

The background of the cover features several chemical structures. At the top left, there is a complex molecule with a phenol group and a long chain. In the center, a transition state or reaction intermediate is shown with a central metal atom (likely Pd or Pt) coordinated by ligands and a substrate. To the right, a long, branched organic molecule is depicted. At the bottom left, another complex organic structure is shown. The entire background has a greenish-blue gradient with a pattern of white dots and lines, suggesting a molecular or crystalline structure.
