## **Origins Of European Dissent:**

*The Origins of European Dissent* Robert Ian Moore, 1977 Moore traces the roots of the rejection of the Western church in the eleventh and twelfth centuries and argues that heresy had less to do with faith than with the changing world of the time. A reprint of the corrected edition first published in 1985. **The Origins of European Dissent** Robert Ian Moore, 1985

**The New Atheism, Myth, and History** Nathan Johnstone, 2018-06-11 This book examines the misuse of history in New Atheism and militant anti religion. It looks at how episodes such as the Witch hunt, the Inquisition and the Holocaust are mythologized to present religion as inescapably prone to violence and discrimination whilst the darker side of atheist history such as its involvement in Stalinism is denied. At the same time another constructed history that of a perpetual and one sided conflict between religion and science rationalism is commonly used by militant atheists to suggest the innate superiority of the non religious mind. In a number of detailed case studies the book traces how these myths have long been overturned by historians and argues that the New Atheism's cavalier use of history is indicative of a troubling approach to the humanities in general. Nathan Johnstone engages directly with the God debate at an academic level and contributes to the emerging study of non religion as a culture and an identity. *Poverty, Heresy, and the Apocalypse* Jerry B Pierce, 2012-03-29 This is the first study to examine the rise and fall of a medieval religious group, the Order of Apostles, that began with orthodox support but ended in the fires of heresy. Originating in 1260 in Parma, the group was founded by Gerard Segarelli who believed that a life of apostolic poverty was the true path of Christian devotion. Segarelli was initially supported by the Church but as his cohort grew in number and fame he was charged with heresy by the powerful Franciscans, was tried and burnt as a heretic. The Order's control was assumed by Fra Dolcino who led the Apostles into direct opposition to the Roman Church and was himself executed in 1307. This is an important study presenting new findings in the history of medieval heresy as well as placing the Order of Apostles within the larger context of political, economic and social history. By examining the rise and fall of the Apostles, Pierce shows the dramatic consequences of the transformation of European society during the high Middle Ages. **Criticism and Dissent in the Middle Ages** Rita Copeland, 1996-06-06 What were the boundaries between official and subversive orthodox and dissenting critical practices in the Middle Ages? Placing medieval critical and intellectual discourses within their cultural and ideological frameworks, *Criticism and Dissent in the Middle Ages* examines conflicts of gender, violence, academic freedom, hermeneutical authority, sacramentalism and heresy among so called official as well as dissenting critical orders. Pedagogies, theories of grammar and rhetoric, poetics and hermeneutics, academic sciences, clerical professionalism, literacy, visual images, theology and textual cultures of heresy are all considered. This 1996 collection of essays by major scholars examines medieval critical discourse, theories of textuality and interpretation and representations of learning and knowledge as contesting and contested institutional practices within and between Latin and vernacular cultures.

*Heresy and the Persecuting Society in the Middle Ages* Michael Frassetto, 2006-04-01 This volume examines the influence

of R I Moore and the nature of heresy and its repression in the Middle Ages The volume considers the vexing question of the origins of medieval heresy and the possible influence of Bogomil missionaries Geographic areas not usually examined for the growth of heresy are examined and a new understanding of the violence of the Albigensian Crusade is offered The blurred boundary between heresy and orthodoxy and the nature of heresy and popular religion are also discussed The final chapters consider the formation of the persecuting society and Moore s reflection on scholarship of the late 20th century The volume offers new insights into the nature of heresy and society in the Middle Ages Contributors include Malcolm Barber Daniel F Callahan Michael Frassetto James Given Bernard Hamilton Carol Lansing Laurence W Marvin R I Moore Mark Pegg Edward Peters Arthur Siegel Susan Taylor Snyder and Claire Taylor

**Heresy and the Making of European Culture** Andrew P. Roach, James R. Simpson, 2016-04-22 Scholars and analysts seeking to illuminate the extraordinary creativity and innovation evident in European medieval cultures and their afterlives have thus far neglected the important role of religious heresy The papers collected here reflecting the disciplines of history literature theology philosophy economics and law examine the intellectual and social investments characteristic of both deliberate religious dissent such as the Cathars of Languedoc the Balkan Bogomils the Hussites of Bohemia and those who knowingly or unknowingly bent or broke the rules creating their own unofficial orthodoxies Attempts to understand police and eradicate all these through methods such as the Inquisition required no less ingenuity The ambivalent dynamic evident in the tensions between coercion and dissent is still recognisable and productive in the world today

The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson, Mark Hutchinson, 2018 Volume V extends the study of the Oxford History of Dissenting Protestant Traditions series into the twentieth century following the spatial cultural and intellectual changes in dissenting identity and practice as these once European traditions globalized and settled down in other places

**Sex, Dissidence and Damnation** Jeffrey Richards, 2013-09-13 For the authorities in medieval Europe dissent struck at the roots of an ordered settled world It was to be crushed initially by reason and argument eventually by torture Jeffrey Richards examines the wretched lives of heretics witches Jews lepers and homosexuals and uncovers a common motive for their persecution sexual aberrance

**The Development of the Family and Marriage in Europe** Jack Goody, 1983-07-07 An original theory asserts that this distinctive form of kinship system developed in the northern Mediterranean around the fourth century A D and that its subsequent growth can be attributed to the efforts of the early Christian Church to acquire property formerly held by domestic groups

