Organized Religion And Seniors Mental Health:

Organized Religion and Seniors' Mental Health Anthony J. Blasi, 1999 Based upon interviews of individuals who undertook ministries to older people in Nashville Tennessee this book describes how the elderly use the churches as a resource and how the presence of organized religion can enhance the lives of older Americans Annotation copyrighted by Book News Inc Portland OR Religion and Prevention in Mental Health Robert E Hess, Kenneth I Maton, Kenneth Pargament, 2014-06-23 Here is the first book which highlights the unique resource of religion in the field of prevention Until now religious systems have been a largely untapped resource of talent energy care and physical and financial assets Religion and Prevention in Mental Health is a significant new volume that lays a general foundation for preventive work in the religious area It presents a number of reasons for examining religion as a source for aiding prevention and well being The authors dispute the popular notion of religion as damaging to mental health as well as the idea that religious affiliation is entirely predictive of better mental health Instead they focus on the framework for living that religions provide which assists believers in anticipating avoiding or modifying problems before they develop For the human service professional willing to build a collaborative relationship with religious systems this vital book depicts the richness and diversity of religion and shows the interface of religion well being and prevention Important issues such as the impact of religion on American society and the ethos of mental health and prevention the historical and contemporary role of the African American church as an empowering agent and mediating structure for black citizens the critical roles of theology in determining the attitude of religious systems toward prevention and well being the importance of community and personal narratives and the limitations of religious settings due to their survival concerns and methods to increase their potential to heal are all discussed thoroughly Through a better understanding of religious settings programs and processes human service professionals can more effectively utilize religion and reach a neglected portion of the population in need of help In addition religious leaders mental health professionals including counselors social workers program developers evaluators and administrators and psychologists sociologists and anthropologists will benefit from the comprehensive material provided in this timely book

Engaging with Bediuzzaman Said Nursi Ian S. Markham, 2016-04-29 Too often interfaith dialogue is generic and unfocused Often it involves liberals from each tradition coming together to criticize the conservatives in their own traditions This book provides a model for interfaith dialogue that challenges very directly the dialogue industry This book involves a Christian theologian in deep conversation with a Muslim theologian Bediuzzaman Said Nursi 1877-1960 was born at the end of the Ottoman Empire and lived through the emergence of an aggressive secular state He had to think through in remarkably creative ways the challenge of faith within a secular environment the relationship of faith and politics and the implications and challenge of diversity and difference His entire project is captured in his magnum opus *The Risale i Nur* In the first eight chapters of this book we engage closely with the thought of Nursi and tease out insights that Christians can learn from and accommodate Having established the method the second section of the book examines the precise implications for the interfaith movement The problem with the interfaith movement is that it is an act of western cultural imperialism they are taking the individualist assumptions of modern America and imposing them on the conversation The problems with John Hick's and Leonard Swidler's approach are exposed Moving out from Islam the book then demonstrates how the model of interfaith changes when Christians are in conversation with Hinduism in India A new set of Dialogue Ten Commandments are suggested The book concludes with an appeal for a commitment to include and reach the conservatives in the major religious traditions

Evil Eye, Jinn Possession, and Mental

Health Issues G. Hussein Rassool, 2018-09-03 *Evil Eye Jinn Possession and Mental Health Issues* raises awareness of the cultural considerations religion and spirituality involved in the assessment of Muslim patients with mental health problems. The belief that Jinn spirits can cause mental illness in humans through affliction or possession is widely accepted among Muslims meaning this belief is a crucial but frequently overlooked aspect of mental health problems with Muslim patients in psychiatric care. This book explores the nature of such beliefs their relationship to mental health and the reasons for their importance in clinical practice. The book argues that it is vital to consider mental disorders as a multifactorial affair in which spiritual social psychological and physical factors may all play a role. It suggests differential diagnostic skills may have an important part to play in offering help to those who believe their problems are caused by possession and provides accessible literature on clinical issues and practice interventions management and evidence based practice to help health workers achieve a better understanding of Muslim beliefs about possession and how to work with patients that hold such beliefs. *Evil Eye Jinn Possession and Mental Health Issues* is an essential manual for mental health professionals social workers and psychologists. It should also be of interest to academics and students in the healthcare sciences.

Handbook of LGBT Elders Debra A. Harley, Pamela B. Teaster, 2015-08-05 This groundbreaking resource presents a wealth of findings and perspectives previously unseen in the LGBT literature. Its focus on psychological sociopolitical and care delivery issues affecting LGBT elders reveals both the nuanced interplay between diverse sources of identity and multiple sources of stigma and discrimination. Specific chapters highlight challenges and resiliencies impacting subpopulations e.g. racial groups veterans immigrants examine employment and advocacy issues discuss later life concerns in context and offer guidelines for relevant ethical practice. Contributors represent a wide range of fields from psychiatry and gerontology to public health and public policy reflecting the scope and needs of this diverse and complex population. Among the topics in the *Handbook*: Family relationships of older LGBT adults The intersection of identities race age sexuality and care network Bisexuality an invisible community among LGBT elders Implications of the Supreme Court ruling on same sex marriage No money no work and you're old Disabilities among LGBT elders responses of medicine public health rehabilitation and social work. *Handbook of LGBT Elders* is an essential reference for mental health professionals psychologists and social workers who work with the LGBT community and the elderly as well as researchers interested in the LGBT community and aging.

Stopping Military Suicides Kate Hendricks Thomas, Sarah Plummer Taylor, 2020-11-17 Blending illustrative narratives from veterans with cutting edge research this book provides a model for a needed shift from treatment post trauma to psychological training pre trauma to prevent deep depression and resulting suicides. As suicides among members of the U.S. military and veterans continue at a rate higher than in the general population nearly 20 each day and their calls for help become louder with three veterans waiting for treatment outside Veterans Administration hospitals in 2019 committing suicide authors and former U.S. Marines Kate Hendricks Thomas and Sarah Plummer Taylor present a call for a new approach to help halt the needless

deaths Thomas now a researcher and assistant professor of public health and Plummer Taylor now a social worker and adjunct professor detail a plan to establish preventative training for mental fitness that will help psychologically vaccinate service members against depression and PTSD the most common precursors to suicidal thoughts Thomas and Plummer Taylor detail their mental fitness training program to shift from post trauma treatment to pre trauma prevention Each topic addressed is illustrated with stories from veterans Part of the solution Thomas and Plummer Taylor explain is to present prevention as something for all service members and as a positive strength building challenging activity for champions as opposed to a post trauma treatment only for weak and broken warriors
