Orthodoxy And Heresy In Earliest Christianity:

Orthodoxy and Heresy in Earliest Christianity Walter Bauer, 1979 **Orthodoxy and Heresy in Earliest Christianity** Walter Bauer, 1971 **Orthodoxy and Heresy in Early Christian Contexts** Paul A. Hartog, 2015-01-30 Eighty years ago Walter Bauer promulgated a bold and provocative thesis about early Christianity. He argued that many forms of Christianity started the race but one competitor pushed aside the others until this powerful orthodox version won the day. The victors re-wrote history marginalizing all other perspectives and silencing their voices even though the alternatives possessed equal right to the title of normative Christianity. Bauer's influence still casts a long shadow on early Christian scholarship. Were heretical movements the original forms of Christianity? Did the heretics outnumber the orthodox? Did orthodox heresiologists accurately portray their opponents? And more fundamentally, how can one make any objective distinction between heresy and orthodoxy? Is such labeling merely the product of socially situated power? Did numerous valid forms of Christianity exist without any validating norms of Christianity? This collection of essays, each written by a relevant authority, tackles such questions with scholarly acumen and careful attention to historical, cultural, geographical, and socio-rhetorical detail. Although recognizing the importance of Bauer's critical insights, innovative methodologies, and fruitful suggestions, the contributors expose numerous claims of the Bauer thesis in both original and recent manifestations that fall short of the historical evidence. With contributions from Rodney Decker, Carl Smith, William Varner, Rex Butler, Bryan Litfin, Brian Shelton, David Alexander, Edward Smither, Glen Thompson **The Bauer Thesis Examined** Thomas Arthur Robinson, Thomas A. Robinson, 1988 This study challenges the adequacy of the reconstruction of primitive Christianity advanced by Walter Bauer in *Orthodoxy and Heresy in Earliest Christianity*, the theory that so-called heretical movements were early, widespread, and strong. The author does this by citing the lack of data extensive enough to warrant such conclusions **Orthodoxy and heresy in earliest Christianity** Walter Bauer, 1971 *The Heresy of Orthodoxy (Foreword by I. Howard Marshall)* Andreas J. Köstenberger, Michael J. Kruger, 2010-06-09 Beginning with Walter Bauer in 1934, the denial of clear orthodoxy in early Christianity has shaped and largely defined modern New Testament criticism, recently given new life through the work of spokesmen like Bart Ehrman. Spreading from academia into mainstream media, the suggestion that diversity of doctrine in the early church led to many competing orthodoxies is indicative of today's postmodern relativism. Authors Köstenberger and Kruger engage Ehrman and others in this polemic against a dogged adherence to popular ideals of diversity. Köstenberger and Kruger's accessible and careful scholarship not only counters the Bauer Thesis using its own terms but also engages overlooked evidence from the New Testament. Their conclusions are drawn from analysis of the evidence of unity in the New Testament, the formation and closing of the canon, and the methodology and integrity of the recording and distribution of religious texts within the early church *Orthodoxy and Heresy in Earliest Christianity* Walter Bauer, 1996 **Orthodoxy and Heresy in Early Christian Contexts** Paul A. Hartog, 2015-01-30 Eighty years ago Walter Bauer promulgated a bold and

One John in the Light of the Debate on Orthodoxy and Heresy in Earliest Christianity Krista Gregory,1995 The Pattern of Christian Truth H. E. W. Turner,2004-10-29 Walter Bauer s Orthodoxy and Heresy in Earliest Christianity created a stir with its argument that the teachings later condemned as heresy in the later second century onward were in fact dominant in the earliest decades of the church This full scale response by H E W Turner has not enjoyed the attention it deserves Turner s volume represents a learned and sophisticated restatement of the traditional view what became official orthodoxy was taught early on by the majority of church teachers albeit not in fully developed form Lost Christianities Bart D. Ehrman,2005 Focusing on key historical texts a biblical authority offers a revealing look at the early church and the intense struggle to form the canon of the New Testament 11 halftones Heretics Gerd Ludemann,1996-01-01 According to the commonly held view early Christianity was a time of great harmony and heresy emerged only at a later stage To the contrary Gerd Ludemann argues that the time from the first Christian communities to the end of the second century was defined by struggle by various groups for doctrinal authority Drawing on a wealth of data he asserts that the losers in this struggle actually represented Christianity in its more authentic original form Orthodoxy has been defined by the victors in this struggle and it is they who subsequently silenced alternative views and labeled them heretical Ludemann s findings are important as well as liberating for the understanding of both Christianity and the Bible Readers will gain a new understanding of Jesus and the early church from this compelling and controversial book **The Quest for Early Church Historiography** Jeremiah Mutie,2022-09-09 The Quest for Early Church Historiography explores how early church historiography underwent a significant shift beginning with the thought of Ferdinand Christian Baur 1792 1860 a shift that eventually culminated in the current extreme historiographies of such scholars as Bart D Ehrman 1955 Through the tracing