**Medieval Christianity** Kevin Madigan, 2015-01-13 An engaging narrative history of the medieval church with new attention to women ordinary parishioners attitudes toward Jews and Muslims and more Publishers Weekly starred review For many the medieval world seems dark and foreign an often brutal and seemingly irrational time of superstition miracles and strange relics The aggressive pursuit of heretics and attempts to control the Holy Land might come to mind Yet the medieval world produced much that is part of our world today including universities the passion for Roman

architecture and the development of the gothic style pilgrimage the emergence of capitalism and female saints This new narrative history of medieval Christianity spanning the period 500 to 1500 CE attempts to integrate the familiar with new themes and narratives Elements of novelty in the book include a steady focus on the role of women in Christianity the relationships among Christians Jews and Muslims the experience of ordinary parishioners the adventure of asceticism devotion and worship and instruction through drama architecture and art Kevin Madigan expertly integrates these areas of focus with more traditional themes such as the evolution and decline of papal power the nature and repression of heresy sanctity and pilgrimage the conciliar movement and the break between the old Western church and its reformers Illustrated with more than forty photographs of physical remains this book promises to become an essential guide to a historical era of profound influence Compelling a picture of medieval Christianity that is no less lively for being well informed and carefully balanced Commonweal

**The Jews in Christian Europe 1400-1700** Dr John Edwards, J. Edwards, 2019-06-04 This social and religious history of European Jews in the early modern period is unique in placing Jewish experience in the context of Christian society Beginning with late medieval Jewry and the expulsion from Spain in 1492 of Jews who refused to convert to Christianity John Edwards goes on to analyse the role of Jews during the Renaissance the Reformation and the Counter Reformation and ends with the early development of religious toleration and the Enlightenment He examines the complexity of personal and communal belief and practice and also describes the social political and economic experience of Jews and Christians bringing together Christian and Jewish historiography in order to enrich our understanding of the social relations between the two

**History, Religion, and Antisemitism** Gavin I. Langmuir, 1990-05-08 Gavin I. Langmuir's work on the formation and nature of antisemitism has earned him an international reputation In History Religion and Antisemitism he bravely confronts the problems that arise when historians have to describe and explain religious phenomena as any historian of antisemitism must How and to what extent can the historian be objective Is it possible to discuss Christian attitudes toward Jews for example without adopting the historical explanations of those whose thoughts and actions one is discussing What exactly does the historian mean by religion or religious Langmuir's original and stimulating responses to these questions reflect his inquiry into the approaches of anthropology sociology and psychology and into recent empirical research on the functioning of the mind and the nature of thought His distinction between religiosity a property of individuals and religion a social phenomenon allows him to place unusual emphasis on the role of religious doubts and tensions and the irrationality they can produce Defining antisemitism as irrational beliefs about Jews he distinguishes Christian anti Judaism from Christian antisemitism demonstrates that antisemitism emerged in the twelfth and thirteenth centuries because of rising Christian doubts and sketches how the revolutionary changes in religion and mentality in the modern period brought new faiths new kinds of religious doubt and a deadlier expression of antisemitism Although he developed it in dealing with the difficult question of antisemitism Langmuir's approach to religious history is important for historians in all areas

**Nobility and Annihilation in Marguerite Porete's Mirror of Simple Souls** Joanne Maguire Robinson,2012-02-01

This first book length study of Marguerite Porete s important mystical text The Mirror of Simple Souls examines Porete s esoteric and optimistic doctrine of annihilation the complete transformative union of the soul into God in its philosophical and historical contexts Porete was burned at the stake as a relapsed heretic in 1310 Her theological treatise survived the flames but it circulated anonymously or under male pseudonyms until 1946 and her message endures as testament to a distinctive form of medieval spirituality Robinson begins by focusing on traditional speculations regarding the origin nature limitations and destiny of humankind She then examines Porete s work in its more immediate historical and literary contexts focusing on the ways in which Porete conceptualizes and expresses her radical doctrine of annihilation through contemporary metaphors of lineage and nobility

The Papal Monarchy Colin Morris,1989 The two centuries covered in this volume were among the most creative in the history of the Church Colin Morris charts the emergence of much that is considered characteristic of European culture and religion including universities and commercial cities the crusades the friars chivalry marriage and church architecture In all these developments the Roman Church played an important and often fundamental role A re evaluation of that role is now particularly apt given the dissolution of Christendom in its old form witnessed by today s generation

**Law and the Illicit in Medieval Europe** Ruth Mazo Karras,Joel Kaye,E. Ann Matter,2013-02-11 In the popular imagination the Middle Ages are often associated with lawlessness However historians have long recognized that medieval culture was characterized by an enormous respect for law and legal procedure This book makes the case that one cannot understand the era s cultural trends without considering the profound development of law

**A Heretical History of Architecture** Andrzej Piotrowski,2024-12-09 *A Heretical History of Architecture* challenges the conventional understanding of significant developments in Western architecture as a series of alignments among dominant ideologies and artistic programs arguing instead that the most consequential changes in the evolution of artistic and design practices across Europe between the fifth and seventeenth centuries were motivated by tensions between local religious or cultural traditions and centralized power This groundbreaking study richly demonstrates the processes through which heterodox beliefs that persisted within numerous diverse communities resulted in design experimentation so syncretic that it has heretofore eluded scholars employing conventional Euro centric taxonomies of architectural styles
