## **Orthodox And Catholic Sister Churches:**

Orthodox and Catholic Sister Churches Michael Andrew Fahey, 1996      **The Concept of "Sister Churches" in Catholic-Orthodox Relations since Vatican II** Will T. Cohen, 2017-09-28

Often invoked between Vatican II and the end of the twentieth century by both Orthodox and Catholic officials across their confessional division the expression sister churches reflected their growing rapprochement as well as a shift on the Catholic side from a more centralized ecclesiology to one more attentive to the local church and conciliarity Pope John Paul II in his 1995 encyclical *Ut Unum Sint* spoke significantly of a doctrine of sister churches that would help guide the Catholic and Orthodox toward unity along a path of mutual respect rather than either tradition's submission to the other In his comprehensive treatment of the history of the expression sister churches over half a century of Catholic Orthodox relations Dr Will Cohen explores why the concept developed as it did why it was so fiercely contested and what remains vital about the concept today In the process Dr Cohen illuminates the ways in which Catholic and Orthodox ecclesiology respectively is each most capable of renewing and sustaining its proper balance when open to the authentic gifts of the other      *International Handbook of Inter-religious Education* Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity      The Primacy of the Bishop of Rome and the Ecumenical Dialogue Adriano Garuti, 2004 The mixed results of the ecumenical dialogue since the Second Vatican Council have made it clear that the primacy of the Bishop of Rome remains the single most serious obstacle on the path of ecumenism In his landmark 1995 encyclical *Ut unum sint* Pope John Paul II reiterated the constant teaching that the Catholic Church has preserved the ministry of the Successor of the Apostle Peter the Bishop of Rome He also invited leaders and theologians of other Christian communities to engage in a patient and fraternal dialogue on this subject to find a way of exercising the primacy which while in no way renouncing what is essential to its mission is nonetheless open to a new

situation This book explores in depth the discussion of papal primacy in the Catholic Orthodox Catholic Lutheran and Catholic Anglican dialogues along with an appendix on the concept of Sister Churches Each chapter describes how the primacy is viewed in the respective churches or ecclesial communities then it analyzes the documents of the official ecumenical dialogue and realistically evaluates the results achieved thus far

### **The One Church of Christ:**

**Understanding Vatican II** Stephen A. Hipp, 2018 Vatican II represents a watershed in the history of Catholic ecclesiology Although it stands in organic continuity with previous magisterial teaching distortions of its teaching have proliferated since the time of the Council leading many to conclude that the Catholic Church changed her position regarding the identity that exists between the One Church of Christ and the Catholic Church Stephen A Hipp's *The One Church of Christ Understanding Vatican II* refutes that conclusion and explains the Catholic understanding of how Christ's indivisible Church relates to the Catholic Church to non Catholic Christian communities and to other religious societies Hipp thoroughly examines the controversial statement that the Church of Christ subsists in the Catholic Church from terminological historical and theological perspectives showing that Vatican II introduces nothing doctrinally new to the Church's self understanding but provides a more nuanced way of speaking about the unicity and universality that define Christ's Church He reveals that Vatican II thereby establishes ecumenism and interreligious dialogue on fruitful ground while calling Catholics to a greater appreciation of the extraordinary gift of the Church's subsistence

**Politics in Post-Communist Romania** Lavinia Stan, Lucian Turcescu, 2007-10-25 In the post communist era it has become evident that the emerging democracies in Eastern Europe will be determined by many factors only some of them political Throughout the region the Orthodox Roman Catholic and Greek Catholic churches have tried to impose their views on democracy through direct political engagement Moreover surveys show that the churches and the army enjoy more popular confidence than elected political bodies such as parliaments These results reflect widespread disenchantment with a democratization process that has allowed politicians to advance their own agendas rather than work to solve the urgent socio economic problems these countries face In this penetrating study Lavinia Stan and Lucian Turcescu investigate the interaction of religion and politics in one such country Romania Facing internal challenges and external competitions from other religions old and new the Orthodox Church in Romania has sought to consolidate its position and ensure Romania's version of democracy recognizes its privileged position of national Church enforcing the Church's stances on issues such as homosexuality and abortion The post communist state and political elite in turn rely on the Church for compliance with educational and cultural policies and to quell the insistent demands of the Hungarian minority for autonomy Stan and Turcescu examine the complex relationship between church and state in this new Romania providing analysis in key areas