of this historiographical trajectory this work argues that rather than seeing these current historiographies as having suddenly appeared in the scholarly scene a better approach is to see them as the fruit of this long trajectory Of course as the work has sought to demonstrate this trajectory is itself full of turns and twists But the careful reader will hopefully be able to see the intrinsic connections that are demonstrably evident

Mapping Gender in Ancient Religious Discourses Todd C. Penner, Caroline Vander Stichele, 2007 A collection of essays on early Christian Jewish and Greco Roman religious discourses in antiquity focusing on the construction of gender in relationship to broader cultural and religious themes argumentation and identity formation in the early centuries of the common era

Marcion, on the Restitution of Christianity R. Joseph Hoffmann, 1984

Radical Martyrdom and Cosmic Conflict in Early Christianity Paul Middleton, 2006-08-30 Several view of martyrdom co existed in the early Church The orthodox position generally accepted by scholars was that a Christian should choose martyrdom rather than deny the Faith but should not on any account court death Although it has been recognised that some in the early Church did seek a glorified death by giving themselves over to arrest most scholars have dismissed such acts as differing from the accepted attitude to martyrdom in the early Church Therefore instances of volitional or radical martyrdom have been largely overlooked or sidelined in scholarly investigations into the theology and origins of Christian martyrdom Paul Middleton argues that far from being a deviant strand of early Christianity radical martyrdom was a significant and widely held idealised form of devotion in the late first to early third centuries Christian martyrdom is placed within the heritage of Jewish War tradition with each martyr making an important contribution to the cosmic conflict between Satan and God Radical Martyrdom re examines the presentation theology and origins of Christian martyrdom up to the beginning of the Decian persecutions in the light of new perspectives on the subject

Heresy and the Formation of Medieval Islamic Orthodoxy Ahmad Khan, 2023-04-13 Between the eighth and eleventh centuries many defining features of classical Sunni Islam began to take shape Among these was the formation of medieval Sunnism around the belief in the unimpeachable orthodoxy of four eponymous founders and their schools of law In this original study Ahmad Khan explores the history and cultural memory of one of these eponymous founders Ab an fa Showing how Ab an fa evolved from being the object of intense religious exclusion to a pillar of Sunni orthodoxy Khan examines the concepts of orthodoxy and heresy and outlines their changing meanings over the course of four centuries He demonstrates that orthodoxy and heresy were neither fixed theological categories nor pious fictions but instead were impacted by everything from law and politics to society and culture This book illuminates the significant yet often neglected transformations in Islamic social political and religious thought during this vibrant period

Christology From Within and Ahead Mark Chan, 2021-10-01 Troeltsch s struggle with historicism sets the stage for a proposal that Christology be done from within and from ahead Gadamer s philosophical hermeneutics and Schleiermacher s experiential theology inform a Christology from within that is rooted in tradition and experience while Pannenberg s notion of proleptic eschatological

fulfilment serves as resource for a Christology from ahead This volume develops a hermeneutical Christology that takes into account the historical contingency of knowledge and seeks a Christology beyond the objectivism of timeless truth and the relativism of absolutised contextuality The book is concluded with an examination of the convergence of critical traditionality experiential appropriation and eschatological prolepsis in the Christology of the apostle Paul The author explores how Christology might respond to the scandal of universality in postmodernity without defaulting on its claim to transcontextual referentiality The Church of Antioch and the Eucharistic Traditions (ca. 35-130 CE) Amiel Drimbe, 2020-10-12 The author has chosen 1 to analyse the Eucharistic traditions of earliest Christianity and 2 to trace their use within the church of Antioch focusing on the following key texts 1 Cor 11 23 25 Matt 26 26 29 Did 9 1 10 6 and Ignatius Phil 4 1 Therefore connecting the four Eucharistic texts to the early church of Antioch constitutes the main objective of this study Introduction Symbolic Blackness and Ethnic Difference in Early Christian Literature Gay L Byron, 2003-10-04 There has been growing interest in recent years in the presence and image of blacks and blackness in classical antiquity However this pioneering and much needed work is the first to survey and theorise the black as seen by early Christian writers
