The Cultural Revolution at the Margins Yiching Wu, 2014-06-09 The Cultural Revolution began from above yet it was students and workers at the grassroots who advanced the movement's radical possibilities by acting and thinking for themselves Resolving to suppress the resulting crisis Mao set events in motion in 1968 that left out in the cold those rebels who had taken it most seriously Yiching Wu shows Dictionary of the Politics of the People's Republic of China Colin Mackerras, Donald H.

the authors probe the divergent political psychocultural and socioeconomic strains within the Shanghai labor movement As they convincingly illustrate the multiplicity of worker responses to the Cultural Revolution cautions against a one dimensional portrait of working class politics in contemporary China

The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982 Roderick MacFarquhar, John K.

Fairbank, Denis Crispin Twitchett, 1991-11-29 In continuing the post revolution study started in Volume 14 Volume 15 considers the developments in Mao's thoughts and how they related to China's government The most comprehensive account of this turbulent period in Chinese history

The Contemporary Chinese Historical Drama Rudolf G.

Wagner, 2023-11-15 China's Great Leap Forward of 1958-1961 was a time of official rejoicing over the achievements of Communism but it was also a time of immense suffering Growing dissent among intellectuals stimulated creativity as writers sought to express both their hope for the success of the revolution and their dissatisfaction with the Party leadership and policies But the uneasy political climate and the state's control over literature prevented writers from directly addressing the compelling problems of the time Rather they resorted to a variety of sophisticated and time honored forms for airing their grievances including the historical drama Rudolf Wagner examines three of these plays written and performed between 1958 and 1963 in an effort to decode their hidden political and cultural meanings He also provides a broad survey of the politics of the historical drama in China suggesting further avenues of inquiry into the relationship between literature and the state This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990

The Emergence of Global Maoism Matthew Galway, 2022-03-15 The Emergence of Global Maoism examines the spread of Mao Zedong's writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao's indigenization of Marxism Leninism and in the Communist Party of Kampuchea's indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice

without abandoning its universality Among Mao's greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao's thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change The Emergence of Global Maoism illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia

Mao Lee Feigon, 2003-07-24 Mr Feigon argues that the movements for which Mao is almost universally condemned today the Great Leap Forward and especially the Cultural Revolution were in many ways beneficial for the Chinese people While not glossing over Mao's mistakes he contends that the Chinese leader should be largely praised for many of his later efforts In reevaluating Mao's contributions this interpretive study reverses the curve of criticism Feigon performs a service by reclaiming the historical context of Mao's crazed era He has written a concise work that forces the reader to recall the circumstances that abetted Mao's reign *Far Eastern Economic Review* **An**

Power Restructuring In China And Russia Mark Lupher, 2018-02-12 The massive economic transformations and political upheavals that have been sweeping China and the Soviet Union in the final decades of the twentieth century are among the great dramas of our time Yet the origins of these revolutionary changes are murky and their outcomes unclear Have we witnessed the demise of an archaic authoritarian order and the rise of pluralism and democracy or are the tumultuous events of the post Mao era and the period of perestroika more usefully viewed in light of broader patterns of power and politics in Chinese and Russian history Considering these questions with a new interpretation of power relations and political processes in China and Russia Mark Lupher explores the imperial era the communist period and the current situation in both countries Rather than speaking of reform which too often is understood as liberalization along Western lines his discussion is focused on power restructuring the ebb and flow of state power the centralization and decentralization of political and economic power and the three way struggles between central rulers various elites and nonprivileged groups that drive these processes Lupher's power restructuring analysis is noteworthy in combining broad comparative historical analysis and conceptualization with a closely focused discussion and reinterpretation of the Chinese Cultural Revolution the core of his book By comparing and bringing new light to bear on a series of pivotal episodes in Chinese and Russian history he furthers our understanding and assessment of processes that will continue to unfold in China Russia and the former Soviet republics

When Food Became Scarce Yixin Chen, 2024-08-15 *When Food Became Scarce* is about the Great Leap Famine of 1958-61 Yixin Chen adopts a grassroots level analysis to explore an existential question concerning hundreds of millions of Chinese peasants why did some peasants perish while others from the same villages facing the same collective problems of food scarcity survive Viewing the famine as a persistent ordeal Chen identifies environment and lineage as two pivotal factors that influenced the rural populace's destiny When food quotas

under the Maoist communal dining system plummeted below subsistence or came to a halt most individual villagers in the mountainous regions of southern China turned to their environment for alternative sustenance ensuring their survival More remarkably across the nation more peasants united in self preservation strategies concealing grains to elude excessive state requisitions orchestrating food and crop riots and collectively combating desperation Given that the majority of Chinese villages were historically established on the foundation of consanguine relationships creating an obligation among villagers to support one another due to shared ancestry lineage emerged as a microlevel social mechanism that activated diverse forms of collective resistance In villages where peasants effectively upheld their lineage organizations and adopted self protective measures their survival rates exceeded those of villages where the enforcement of Maoist Great Leap initiatives disrupted the lineage structure leaving the communities more vulnerable When Food Became Scare reorients the famine narrative unpacking its intricacies from the perspective of the survival side **Deng Xiaoping** Michael Dillon,2014-10-27

