## **Pleading Guilty:**

**The Psychology and Law of Criminal Justice Processes** Roger J. R. Levesque, 2006 Psychological science now reveals much about the law's response to crime. This is the first text to bridge both fields as it presents psychological research and theory relevant to each phase of criminal justice processes. The materials are divided into three parts that follow a comprehensive introduction. The introduction analyses the major legal themes and values that guide criminal justice processes and points to the many psychological issues they raise. Part I examines how the legal system investigates and apprehends criminal suspects. Topics range from the identification, searching and seizing to the questioning of suspects. Part II focuses on how the legal system establishes guilt. To do so it centres on the process of bargaining and pleading cases, assembling juries, providing expert witnesses and considering defendants' mental states. Part III focuses on the disposition of cases. Namely, that part highlights the process of sentencing defendants, predicting criminal tendencies, treating and controlling offenders and determining eligibility for such extreme punishments as the death penalty. The format seeks to give readers a feeling for the entire criminal justice process and for the role psychological science has and can play in it.

**Military Justice Procedure** United States. War Department, 1945      Manual of Military Law Great Britain. War Office, 1940      **Criminal Courts** Aaron Kupchik, 2019-01-15 The social organization of criminal courts is the theme of this collection of articles. The volume provides contributions to three levels of social organization in criminal courts: 1. the macro level involving external economic, political and social forces; Joachim J. Savelsberg, Raymond Michalowski, Mary E. Vogel, John Hagan and Ron Levi; 2. the meso level consisting of formal structures, informal cultural norms and supporting agencies in an interlocking organizational network; Malcolm M. Feeley, Lawrence Mohr, Jo Dixon, Jeffrey T. Ulmer and John H. Kramer; and 3. the micro level consisting of interactional orders that emerge from the social discourses and categorizations in multiple layers of bargaining and negotiation processes; Lisa Frohmann, Aaron Kupchik, Michael McConville and Chester Mirsky. Bankole A. Cole. An editorial introduction ties these levels together, relating them to a Weberian sociology of law.

**Research Handbook on Plea Bargaining and Criminal Justice** Máximo Langer, Mike McConville, Luke Marsh, 2024-04-12 Bringing together established and emerging scholars from around the world, the Research Handbook on Plea Bargaining and Criminal Justice examines the practice of plea bargaining through which guilty pleas are secured and trials are avoided.      The "Good Soldier" on Trial Stjepan G. Mestrovic, 2009 Sequel to *Rules of Engagement: A Social Anatomy of an American War Crime in Iraq*, Operation Iron Triangle c2008      *The Ordering of Justice* Patricia M. Baranek, Richard V. Ericson, 1982-01-01 From the point of his arrest through to the final disposition of his case, the authors follow the accused as he proceeds through the criminal control system. They draw a picture of one who is dependent upon the orders and decisions of the police, crown attorney, defence lawyer and judge, and not a defendant with significant autonomy. Substudies conducted under a program of the Centre of Criminology provide empirical material on patrol police, detectives, crown attorneys and

defence lawyers and are complemented by the authors own interviews of accused persons They produce a unique picture of the person who stands accused unlike the official agents who are regular and experienced participants in the criminal process the accused is a one shot player As a dependant he is subject to the orders and decisions of the official criminal control agents he fails to exercise what appear externally as his formal rights because the apparent costs exceed the advantages He complies with police searches fails to remain silent fails to call a third party gives a statement often does not obtain a lawyer routinely accepts his lawyer s advice rarely demands a trial often remains silent in court and very rarely considers an appeal The ordering which the accused meets out of court is reproduced in the public forum of the court Through the display of formal legal rationality there and in the belief that matters could have been a lot worse he experiences the majesty justice and mercy of the criminal process and in turn accords legitimacy to the actions taken against him The authors discuss prospects for changing the criminal process and conclude that the range of reforms that have been advocated and sometimes implemented does not lead to an alteration of the accused s position within the ordering of justice because the system is not truly adversarial Rather it serves the interests of the state in ordering the population as well as professional interests of those who man the system
