**The Palgrave Handbook of Steam Age Gothic** Clive Bloom,2021-02-03

By the early 1830s the old school of Gothic literature was exhausted. Late Romanticism emphasising as it did the uncertainties of personality and imagination gave it a new lease of life. Gothic the literature of disturbance and uncertainty now produced works that reflected domestic fears sexual crimes drug filled hallucinations the terrible secrets of middle class marriage imperial horror at alien invasion occult demonism and the insanity of psychopaths. It was from the 1830s onwards that the old gothic castle gave way to the country house drawing room the dungeon was displaced by the sewers of the city and the villains of early novels became the familiar figures of Dr Jekyll and Mr Hyde Dracula Dorian Grey and Jack the Ripper. After the death of Prince Albert 1861 the Gothic became darker more morbid obsessed with demonic lovers blood sucking ghouls blood stained murderers and deranged doctors. Whilst the gothic architecture of the Houses of Parliament and the new Puginesque churches upheld a Victorian ideal of sobriety Christianity and imperial destiny Gothic literature filled these new spaces with a dread that spread like a plague to America France Germany and even Russia. From 1830 to 1914 the period covered by this volume we saw the emergence of the greats of Gothic literature and the supernatural from Edgar Allan Poe to Emily Bronte from Sheridan Le Fanu to Bram Stoker and Robert Louis Stevenson. Contributors also examine the fin de siècle dreamers of decadence such as Arthur Machen M P Shiel and Vernon Lee and their obsession with the occult folklore spiritualism revenants ghostly apparitions and cosmic annihilation. This volume explores the period through the prism of architectural history urban studies feminism hauntology and much more. Horror as Poe teaches us is the soul of the plot.

Against the Despotism of Fact T. J. Boynton, 2021-02-01 Emerging at a moment of escalating colonial conflict between England and Ireland the figure of the Irish Celt enjoyed a long and varied career in both English and Irish literature from the late Victorian era to World War II While this figure assumes many forms and functions T J Boynton argues that he is consistently cast as inherently resistant to capitalism Beginning with an innovative reassessment of Matthew Arnold's *The Study of Celtic Literature* from which the book also takes its title *Against the Despotism of Fact* offers new readings of major works by writers such as Kipling Conrad Lawrence Yeats Joyce and Beckett In their writing Boynton argues the Irish Celt served as a transnational vehicle of modernist experimentation geared toward interrogating the imperial social and pop cultural dimensions of capitalist modernity Making a significant contribution to Irish studies modernist studies and postcolonial studies *Against the Despotism of Fact* draws attention to not only the prevalence but also the critical potential of this fraught figure

**Savage Pastimes** Harold Schechter, 2005-03 In this cogent and well researched book Harold Schechter argues that unlike the popular conception of the media inciting violence through displaying it without these outlets of violence in the media a basic human need would not be met and would have to be acted out in much more destructive ways Schechter demonstrates how violent images saturated the earliest newspaper how art and disturbing images are not incompatible and how the demoralisation of comic books in the 1950s set up a pattern of equating testosterone fuelled entertainment with aggression