One of the most important figures in global politics during the second half of the 20th century Deng Xiaoping is generally considered the central figure behind China s economic liberalization programme that produced historically unprecedented growth rates and development beginning in the late 1970s Lifting nearly a billion people out of poverty Deng Xiaoping s Four Modernisations called for reform in agriculture industry military and science and technology Today these reforms are considered to be the crucial turning point in modern Chinese history enabling China to effectively harness its previously latent power in its quest to become a global economic superpower Just ten years after this tremendous achievement Deng s brutal suppression of the democracy movement at Tiananmen Square severely undermined his international and domestic reputation To explain the seeming contradictions between Deng Xiaoping s desire for economic liberalization and political conservatism Michael Dillon s biography utilizes recently released Chinese sources to detail Deng Xiaoping s emergence from a minority second class community in the Sichuan province via education in France to his meteoric rise to the top of the CCP s political hierarchy illustrating the ways in which his life of struggle and survival shaped his political career Dillon s biography addresses Xiaoping as both an intensely committed communist capable of playing a principal role in the Great Leap Forward from 1958 to 1961 while incurring the wrath of Mao only ten years later as he was exiled and purged during the Cultural Revolution Emphasizing Deng Xiaoping s effectiveness as a party operator and political bruiser rather than an intellectual capable of formulating the reforms for which he eventually took credit this book sheds light on Deng s ability to capitalize upon the planning expertise of other party members This biography of the central figure in China s economic liberalization is essential for any reader interested in or affected by China s rise to global prominence **Problems of Communism** ,1981 Eisenstein, Cinema, and History James Goodwin,1993 Among early directors Sergei Eisenstein stands alone as the maker of a fully historical cinema James Goodwin treats issues of revolutionary history and historical representation as central to an understanding of Eisenstein s work which explores two movements within Soviet history and

consciousness the Bolshevik Revolution and the Stalinist state Goodwin articulates intersections between Eisenstein's ideas and aspects of the thought of Walter Benjamin Georg Lukács Ernst Bloch and Bertolt Brecht He also shows how the formal properties and filmic techniques of each work reveal perspectives on history Individual chapters focus on Strike Battleship Potemkin October Old and New projects of the 1930s Alexander Nevsky and Ivan the Terrible **Educators' Source Book on China** Alice H. Songe, Pauline B. Mangin, 1981 **The Cambridge Handbook of Contemporary China** Colin Mackerras, Amanda Yorke, 1991-05-02 The paradox of contemporary China its openness to Western technology yet its rejection of Western democratic ideals serves to make China appear remote and inaccessible to those outside The country's vast area and population only accentuate these difficulties The Cambridge Handbook of Contemporary China presents topical information on all aspects of Chinese life since 1949 with particular emphasis on the 1980s its major strength is its contemporary focus and easy to use format Useful maps and tabulated statistics accompany the text which is divided into clearly defined categories Designed for students specialists educationalists journalists and those in business and government as well as the general reader the Handbook provides easy access to information on all areas of Chinese life and is a good starting point for research **Embracing the Lie** Charles J. Alber, 2004-10-30 This volume is the first serious attempt to reconstruct Ding Ling's biography during the last few decades of her life Most Westerners know her as a progressive woman writer who became famous during the May 4 Movement championed its values in Yan'an and was criticized in the rectification campaigns that followed Few know about her life afterward and the arduous process of rehabilitation Here for the first time readers will learn about her life in the Great Northern Wasteland solitary confinement in Qincheng prison her visit to the United States participation in the spiritual pollution campaign and finally the attempt to launch the journal China All of this puts a new perspective on the life of one of China's most preeminent woman writers Alber includes considerable new information about the rectification campaigns of the late fifties supplemented by a series of interviews with the author and her contemporaries in the years 1980 and 1981 the very point when she began to turn left and to compromise her progressive beliefs Ding Ling is generally acknowledged as a major figure of the May 4 Movement and an ardent admirer of Lu Xun As such the study sheds light on the legacy of China's greatest writer and the influence of Western ideals on contemporary Chinese literature The primary audience is the educated reader who has an interest in contemporary Chinese literature and politics It should be especially interesting to women but the coverage is broad enough to include anyone interested in the intellectual history of China *Issues & Studies*, 1986 [China, an Analytical Survey of Literature](#) United States.