church collaboration with communist authorities post communist electoral politics nationalism and ethno politics restitution of Greek Catholic property religious education and sexual behavior and reproduction As the first scholars to be given access to confidential materials from the archives of the communist political police the notorious Securitate Stan and Turcescu also examine church archives legislation news reports and interviews with politicians and church leaders This study will move the debate from common analyses of nationalism in isolation to more comprehensive investigations which consider the impact of religious actors on a multitude of other issues relevant to the political and social life of the country

**American Eastern Catholics** Fred J. Saato, 2014-05-14 Examines the long and often difficult history of the Eastern Church Catholics e g Melkites Maronites Ruthenians Copts Ukrainians and their relationship often tenuous with Rome *Ecumenical Christian Dialogues and the Catechism of the Catholic Church* Jeffrey FSC. Gros, 2006 *Introduction to Ecumenism* Gros, Jeffrey, McManus, Eamon, Riggs, Ann, 1998 An overview of the history content and future of the modern ecumenical movement with particular attention to Catholic leadership and the results of dialogues among the churches

**Church Reckoning with Communism in Post-1989 Romania** Lavinia Stan, Lucian Turcescu, 2021-07-07 The present volume focuses on the relationship with Communism of Romania's most important religious denominations and their attempt to cope with that difficult past which continues to cast an important shadow over their present For the first time ever this volume considers both the majority Romanian Orthodox Church and significant minority denominations such as the Roman and Greek Catholic Churches the Reformed Church the Hungarian Unitarian Church and the Pentecostal Christian Denomination It argues that no religious group escaped collaboration with the Communists After 1989 however most denominations had little desire to tackle their tainted past and make a clean start In part this situation was facilitated by the country's deficient legislation that did not encourage the pursuit of lustration which in turn did not lead to a serious movement of elite renewal in the religious realm Instead a strong process of reproduction of the old elites and their adaptation to democracy has been the dominant characteristic of the post Communist period *Churches in the Family of God* Dr Peter Uche Uzochukwu, 2012-04-04

**Catholic Q&A** Father Ray Ryland, 2016-08-04 This is a compilation of Fr Ryland's column that appeared from 2004 through 2014 in The Catholic Answer magazine published by Our Sunday Visitor Huntington IN 46750 The 676 questions came from Catholics Protestants and non Christians who wanted a better understanding of the Catholic faith Access to particular topics is provided via a thorough back of the book index as well as through theme links throughout the book Touch a topic in the index or a theme link view the question and Fr Ryland's wise answer and you are equipped to better understand and to share the fullness of faith in Jesus Christ as Lord Think of this book as one more instrument in the new evangelization Online resources include full search capability and updates of the index Nihil Obstat and Imprimatur granted by the Diocese of Steubenville Ohio

**Christianity After Communism** Niels C., Jr. Nielsen, 2018-03-08 Specialists from Europe and the US investigate the current and changing role of religion in post communist Russia Drawing upon

Eastern Orthodox Protestant and Roman Catholic points of view they examine the Russian religious attitudes activities and institutions and explore the ways in which religion will significantly impact emerging social and political questions there The volume should be of use to scholars of Russian politics society and religion and for anyone interested in the emerging culture of the former Soviet Union and Eastern Europe

**Historical Dictionary of Catholicism** William J. Collinge, 2021-08-15 This work covers the whole history of Catholicism including the periods of Christian history prior to the present divisions into Catholic Orthodox and Protestant but within the earlier periods it focuses on the story line that leads to Catholicism in the Roman Rite and particularly to Roman Catholicism in the United States The Historical Dictionary of Catholicism Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important persons and places as well as themes such as baptism contraception labor church architecture the sexual abuse crisis Catholic history doctrine and theology spirituality and worship moral and social teaching and church structure This book is an excellent resource for students researchers and anyone wanting to know more about Catholicism

