Organizational Careers A Sourcebook For:

Organizational Careers Barney G. Glaser, Although sociologists have written extensively on the broad subject of occupational careers generally they have referred only incidentally to organizational careers within work organizations In this pioneering sourcebook now considered a classic Glaser gathered from the literature of occupational sociology those studies that bear most directly on organizational careers His objective was to provide the first survey of the substantial body of data on the subject and to place this data in a framework that illustrates its significance for the development of theory In an extensive introduction the editor explains the several purposes of the book and describes in detail the process of comparative analysis through which sociological theory on organizational careers can be generated Organized around general themes such as recruitment motivation commitment mobility and succession the writings of prominent sociologists including Riesman Caplow Hughes Becker and Wilensky form the content of the book and systematically cover every important facet of organizational careers The editor s introductions to each section of the book alert the reader to the general phenomena such as processes conditions categories hypotheses and properties that crosscut and are generally relevant to all organizational careers and are therefore the raw material of theory These introductions also suggest questions and problems for further analysis and research This book as a whole stands as a demonstration of the contributors method of how the sociologist working from the data of research can generate grounded formal theory on this or any social phenomenon This book also presents a vital body of data on organizational careers and a guide to further research that will be of great use both to occupational sociologists and to all those involved in the study of organizations Barney G Glaser is the founder of the Grounded Theory Institute in Mill Valley California and has also been a research sociologist at the University of California Medical Center San Francisco He is the author or coauthor of several books including *The Grounded Theory Perspective* *II Experts versus Laymen* *Time for Dying* and *The Discovery of Grounded Theory*

Organizational Careers

Barney G. Glaser, 1968 Although sociologists have written extensively on the broad subject of occupational careers generally they have referred only incidentally to organizational careers within work organizations In this pioneering sourcebook now considered a classic Glaser gathered from the literature of occupational sociology those studies that bear most directly on organizational careers His objective was to provide the first survey of the substantial body of data on the subject and to place this data in a framework that illustrates its significance for the development of theory In an extensive introduction the editor explains the several purposes of the book and describes in detail the process of comparative analysis through which sociological theory on organizational careers can be generated Organized around general themes such as recruitment motivation commitment mobility and succession the writings of prominent sociologists including Riesman Caplow Hughes Becker and Wilensky form the content of the book and systematically cover every important facet of organizational careers The editor s introductions to each section of the book alert the reader to the general phenomena such as processes

conditions categories hypotheses and properties that crosscut and are generally relevant to all organizational careers and are therefore the raw material of theory These introductions also suggest questions and problems for further analysis and research This book as a whole stands as a demonstration of the contributors method of how the sociologist working from the data of research can generate grounded formal theory on this or any social phenomenon This book also presents a vital body of data on organizational careers and a guide to further research that will be of great use both to occupational sociologists and to all those involved in the study of organizations Provided by publisher

Organizational Careers Barney G. Glaser, 2007-09-01 Although sociologists have written extensively on the broad subject of occupational careers generally they have referred only incidentally to organizational careers within work organizations In this pioneering sourcebook now considered a classic Glaser gathered from the literature of occupational sociology those studies that bear most directly on organizational careers His objective was to provide the first survey of the substantial body of data on the subject and to place this data in a framework that illustrates its significance for the development of theory In an extensive introduction the editor explains the several purposes of the book and describes in detail the process of comparative analysis through which sociological theory on organizational careers can be generated Organized around general themes such as recruitment motivation commitment mobility and succession the writings of prominent sociologists including Riesman Caplow Hughes Becker and Wilensky form the content of the book and systematically cover every important facet of organizational careers The editor's introductions to each section of the book alert the reader to the general phenomena such as processes conditions categories hypotheses and properties that crosscut and are generally relevant to all organizational careers and are therefore the raw material of theory These introductions also suggest questions and problems for further analysis and research This book as a whole stands as a demonstration of the contributors method of how the sociologist working from the data of research can generate grounded formal theory on this or any social phenomenon This book also presents a vital body of data on organizational careers and a guide to further research that will be of great use both to occupational sociologists and to all those involved in the study of organizations Barney G Glaser is the founder of the Grounded Theory Institute in Mill Valley California and has also been a research sociologist at the University of California Medical Center San Francisco He is the author or coauthor of several books including *The Grounded Theory Perspective II Experts versus Laymen Time for Dying* and *The Discovery of Grounded Theory*

