James J. Reid

Origins Of The Crimean Alliance:

The Origins of the Crimean Alliance Ann Pottinger Saab, 1977

The Origins of the Crimean Alliance Ann P. Saab,

Crisis of the Ottoman Empire James J. Reid, 2000 This work focuses upon the military problems of the Ottoman Empire in the era 1839 to 1878 The author examines the Crimean War 1853 to 1856 from the perspective of the Ottoman army using British and French sources as well as the few available Ottoman materials Scholarship on the war has ignored this aspect but the high quality of work about the British French and Russian involvement in the war has enabled the present study to advance its own work The inability of the Ottoman high command to learn the lessons of the Crimean War led to serious defeats in the Russo Turkish War of 1877 1878 Revolts occurring in this period also receive attention While the book analyzes the nature of war in the Balkans and Anatolia its primary objective is the study of the war s social and psychological influences This perspective runs as a theme throughout the book but the author focuses on the psychological aspects in the final chapter using comparative perspectives

Why Wars Widen Stacy Bergstrom Haldi, 2004-11-23 This work explains how wars are most likely to escalate when the effects of warfare are limited The author demonstrates that total wars during the modern era were very violent and were far less likely to spread yet the cost of warfare is falling making future conflicts more likely to spread

Biography of an Empire Christine M. Philliou, 2010-12-07 This vividly detailed revisionist history opens a new vista on the great Ottoman Empire in the early nineteenth century a key period often seen as the eve of Tanzimat westernizing reforms and the beginning of three distinct histories ethnic nationalism in the Balkans imperial modernization from Istanbul and European colonialism in the Middle East Christine Philliou brilliantly shines a new light on imperial crisis and change in the 1820s and 1830s by unearthing the life of one man Stephanos Vogorides 1780 1859 was part of a network of Christian elites known phanariots institutionally excluded from power yet intimately bound up with Ottoman governance By tracing the contours of the wide ranging networks crossing ethnic religious and institutional boundaries in which the phanariots moved Philliou provides a unique view of Ottoman power and ultimately of the Ottoman legacies in the Middle East and Balkans today What emerges is a wide angled analysis of governance as a lived experience at a moment in which there was no clear blueprint for power

Great Power Rivalries William R. Thompson, 1999 This volume examines interstate rivalries of the past 500 years providing case studies of those between land powers with continental orientations and leading maritime powers and challengers The contributors focus on the transition from commercial to strategic rivalry

Coalition Warfare Kjeld Hald Galster, Søren Nørby, Niels Bo Poulsen, 2013-07-16 It is unquestionable that the warfare of various post Cold War coalitions of the willing has drawn much attention over recent years However we may also notice that associations of nations fighting or preparing to fight for common causes are no novelty Multi national co operation in fields as costly and as fateful as war depends on considerations and caveats concerning political purpose risks mutual trust national wealth and pride compatibility of military forces and a glut of inta

The Mid-Victorian Generation

K. Theodore Hoppen, 2000-06-30 This the third volume to appear in the New Oxford History of England covers the period from the repeal of the Corn Laws to the dramatic failure of Gladstone's first Home Rule Bill In his magisterial study of the mid Victorian generation Theo Hoppen identifies three defining themes The first he calls established industrialism the growing acceptance that factory life and manufacturing had come to stay It was during these four decades that the balance of employment shifted irrevocably For the first time in history more people were employed in industry than worked on the land The second concerns the multiple national identities of the constituent parts of the United Kingdom Dr Hoppen's study of the histories of Ireland Scotland Wales and the Empire reveals the existence of a variety of particular and overlapping national traditions flourishing alongside the increasingly influential structure of the unitary state The third defining theme is that of interlocking spheres which the author uses to illuminate the formation of public culture in the period This he argues was generated not by a series of influences operating independently from each other but by a variety of intermeshed political economic scientific literary and artistic developments This original and authoritative book will define these pivotal forty years in British history for the next generation

