of Sergio Corbucci and the more obscure outputs of such directors as Giuseppe Colizzi and Ferdinando Baldi this comprehensive study brings together leading international scholars in a variety of disciplines to both revisit the genre's cultural significance and consider its on going influence on international film industries
