Origin Of Ethnography In Japan Yanagita Kunio And His Times:

The Origin of Ethnography in Japan Minoru Kawada, 1993 First Published in 1993 Routledge is an imprint of Taylor Francis an informa company Origin Of Ethnography In Japan Minoru Kawada, 2019-01-04 Yanagita Kunio 1872 1962 is widely known as the founder of folklore studies in Japan and his achievement in presenting a systematic framework for the discipline is highly valued amongst academic writings However many of his ideas still need to be examined and in recent years there has been a renewal of interest in his works especially among scholars of intellectual history This re evaluation of his achievements is generally attributable to the current view that Yanagita retained an independent position as an intellectual struggling to solve the various problems that dominated Japan in the years of great change from Meiji and Taisho to Showa First published in 1993 Routledge is an imprint of Taylor Francis an informa company **The Making of Anthropology in East and Southeast Asia** Shinji Yamashita, Joseph Bosco, Jeremy Seymour Eades, 2004 In a path breaking series of essays the contributors to this collection explore the development of anthropological research in Asia The volume includes writings on Japan China Taiwan Korea Malaysia and the Philippines **A Companion to Japanese History** William M. Tsutsui, 2009-07-20 A Companion to Japanese History provides an authoritative overview of current debates and approaches within the study of Japan s history Composed of 30 chapters written by an international group of scholars Combines traditional perspectives with the most recent scholarly concerns Supplements a chronological survey with targeted thematic analyses Presents stimulating interventions into individual controversies **Interpreting Amida** Galen Amstutz, 1997-04-25 Examines the history of Japanese Pure Land Buddhism and how orientalist assumptions have caused the West to ignore this important tradition **Primitive Selves** Everett Taylor Atkins, 2010 A gem to be consulted by all students of anthropology history ethnomusicology and colonial studies Hyung Il Pal author of Constructing Korean Origins A Critical Review of Archaeology Historiography and Racial Myth in Korean State Formation Theories **Pandemonium and Parade** Michael Dylan Foster, 2009 Monsters known as y kai have long haunted the Japanese cultural landscape This history of the strange and mysterious in Japan seeks out these creatures in folklore encyclopedias literature art science games manga magazines and movies exploring their meanings in the Japanese imagination over three centuries **Empire and the Meaning of Religion in Northeast Asia** Thomas David DuBois, 2016-12-24 Manchuria entered the twentieth century as a neglected backwater of the dying Qing dynasty and within a few short years became the focus of intense international rivalry to control its resources and shape its people This book examines the place of religion in the development of Manchuria from the late nineteenth century to the collapse of the Japanese Empire in 1945 Religion was at the forefront in this period of intense competition not just between armies but also among different models of legal commercial social and spiritual development each of which imagining a very specific role for religion in the new society Debates over religion in Manchuria extended far beyond the region and shaped the personality of religion that we see today This book is an ambitious

contribution to the field of Asian history and to the understanding of the global meaning and practice of the role of religion

Becoming Taiwanese Evan N. Dawley, 2020-10-26 What does it mean to be Taiwanese This question sits at the heart of Taiwan's modern history and its place in the world In contrast to the prevailing scholarly focus on Taiwan after 1987 *Becoming Taiwanese* examines the important first era in the history of Taiwanese identity construction during the early twentieth century in the place that served as the crucible for the formation of new identities the northern port city of Jilong Keelung Part colonial urban social history part exploration of the relationship between modern ethnicity and nationalism *Becoming Taiwanese* offers new insights into ethnic identity formation Evan Dawley examines how people from China's southeastern coast became rooted in Taiwan how the transfer to Japanese colonial rule established new contexts and relationships that promoted the formation of distinct urban ethnic and national identities and how the so called retrocession to China replicated earlier patterns and reinforced those same identities Based on original research in Taiwan and Japan and focused on the settings and practices of social organizations religion and social welfare as well as the local elites who served as community gatekeepers *Becoming Taiwanese* fundamentally challenges our understanding of what it means to be Taiwanese