**The Hermeneutics of Tradition** Craig Hovey, Cyrus P. Olsen, 2014-11-18 The Hermeneutics of Tradition presents the latest scholarship on tradition as a concept and reality in the development of Christian cultures One aim is to show that traditions are upheld communicated and developed within a recognizable set of interpretive guidelines or rules and that analysis of these sets both requires and reveals a hermeneutics of tradition The work of the authors included here presents the precarious integrity of traditions and the often tenuous hold upon those traditions exercised by the hermeneutics that drive dynamics of preservation and change As scholars and religious worshippers continue ancient traditions of receiving strangers with generous hospitality the coherence of tradition serves conversations about where our true differences lie

**Human Dignity, Religion and the Law** Mark Hill KC, María-José Valero-Estarellas, 2024-09-09 The concept of human dignity is already embedded in the constitutional architecture of the European Union and throughout the world but it remains a slippery and elusive concept In this volume leading commentators from across the globe address the shift from the monolithic influence of major world religions in the past towards religious pluralism coupled with the increased secularism of civil society The contributors drawn from different backgrounds and traditions explore how the deployment of a nuanced understanding of human dignity can provide a way to maximise religious liberty for all within liberal democracies Specific consideration is given to the reasonable accommodation of religious practices through exemptions to generally applicable laws conscientious objection on the grounds of religious beliefs the interplay between religious pluralism and legal pluralism balancing religious sensibilities with same sex marriage exercising the right to change one's religion both generally and with a particular focus on data protection protecting the right to asylum in the light of recent changes in migratory flows and exploring its impact on those enjoying non theistic beliefs as well as the complex relationship between the Ukrainian and Russian Orthodox Churches in these febrile times Through the prism of informed investigation of these matters of specificity

the volume offers readers fresh insights and analysis which collectively contribute to an overall picture of governments in liberal democracies being encouraged and enabled to foster laws and practices whereby pluralism can be encouraged and human dignity can flourish The book will be of interest to academics researchers and policy makers working in the areas of Law and Religion Human Rights Law Constitutional Law and International Relations The Oxford Handbook of Catholic Theology Lewis Ayres, Medi Ann Volpe, Thomas L. Humphries (Jr.), 2019 This Handbook provides an introduction to all the major aspects of Catholic theology As well as covering basic topics of doctrine and moral theology the book considers some of Catholic theology's most important sources between 200 and 1870 and all the main movements and developments in Catholic theology since 1870 *Religious Life in Poland* Christopher Garbowski, 2014-02-10 This book provides a concise historical outline of religion in Poland up until its entry into the European Union in 2004 together with a longer presentation of contemporary religious issues Albeit largely mono ethnic and overwhelmingly Catholic after the loss of its large Jewish population to the Holocaust and subsequent post World War II border shifts traces of an historic diversity remain in Poland to date playing a greater role than mere numbers would suggest Poland's fairly robust religious life is affected by the country's continuing modernization and its various institutions and this is discussed within a broad context One of the unfortunate legacies of decades of communism is a stunted civil society while at different levels there are conflicts involving religion at the grassroots it is one of the few forces building much needed trust in present day Polish society Church, State, and Democracy in Expanding Europe Lavinia Stan, Lucian Turcescu, 2011-08-29 Lavinia Stan and Lucian Turcescu examine the relationship between religion and politics in ten former communist Eastern European countries Contrary to widespread theories of increasing secularization Stan and Turcescu argue that in most of these countries the populations have shown themselves to remain religious even as they embrace modernization and democratization Church state relations in the new EU member states can be seen in political representation for church leaders governmental subsidies registration of religions by the state and religious instruction in public schools Stan and Turcescu outline three major models the Czech church state separation model in which religion is private and the government secular the pluralist model of Hungary Bulgaria and Latvia which views society as a group of complementary but autonomous spheres for example education the family and religion each of which is worthy of recognition and support from the state and the dominant religion model that exists in Poland Romania Estonia and Lithuania in which the government maintains informal ties to the religious majority Church State and Democracy in Expanding Europe offers critical tools for understanding church state relations in an increasingly modern and democratic Eastern Europe