Naval Coalition Warfare Bruce A. Elleman, S.C.M. Paine, 2007-08-23 This is the first scholarly book examining naval coalition warfare over the past two centuries from a multi national perspective Containing case studies by some of the foremost naval historians from the US Great Britain and Australia it also examines the impact of international law on coalitions Together these collected essays comprise a comprehensive examination of the most important naval coalitions of the nineteenth and twentieth centuries Chapters are arranged chronologically beginning with the Napoleonic Wars and ending with the second Gulf War and each makes use of new research and methodologies to address the creation of the coalition its actions and its short and long term repercussions The editors draw contemporary lessons from the book's historical case studies These findings are used to discuss the likelihood and character of future naval coalition for example the likelihood and possible outcome of an anti PRC coalition in defence of Taiwan Naval Coalition Warfare will be of great interest to students of naval history strategic studies international history and international relations in general

Under the Wire David Paull Nickles, 2003-11-30 Through case studies in crisis diplomacy the War of 1812 the Trent affair during the U S Civil War and the famous 1917 Zimmermann telegram Nickles examines the critical impact of the telegraph on the diplomacy of the nineteenth and early twentieth centuries

International Relations Theory of War Ofer Israeli, 2019-04-10 Covering 1816-2016 this book deals extensively with the international system as well as the territorial outcomes of several key wars that were waged during that time period providing an instructive lesson in diplomatic history and international relations among global powers Based on an in depth review of the leading theories in the field of international relations International Relations Theory of War explains an innovative theory on the international system developed by the author that he applies comprehensively to a large number of case studies The book argues that there is a unipolar system that represents a kind of innovation relative to other systemic theories It further posits that unipolar systems

will be less stable than bipolar systems and more stable than multipolar systems providing new insights relative to other theories that argue that unipolar systems are the most stable ones The first chapter is devoted to explaining the manner of action of the two dependent variables systemic international outcome and intra systemic international outcome The second chapter presents the international relations theory of war and its key assumptions The third chapter precisely defines the distribution of power in the system The fourth chapter examines the theory's two key phenomena The fifth and last chapter presents the book's conclusions by examining the theoretical assumptions of the international relations theory of war

Psychology, Strategy and Conflict James W. Davis, 2013-02-11 This volume examines the explanatory nesting approach in the analysis of international relations and its continuing relevance in the 21st century International relations theory urgently needs strategies for coping with the growing complexity of the international system following the collapse of the US Soviet bipolar stalemate the multiple challenges to US unipolar hegemony and the rise of powerful non Western actors Over the course of this book leading scholars of international relations and diplomatic history return to an approach to explanation pioneered in the writings of the late Robert Jervis The approach calls for nesting multiple layers of explanation systemic strategic and perceptual in an integrated causal account that is simultaneously parsimonious and nuanced Highlighting the logic of strategic interactions under uncertainty it also integrates the effects of psychological biases and the unintended consequences of acting in complex systems to provide explanations that are at once theoretically rigorous and rich in empirical detail Analyzing the current state of Realist theory signaling under conditions of uncertainty and anarchy the role of nuclear weapons in international politics the role of cognition and emotions in economic and foreign policy decision making and questions of responsibility in international affairs the authors provide a compelling guide for the future of international relations theory This book will be of much interest to students of international relations foreign policy and security studies

Justice and the Genesis of War David A. Welch, 1995-08-10 Studies of the causes of wars generally presuppose a realist account of motivation when statesmen choose to wage war they do so for purposes of self preservation or self aggrandizement In this book however David Welch argues that humans are motivated by normative concerns the pursuit of which may result in behaviour inconsistent with self interest He examines the effect of one particular type of normative motivation the justice motive in the outbreak of five Great Power wars the Crimean war the Franco Prussian war World War I World War II and the Falklands war Realist theory would suggest that these wars would be among the least likely to be influenced by considerations other than power and interest but the author demonstrates that the justice motive played an important role in the genesis of war and that its neglect by theorists of international politics is a major oversight

Leaders of Russia and the Soviet Union John Paxton, 2013-08-21 This reference work surveys the leaders of Russia and the Soviet Union from Michael the first Romanov tsar in 1613 through the creation and dissolution of the Soviet Union to the present day President of the Russian Federation Vladimir Putin Chronologically arranged these biographies paint a thorough

yet succinct portrait of 30 leaders including discussion about the family and education of each ruler important legislation events and wars under each leader's rule and each leader's achievements and impact on Russia or the Soviet Union

