Provençal Regionalism A Study Of The Mov:

Two Sides of One River António Medeiros, 2013 Galicia the region in the northwest corner of Spain contiguous with Portugal is officially known as the Autonomous Community of Galicia It is recognized as one of the historical nationalities making up the Spanish state as legitimized by the Spanish Constitution of 1978 Although Galicia and Portugal belong to different states there are frequent allusions to their similarities This study compares topographic and ethnographic descriptions of Galicia and Portugal from the nineteenth and twentieth centuries to understand how the integration into different states and the existence of nationalist discourses resulted in marked differences in the historical representations of these two bordering regions of the Iberian Peninsula The author explores the role of the imagination in creating a sense over the last century and a half of the national being and becoming of these two related peoples **MLN.**, 1955 Provides image and full text online access to back issues Consult the online table of contents for specific holdings The Publishers Weekly, 1971 Littell's Living Age, 1919 The Publishers' Trade List Annual, 1961 *The Regionalist Movement in France, 1890-1914* Julian Wright, 2003 This is the first full academic study of the political thought of the French regionalist movement in the Belle Epoque Julian Wright has examined the private papers of Jean Charles Brun founder of the Federation Regionaliste Francaise in detail He has rethought the conceptual basis of regionalism through Charles Brun's intellectual biography showing that it penetrated the political debates of the period as a commonplace in Republican arguments about state reform Despite the often made association of regionalism with the right Dr Wright reveals the diversity of political views expressed and demonstrates that the connection to left wing federalism was emphatically present in the intellectual background Interwoven with this discussion is an examination of the personal mission of Charles Brun He saw himself as a reconciler using his regionalism within a mission to heal the divisions of French politics and society He argued that France's instability stemmed from an obsession with reforms that followed a priori political models and that politicians who sought to rethink the shape of the Republic needed to attend to the cultural or economic realities expressed in France's regions Charles Brun and his regionalist movement continue to have resonance in current debates about decentralization in France The Living Age, 1919 **Regionalism After Regionalisation** Frans Schrijver, 2006 Concentrating on three countries Spain France and the United Kingdom and three regional case studies of Galicia Brittany and Wales this book offers an analysis of the development of political regionalism after regionalisation **American Book Publishing Record**, 1971 Cezanne and Provence Nina M.