Becoming Apart Michael Lewis, 2020-03-23 Focusing on the marginal region of Toyama on the Sea of Japan the author explores the interplay of central and regional authorities local and national perceptions of rights and the emerging political practices in Toyama and Tokyo that became part of the new political culture that took shape in Japan following the Meiji Restoration Lewis argues that in response to the demands of the centralizing state local elites and leaders in Toyama developed a repertoire of supple responses that varied with the political or economic issue at stake

Dismantling the East-West Dichotomy Joy Hendry, Heung Wah Wong, 2006-09-27 It has been customary in the appraisal of the different approaches to the study of Japan anthropology to invoke an East West dichotomy positing hegemonic Western systems of thought against a more authentic Eastern alternative Top scholars in the field of Japan anthropology examine challenge and attempt to move beyond the notion of an East West divide in the study of Japan anthropology They discuss specific fieldwork and ethnographic issues the place of the person within the context of the dichotomy and regional perspectives on the issue Articulating the influence of the East West divide in other disciplines including museum studies religion business and social ecology the book attempts to look towards a new anthropology that transcends the limitations of a simplistic East West opposition taking into account the wealth of regional and global perspectives that are exhibited by contemporary scholarship on Japan anthropology In concluding if the progress achieved in anthropological work on Japan can provide a model for good practice beyond this regional specialization this timely and important book provides a valuable examination of the current state of the academic study of Japan anthropology

A Companion to Folklore Regina F. Bendix, Galit Hasan-Rokem, 2014-08-25 *A Companion to Folklore* contains an original and comprehensive set of essays from international experts in the field of folklore studies This state of the art collection uniquely displays the vitality of folklore research across

the globe The Companion covers four main areas the first section engages with the practices and theoretical approaches developed to understand the phenomena of folklore the second discusses the distinctive shapes that folklore studies have taken in different locations in time and space the third examines the interaction of folklore with various media as well as folklore's commoditization In the final section on practice essays offer insights into how folklorists work what they do and ways in which they have institutionalized their field Throughout contributors investigate the interplay of folklore and folkloristics in both academic and political arenas they evaluate key issues in the folk life of communities from around the world including China post communist Russia post colonial India South America Israel and Japan The result is a unique reflection and understanding of the profoundly different research histories and current perspectives on international research in the field

Understanding Japanese Society Joy Hendry, 2012-10-02 With the ever growing contact between Japan and the rest of the world comes an increasingly important need to understand a society that is fascinating but still often confusing to the outsider In this brand new fourth edition of *Understanding Japanese Society* Joy Hendry brings the reader up to date both with recent changes as Japan hit the world headlines under the triple 2011 disasters and with underlying continuities in ways of thinking that have matured over a long history of dealing with foreign influences and an unpredictable environment This welcome new edition of Hendry's bestselling introductory textbook provides a clear accessible and readable introduction to Japanese society which does not require any previous knowledge of the country Fully updated revised and expanded the fourth edition contains new material on the effects of the earthquake tsunami and nuclear disasters of 2011 a renewed interest in politics and popular participation increased frequency of local spiritual support as unemployment continues to grow and marriage gets later and later the effects of a dramatic drop in the birth rate on Japan's education system the continuing global success of Japanese animation manga and computer games despite a turn away from international travel the cool new Ainu the attraction of healing Okinawa and changes among other Japanese minorities a new role for Japanese fathers in child rearing This book will be invaluable to all students studying Japan It will also enlighten those travellers and business people wishing to gain an understanding of the Japanese people

Anthropology and Colonialism in Asia Jan van Bremen, Akitoshi Shimizu, 2013-03-07 For a time it was almost a cliché to say that anthropology was a handmaiden of colonialism by which was usually meant Western colonialism And this insinuation was assumed to somehow weaken the theoretical claims of anthropology and its fieldwork achievements What this collection demonstrates is that colonialism was not only a Western phenomenon but Eastern as well And that Japanese or Chinese anthropologists were also engaged in studying subject peoples But wherever they were and whoever they were anthropologists always had a complex and problematic relationship with the colonial state The latter saw some anthropologists sympathy for the natives as a threat while on the other hand anthropological knowledge was used for the training of colonial officials The impact of the colonial situation on the formation of anthropological theories is an important if not easily answered question and the

