Origins Of Social Liberalism In Germany

Donald Gerard Rohr

Origins Of Social Liberalism In Germany:

The Origins of Social Liberalism in Germany Donald G. Rohr, 1963 **Urban Liberalism in Imperial Germany** Jan Palmowski, 1999-05-13 Debates about Liberalism in imperial Germany have focused almost exclusively on the national level This book investigates liberal politics in local government the only sphere in which liberals had direct access to power throughout Germany Through the study of one of Germany s most progressive cities Frankfurt am Main Jan Palmowski examines more generally the processes of politicization and policy formulation at the local level He argues that in Frankfurt as elsewhere local affairs had become politicized not around 1900 as is generally assumed but by the 1870s Once in power the liberals concern for religion social policy and education as well as their skilful use of fiscal policy shows that liberals in Germany were as sophisticated as liberals in Britain or France Even in the face of an authoritarian state structure German liberals received and made use of freedom for renewal and reform German liberalism was not inherently weak Instead the crucial problem lay in the country s complicated federal structure which made it impossible to transfer innovations from the local level to the state and national levels **The Origins of the Authoritarian Welfare State in Prussia** Hermann Beck, 2025-10-01 A study of the temperament of Prussian conservatives and their approaches to social problems and the lower classes The Origins of social liberalism in Germany Donald Gerard Rohr, 1963 **Politics and the Sciences of Culture in Germany, 1840-1920** Woodruff D. Smith, 1991-06-20 Examining the ways in which politics and ideology stimulate and shape changes in human science this book focuses on the cultural sciences in nineteenth and early twentieth century Germany The book argues that many of the most important theoretical directions in German cultural science had their origins in a process by which a general pattern of social scientific thinking one that was closely connected to political liberalism and dominant in Germany and elsewhere before the mid nineteenth century fragmented in the face of the political troubles of German liberalism after that time Some liberal social scientists who wanted to repair both liberalism and the liberal theoretical pattern and others who wanted to replace them with something more conservative turned to the concept of culture as the focus of their intellectual endeavors Later generations of intellectuals repeated the process motivated in large part by the experiences of liberalism as a political movement in the German Empire Within this framework the book discusses the formation of diffusionism in German anthropology Friedrich Ratzel s theory of Lebensraum folk psychology historical economics and cultural history It also relates these developments to German imperialism the rise of radical nationalism and the upheaval in German social science at the turn of the century The Rise of Historical Economics and Social Reform in Germany, 1864-1894 Erik Grimmer-Solem, 2003 An investigation of the thought activity and influence of the economist and social reformer Schmoller in the era of Bismarck This study explores Schmoller s immense and lasting impact on the development of the social sciences and welfare state in Germany **History of Social Law in Germany** Michael Stolleis, 2013-10-01 The sole available comprehensive history of social law and the model of social welfare in Germany The

book explains the origins since the medieval times but concentrates on the 19th and 20th centuries especially on the introduction of the social insurance 1881 1889 of the expansion of the system in the Weimar Republic under the Nazi System and after World War II in the FRG and the GDR The system of social welfare in Germany is one of the pillars of economic stability Liberalism and the Origins of European Social Theory Steven Seidman,1983-01-01 **German History**

1789-1871 Eric Dorn Brose,2013-08-01 During recent years there has been a noticeable increase in interest in the nineteenth century resulting in many fine monographs However these studies often gravitate toward Prussia or treat Germany's southern and northern regions as separate entities or else are thematically compartmentalized This book overcomes these divisions offering a wide ranging account of this revolutionary century and skillfully combining narrative with analysis Its lively style makes it very accessible and ideal for all students of nineteenth century Germany **Russia's Liberal Project** Marcia A. Weigle,2010-11-01 A study of contemporary politics in Russia assessing the attempted transition from totalitarianism to liberal democracy It shows that although liberal institutions have been tentatively established the weak social and cultural supports threaten the success of Russia's liberal project Bibliography of European Economic and Social History Derek Howard Aldcroft,Richard Rodger,1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily **Modern Germany Reconsidered** Gordon Martel,2002-11 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **Science and Scientism in Nineteenth-century Europe** Richard Olson,2008 The 19th century produced scientific and cultural revolutions that forever transformed modern European life Richard Olson provides an integrated account of the history of science and its impact on intellectual and social trends of the day **Social Politics and Social Reform in Germany, 1890-1933** David E. Barclay,1974 *A Social History of Germany, 1648-1914* Eda Sagarra,2017-07-12 This volume is a pioneering effort to examine the social demographic and economic changes that befell the Jewish communities of Central Europe after the dissolution of the Habsburg Empire It consists of studies researched and written especially for this volume by historians sociologists and economists all specialists in modern Central European Jewish affairs The era of national rivalry economic crises and political confusion between the two World Wars has been preceded by a pre World War I epoch of Jewish emancipation and assimilation During that period Jewish minorities had been harbored from violent anti-Semitism by the Empire and they became torchbearers of industrialization and modernization This common destiny encouraged certain common characteristics in the three major components of the Empire Austria Hungary and the Czech territories despite the very different origins of the well over one million Jews in those three lands The disintegration of the Habsburg Empire