Perils of Anarchy Michael E. Brown, Sean M. Lynn-Jones, Steven E. Miller, 1995-03-27 Current debates about the nature of international politics have centered on the clash between supporters and critics of realism The Perils of Anarchy brings together a number of recent essays written in the realist tradition It includes realist interpretations of the collapse of the Cold War order and of the emerging order that has replaced it the sources of alignment and aggression and the causes of peace A final section provides a counterpoint by raising criticisms of and alternatives to the realist approach Contributors Charles L Glaser Christopher Layne Peter Liberman Lisa L Martin John J Mearsheimer Paul Schroeder Randall Schweller Stephen M Walt Kenneth N Waltz William C Wohlforth Fareed Zakaria An International Security Reader **Sevastopol's**

Wars Mungo Melvin CB OBE, 2017-05-18 Sevastopol's Wars is the first book in any language to cover the full history of Russia's historic Crimean naval citadel from its founding through to the current tensions that threaten the region Founded by Catherine the Great the maritime city of Sevastopol has been fought over for centuries Crucial battles of the Crimean War were fought on the hills surrounding the city and the memory of this stalwart defence inspired those who fruitlessly battled the Germans during World War II Twice the city has faced complete obliteration yet twice it has risen phoenix like from the ashes In this groundbreaking volume award winning author Mungo Melvin explores how Sevastopol became the crucible of conflict over three major engagements the Crimean War the Russian Civil War and World War II witnessing the death and destruction of countless armies yet creating the indomitable spirit of Sevastopol By weaving together first hand interviews detailed operational reports and battle analysis Melvin creates a rich tapestry of history *Imperial Russian Foreign Policy*

Hugh Ragsdale, V. N. Ponomarev, 1993-10-29 Imperial Russian Foreign Policy aims to demythologise a field hitherto dominated by suspicions of diabolical cunning inscrutable motives and international plots using unseen forces of the gigantic fear inspiring empire of the tsar The contributors leading historians from both Russia and the West examine Imperial foreign policy from its origins to the October Revolution revealing a policy that as in other countries had a complex of motives commerce nationalism the interests of various social groups but an unusual origin coming almost exclusively from the entourage of the tsar The work is based largely on original research in Soviet archives which only became possible after Soviet glasnost Never at War Spencer R. Weart, 1998-01-01 This lively survey of the history of conflict between

democracies reveals a remarkable and tremendously important finding fully democratic nations have never made war on other democracies Furthermore historian Spencer R Weart concludes in this thought provoking book they probably never will Building his argument on some forty case studies ranging through history from ancient Athens to Renaissance Italy to modern America the author analyzes for the first time every instance in which democracies or regimes like democracies have confronted each other with military force Weart establishes a consistent set of definitions of democracy and other key terms

then draws on an array of international sources to demonstrate the absence of war among states of a particular democratic type His survey also reveals the new and unexpected finding of a still broader zone of peace among oligarchic republics even though there are more of such minority controlled governments than democracies in history In addition Weart discovers that peaceful leagues and confederations the converse of war endure only when member states are democracies or oligarchies With the help of related findings in political science anthropology and social psychology the author explores how the political culture of democratic leaders prevents them from warring against others who are recognized as fellow democrats and how certain beliefs and behaviors lead to peace or war Weart identifies danger points for democracies and he offers crucial practical information to help safeguard peace in the future Is This a Private Fight or Can Anybody Join? Zachary C. Shirkey, 2016-05-06 Some countries join interstate wars well after the war has begun waiting months and often years and thus changing their beliefs about the wisdom of entering a war This volume examines why this might be so focusing on unforeseen events in wars which cause neutral players to update their expectations about the trajectory of the war therefore explaining why some wars spread while others do not The author uses a combination of case studies and statistical analysis to test this theory the Crimean War the Franco Prussian War World War I and a study of the spread of war since World War II Designed for courses on and research into war and other international security issues this book is a must read **Crisis Bargaining and the State** Susan Peterson, 1996 Examines the effect of domestic politics on the interstate bargaining in international crises

Origins Of The Crimean Alliance: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the fascinating narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Origins Of The Crimean Alliance : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