comparison of experiences in Asia offered in this book further helps to illuminate this complex relationship Anthropology and Colonialism in Asia and Oceania Jan van Bremen, Akitoshi Shimizu, 1999 This study demonstrates that colonialism was not only a western phenomenon Japanese and Chinese anthropologists also studied subject peoples Comparison of experiences further helps to illuminate this complex relationship *Figured Worlds* Professor John Clammer, J. R. Clammer, Sylvie Poirier, Eric Schwimmer, 2004-01-01 World Visions can conceive of everything except alternative world visions If this pronouncement by Umberto Eco is right how can any ethnic group conceive of living with another group on the same territory in Canada or elsewhere if their world visions are incompatible Can we sidestep incompatible world visions or should we try to understand them *Figured Worlds* explores the possibilities of equilibrium between commitments to mutual understanding and the framing of strategies of negotiation This collection begins its rich analytical investigation by describing how people Australian Aborigines New Zealand Maori Japanese and Africans first learn the figured worlds of their own culture made up of sensations affirmations and will prophecy revelation myth dream and metamorphoses It then sets out how diverse figured worlds within a given social system are related and concludes by offering insightful mappings of the dynamics of these relations perceived in both their existential ontological aspects as well as their material practical means Comprising scholarship that is half Canadian and half British this work offers important foundational perspectives into the thought worlds of cultures found within other cultures **Wearing Cultural Styles in Japan** Christopher S. Thompson, John W. Traphagan, 2012-02-01 This groundbreaking collection examines the regional dynamics of state societies looking at how people use the concepts of urban and rural traditional and modern and industrial and agricultural to define their existence and the experience of living in contemporary Japanese society The book focuses on the Tohoku Northeast region which many Japanese consider rural agrarian undeveloped economically and the epitome of the traditional way of life While this stereotype overstates the case the region is home to one of Japan's largest cities most Japanese contrast Tohoku everything traditional with Tokyo everything modern However the contributors show how various regional phenomena internationalization lacquerware production farming enka modern Japanese ballads women's roles and professional dance combine the traditional the modern and the global *Wearing Cultural Styles in Japan* demonstrates that while people use the dichotomies of urban rural and traditional modern in order to define their experiences these categories are no longer useful in analyzing contemporary Japan **Civilization and Monsters** Gerald A. Figal, 1999 Discusses the representation role of the supernatural or the fantastic in the construction of Japanese modernism in late 19th and early 20th century Japan **Understanding Japanese Society** Professor of Social Anthropology Joy Hendry, 2003-09 Fully updated revised and expanded this is a welcome new edition of this bestselling book providing a clear accessible and readable introduction to Japanese society *A Companion to the Anthropology of Japan* Jennifer Robertson, 2008-03-10 This book is an unprecedented collection of 29 original essays by some of the world's most distinguished scholars of Japan Covers a broad

range of issues including the colonial roots of anthropology in the Japanese academy eugenics and nation building majority and minority cultures genders and sexualities and fashion and food cultures Resists stale and misleading stereotypes by presenting new perspectives on Japanese culture and society Makes Japanese society accessible to readers unfamiliar with the country

Unveiling the Power of Verbal Art: An Psychological Sojourn through **Origin Of Ethnography In Japan Yanagita Kunio And His Times**

In a global inundated with displays and the cacophony of immediate transmission, the profound power and psychological resonance of verbal beauty often disappear into obscurity, eclipsed by the constant onslaught of noise and distractions. Yet, situated within the musical pages of **Origin Of Ethnography In Japan Yanagita Kunio And His Times**, a interesting function of fictional beauty that impulses with fresh thoughts, lies an unique journey waiting to be embarked upon. Written by a virtuoso wordsmith, this enchanting opus courses visitors on a mental odyssey, gently revealing the latent potential and profound influence embedded within the complex web of language. Within the heart-wrenching expanse with this evocative examination, we shall embark upon an introspective exploration of the book is central subjects, dissect its fascinating writing fashion, and immerse ourselves in the indelible impression it leaves upon the depths of readers souls.