Organizational Careers Barney G. Glaser, 2006

Organizational Careers Anselm (Anselm L.) Strauss, 1968

Organizational Careers Barney Glaser, 2017-09-29 Although sociologists have written extensively on the broad subject of occupational careers generally they have referred only incidentally to organizational careers within work organizations In this pioneering sourcebook now considered a classic Glaser gathered from the literature of occupational sociology those studies that bear most directly on organizational careers His objective was to provide the first survey of the substantial body of data on the subject and to place this data in a framework that illustrates its significance for

the development of theory In an extensive introduction the editor explains the several purposes of the book and describes in detail the process of comparative analysis through which sociological theory on organizational careers can be generated Organized around general themes such as recruitment motivation commitment mobility and succession the writings of prominent sociologists including Riesman Caplow Hughes Becker and Wilensky form the content of the book and systematically cover every important facet of organizational careers The editor's introductions to each section of the book alert the reader to the general phenomena such as processes conditions categories hypotheses and properties that crosscut and are generally relevant to all organizational careers and are therefore the raw material of theory These introductions also suggest questions and problems for further analysis and research This book as a whole stands as a demonstration of the contributors method of how the sociologist working from the data of research can generate grounded formal theory on this or any social phenomenon This book also presents a vital body of data on organizational careers and a guide to further research that will be of great use both to occupational sociologists and to all those involved in the study of organizations

Status Passage Anselm L. Strauss, 2017-07-05 The French writer Arnold van Gennep first called attention to the phenomena of status passages in his *Rites of Passage* one hundred years ago In *Status Passage* first published in 1971 the movement of individuals and groups in contemporary society from one status to another is examined in the light of Gennep's original theory Glaser and Strauss demonstrate that society emerges as a comparative order In this order every organized action collective or individual can be seen as a form of status passage From one status to another from childhood to adolescence to adulthood from being single to being married movement from one income group social class or religion to another there are passages that entail movement into different parts of a social structure and loss or gain in privileges Types of status passage are described by their proper ties The authors present a formal theory of status passage in the form of a running theoretical discussion The concepts and categories discussed in *Status Passage* are illuminated by a large number of examples chosen from a wide range of human behavior and the applicability of the theory to still other examples is made apparent The result is a stimulating and provocative book that will interest a wide range of sociologists social psychologists and other social scientists and will be useful in a variety of courses

Handbook of Career Studies Hugh P. Gunz, Maury Peiperl, 2007-08-08

The *Handbook of Career Studies* brings together for the first time in a single work a comprehensive scholarly treatment of the major topics within the growing field of career studies Drawing on the expertise of leading international scholars in each area of career studies editors Hugh Gunz and Maury Peiperl have assembled a consummate set of writings defining the field with a breadth of coverage and integration of topics not found elsewhere From a view of the history of the field and a map of its elements to a set of essays about the future of careers and work this volume provides the most complete reference available on the role of work careers in individual lives institutions and industries

Key Features

Offers a comprehensive history and structure of the field Building on previous work done in the discipline the editors and

contributors take a fresh look at the origins and current structure of career studies Presents the most complete review of research available An unparalleled set of prominent global contributors describes the state of work in their areas of expertise as well as offering a glimpse at future trends Extends subject area knowledge to other disciplines By linking career studies to a wider set of disciplines through critical essays this volume thoroughly explores future directions for career research policy and practice Includes an endorsement and critical comments on the state of the field Edgar H Schein widely acknowledged as a seminal contributor to the modern field of career studies provides a Foreword and a critical Afterword Intended Audience This Handbook is an invaluable reference work for students academics and researchers in the areas of Careers Industrial and Organizational Psychology Social Psychology Counseling Sociology and Organization Studies as well as for human resource practitioners interested in the state of knowledge of the field

Careers around the World Jon P. Briscoe, Douglas T. Hall, Wolfgang Mayrhofer, 2011-08-09 Companies are becoming more global and international and commerce and information flow seamlessly across national borders In addition modernization rapid technological change an increasingly shared global culture and shifting socio demographic values have created conditions in which career stability is more threatened while the importance of managing the career well is paramount But what do we know about careers in different contexts and how those career experiences vary in different regions and countries of the world The goal of this book is to develop new understandings of career from the vantage point of those who live in diverse cultures and who belong to different generations Careers Around the World explores the very meaning of what a career for individuals is in different countries cultures professions and age groups What does career success mean for people around the world What are key career transitions and how are they best managed in different cultures As those questions have not yet been investigated in the literature of careers across cultures and generations the authors have taken an approach that led to hearing the answers directly from working people around the globe This book presents the answers to these questions from each of the seven major cultural regions of the world and the practical implications of these differences for those who manage human resources in organizations that cross national boundaries as well as those who advise on careers

