Wiener, 2025-04-04 Do you believe in magic This familiar question suggests magic is easily recognized but unreal In *Magic's Translations* Margaret J Wiener argues that such views are shaped by historical power struggles especially in Europe's relations with the wider world Focusing on nineteenth and twentieth century Dutch interactions with Indonesians Wiener reveals how colonial agents framed unfamiliar practices practitioners and objects as magic rendering distinct phenomena fundamentally alike and advancing colonizing projects that deemed magic antithetical to reason and reality While colonial authorities including ethnologists mobilized the concept of magic to differentiate Europeans from Indonesians nature from culture reason from superstition and fact from fetish their efforts produced unexpected outcomes Some Indonesian artifacts and acts not only retained their power but invaded European experiences As anthropologists were among the key translators of magic throughout the world Wiener intersperses accounts of magic's translations in the Indies with reflections on anthropology's ongoing engagement with the concept She demonstrates that magic became an object of expert knowledge political control and popular fascination rather than a self evident category or relic of naïve belief **Magical Power For Beginners** Deborah Lipp, 2017-06-08 Discover easy ways to harness the power of magic with this accessible guidebook What makes magic work What can it do and what can't it do This straightforward easy to follow guide answers the most common questions about magical power By learning the fundamentals of raising and sending power you'll gain the skills you need to create and perform spells and rituals that work Written for beginners or adepts from any spiritual background this approachable book shows how to Personalize power to suit your purpose Choose a magical goal Use magical correspondences Store power in your tools Transcend time and space Perform group magic Construct a spell with step by step samples Develop mind skills meditation grounding and visualization **The Complete Idiot's Guide to Paganism** Carl McColman, 2002 Presents a complete idiot's guide to understanding paganism and examines the basic principles of shamanism druidism and Wicca as well as the fundamentals of meditation magic divination and spiritual healing [Magic and Mysticism](#) Arthur Versluis, 2007-05-22 *Magic and Mysticism* An Introduction to Western Esoteric Traditions is a concise

Hekhalot literature is a bizarre conglomeration of Jewish esoteric and revelatory texts in Hebrew and Aramaic produced sometime between late antiquity and the early Middle Ages and surviving in medieval manuscripts These texts claim to describe the self induced spiritual experiences of the descenders to the chariot and to reveal the techniques that permitted these magico religious practitioners to view for themselves Ezekiel's Merkavah as well as to gain control of angels and a supernatural mastery of Torah Drawing on epigraphic and archaeological evidence from the Middle East anthropological models and a wide range of cross cultural evidence this book aims to show that the Hekhalot literature preserves the teachings and rituals of real religious functionaries who flourished in late antiquity and who were quite like the functionaries anthropologists call shamans *Magic white and black, or, The science of finite and infinite life* Franz Hartmann (Theosophist.), 1888

Oriental Wisdom C. Alexander, 1924 Systematic Theology Paul Tillich, 2012-11-30 A great voyage of discovery into a rich and deep and inclusive vision and understanding of human life in the presence of the mystery of God H. Richard Niebuhr author of *Christ and Culture* This is the first part of Paul Tillich's three volume *Systematic Theology* one of the most profound statements of the Christian message ever composed and the summation and definitive presentation of the theology of the most influential and creative American theologian of the twentieth century In this path breaking volume Tillich presents the basic method and statement of his system his famous correlation of man's deepest questions with theological answers Here the focus is on the concepts of being and reason Tillich shows how the quest for revelation is integral to reason itself In the same way a description of the inner tensions of being leads to the recognition that the quest for God is implied in finite being Here also Tillich defines his thought in relation to philosophy and the Bible and sets forth his famous doctrine of God as the Ground of Being Thus God is understood not as a being existing beside other beings but as being itself or the power of being in everything God cannot be made into an object religious knowledge is therefore necessarily symbolic Beyond doubt the richest most suggestive and most challenging philosophical theology our day has produced John Herman Randall Jr author of *The Making of the Modern Mind* **The Witch Studies Reader** Soma