created three small economically marginal national states inimical to each other and at liberty to create their own policies toward Jews in accord with the preferences of their respective ruling classes Active and openly discriminatory anti Semitic measures resulted in Austria and Hungary The only liberal heir country of the Empire was Czechoslovakia although simmering anti Semitism and below surface discrimination were widespread in Slovakia While one might have expected Jewish communities to return to their pre World War I tendencies to go their independent ways after the introduction of these policies social and economic patterns which had evolved in the Habsburg era persisted until the Anschluss in Austria German occupation in Czechoslovakia and World War II in Hungary Studies in this volume attest to continuing similarities among the three Jewish communities testifying to the depth of the Empire s long lasting impact on the behavior of Jews in Central Euro

The History of Social Movements in Global Perspective Stefan Berger,Holger Nehring,2017-01-12 Social movements have shaped and are shaping modern societies around the globe this is evident when we look at examples such as the Arab Spring Spain s Indignados and the wider Occupy movement In this volume experts analyse the classic and new social movements from a uniquely global perspective and offer insights in current theoretical discussions on social mobilisation Chapters are devoted both to the study of continental developments of social movements going back to the nineteenth century and ranging to the present day and to an emphasis on the transnational dimension of these movements Interdisciplinary and truly international this book is an essential text on social movements for historians political scientists sociologists philosophers and social scientists

Origins of the German Welfare State Michael Stolleis,2012-11-15 This book traces the origins of the German welfare state The author formerly director at the Max Planck Institute for European Legal History Frankfurt provides a perceptive overview of the history of social security and social welfare in Germany from early modern times to the end of World War II including Bismarck s pioneering introduction of social insurance in the 1880s The author unravels layers of social security that have piled up in the course of history and so he argues still linger in the present day welfare state The account begins with the first efforts by public authorities to regulate poverty and then proceeds to the social question that arose during the 19th century Industrial Revolution World War I had a major impact on the development of social security both during the war and after through the exigencies of the war economy inflation and unemployment The ruptures as well as the continuities of social policy under National Socialism and World War II are also investigated

Rereading German History Richard Evans,2002-11 Presenting the collected reviews of one of modern Germany s single most important historians this book offers a comprehensive summary of Richard Evans trenchant and important analytical points on Weimar the Third Reich and revisionism

The Work of Politics Steven Klein,2020-09-24 The Work of Politics advances a new understanding of how democratic social movements work with welfare institutions to challenge structures of domination Klein develops a novel theory that depicts welfare institutions as worldly mediators or sites of democratic world making fostering political empowerment and participation within the context of capitalist economic

forces Drawing on the writings of Weber Arendt and Habermas and historical episodes that range from the workers movement in Bismarck s Germany to post war Swedish feminism this book challenges us to rethink the distribution of power in society as well as the fundamental concerns of democratic theory Ranging across political theory and intellectual history The Work of Politics provides a vital contribution to contemporary thinking about the future of the welfare state

Rereading German History (Routledge Revivals) Richard J. Evans, 2015-06-05 In Rereading German History first published in 1997 Richard J Evans draws together his seminal review essays on the political economic cultural and social history of Germany through war and reunification This book provides a study of how and why historians mainly German American British and French have provided a series of differing and often conflicting readings of the German past It also presents a reconsideration of German history in the light of the recent decline of the German Democratic Republic collapse of the Berlin Wall and the reunification of Germany Rereading German History re examines major controversies in modern German history such as the debate over Germany s special path to modernity in the nineteenth and twentieth centuries and the discussions in the 1980s on the uniqueness or otherwise of Auschwitz Evans also analyses the arguments over the nature of German national identity The book offers trenchant and important analytical insights into the history of Germany in the last two centuries and is ideal reading material for students of modern history and German studies