The Routledge Companion to Career Studies Hugh Gunz, Mila Lazarova, Wolfgang Mayrhofer, 2019-11-12 The Routledge Companion to Career Studies is an in depth reference for researchers students and practitioners looking for a comprehensive overview of the state of the art of career studies Split into five parts the volume looks at major areas of research within career studies and reflects on the latest developments in the areas of theory empirical studies and methodology The book s five parts cover 1 major theoretical and methodological debates and approaches to studying careers 2 careers as dynamic ongoing processes covering such issues as time shaping careers career outcomes and patterns and the forces shaping careers 3 the local national and global context of careers 4 implementing career research to design practical interventions in areas such as education counseling and national policy and 5 a commentary on the current state of career scholarship and its future

development as represented in this volume by founding scholars in the field This book will be a sourcebook for scholars studying careers research students intending to take up the study of careers and anyone scholars and practitioners with an interest not only in understanding careers the factors shaping them and where they lead but also in how this understanding might be used in practice

Occupational Careers Walter L. Slocum, 2017-09-04 Professor Slocum uses the concept of career as the central integrating idea for a wide range of information about contemporary work and occupations from current social science research from historical sources and from his own considerable personal experience and that of his students This second edition incorporates much new data and many new approaches that provide insight or raise significant questions about the validity of conventional attitudes toward occupational careers Greater emphasis is placed on the rapid changes that have taken place in recent years in attitudes toward work on the continuing impact of scientific and technological developments on occupations and work organizations on new trends in the demand for academic and professional personnel and on the career related problems of women and minority groups In addition Professor Slocum now presents a more fully developed overview of the major social and cultural factors and processes involved in occupational choice preparation and achievement After introducing the notion of an occupational career as a sequence of increasingly responsible roles and discussing the changing contemporary meanings of work the author proceeds to analyses of the impact of scientific and technological change on career planning the occupational requirements of work organizations occupational status levels the labor force and employment trends and recent trends and future prospects in major occupational categories Chapters are devoted to detailed discussions of the characteristics of professional and scientific occupations the relationship between education and occupation special problems of intergenerational and individual occupational mobility and the dynamics of educational and occupational aspirations and decisions The final chapter is directed toward the problems of career choice and planning that are likely to confront the young adults for whom the book will be especially useful The book is brief but com

Organizational Careers John Van Maanen, 1977 **Personal Career Development for Professionals** Joseph A. Raelin, 2002 This is a reprint Original title was The Salaried Professional It is a practical guide to assist a professional working in a large organization to make effective choices about personal career development

Handbook of Career Theory Michael Bernard Arthur, Michael B. Arthur, Douglas T. Hall, Barbara S. Lawrence, 1989-08-25 Designed for a broad range of social science scholars this cross disciplinary anthology presents new ways of viewing careers or how working lives unfold over time *The Oxford Handbook of Career Development*, 2021-06-11 The Oxford Handbook of Career Development provides a comprehensive overview of the career development field It features contributions from 42 leading scholars addressing the context theory and practice of career development in the contemporary world The volume defines career development as an inclusive term that relates to all individuals regardless of class gender sexuality ability geography or ethnicity It contains cutting edge research theory and thinking which approach

career development as a transdisciplinary field drawing from sociology psychology education and organizational studies as well as other areas Chapters explore what personal political societal economic and cultural factors influence our careers and how a diverse range of theoretical traditions has sought to account for the phenomenon of career It also addresses what can be done to improve and enhance people s careers through a range of educational counselling and employment interventions

Organizational Careers A Sourcebook For Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Organizational Careers A Sourcebook For PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Organizational Careers A Sourcebook For PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free

downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Organizational Careers A Sourcebook For free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Organizational Careers A Sourcebook For Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Organizational Careers A Sourcebook For is one of the best book in our library for free trial. We provide copy of Organizational Careers A Sourcebook For in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Organizational Careers A Sourcebook For. Where to download Organizational Careers A Sourcebook For online for free? Are you looking for Organizational Careers A Sourcebook For PDF? This is definitely going to save you time and cash in something you should think about.
