**The Rights of Roma in European Courts** Kristin Henrard, Lilla Farkas, 2025-05-26 The abundance of Roma rights cases before international and European courts reflects the Roma's systemic marginalization as well as their resolve to push the boundaries of human rights law The Roma have increasingly raised concerns through strategic litigation urging the courts to develop their jurisprudence and adjust the scope of human rights applications This edited volume examines these cases exploring the extent to which strategic litigation can and does push the boundaries of human rights Adopting a long needed yet untested approach the volume situates Roma rights within the broader human rights edifice and identifies its key contributions The volume focuses on the quasi jurisprudence of the European Court of Human Rights the Court of Justice of the EU and the European Committee of Social Rights with several chapters also drawing parallels with jurisdictions beyond Europe Its contributing authors span a broad range of disciplines including human rights law political science climate justice and ethnology Combining rich doctrinal and socio legal analysis *The Rights of Roma in European Courts* is an unparalleled resource for scholars and practitioners seeking to understand the systemic discrimination faced by the Roma and explore legal solutions for countering it *Official Report of Debates* Council of Europe: Parliamentary Assembly, 2003-03-14

**The Burden of the Past** Anna Wylegala, Malgorzata Glowacka-Grajper, 2019-01-29 Essays on how chaos totalitarianism and trauma have shaped Ukraine's culture A milestone of the scholarship about Eastern European politics of memory Wulf Kansteiner Aarhus University In a century marked by totalitarian regimes genocide mass migrations and shifting borders the concept of memory in Eastern Europe is often synonymous with notions of trauma In Ukraine memory mechanisms were disrupted by political systems seeking to repress and control the past in order to form new national identities supportive of their own agendas With the collapse of the Soviet Union memory in Ukraine was released creating alternate visions of the past new national heroes and new victims This release of memories led to new conflicts and memory wars How does the past exist in contemporary Ukraine The works collected in *The Burden of the Past* focus on commemorative practices the politics of history and the way memory influences Ukrainian politics identity and culture The works explore contemporary memory culture in Ukraine and the ways in which it is being researched and understood Drawing on work from historians sociologists anthropologists psychologists and political scientists the collection represents a truly interdisciplinary approach Taken together the groundbreaking scholarship collected in *The Burden of the Past* provides insight into how memories can be warped and abused and how this abuse can have lasting effects on a country seeking to create a hopeful future

*The Human Face of the European Union* Nuno Ferreira, Dora Kostakopoulou, 2016-08-18 This collection asks a direct but complex question is the EU humane enough The implementation of EU law and policy and its

balance between economic and social values continues to provoke debate Providing fresh insight Nuno Ferreira and Dora Kostakopoulou present a novel analytical framework centred on the notion of humaneness for assessing EU law and policy This innovative approach leads to recommendations for policy change towards a more humanistic philosophy for the EU Broad in its scope this remarkable volume draws together interdisciplinary perspectives from contributors who examine key EU law and policy fields including economic integration asylum and free movement citizenship and development and security This book is essential reading for scholars students and policy makers seeking new ways of exploring the economic versus social values debate in EU law *Country Reports on Human Rights Practices*, 2002 *Europe on the Move* A. T.

Lane, Elzbieta Stadtmüller, 2005 This collection of essays by a multinational group of authors examines the political social and economic consequences of the most recent enlargement of the European Union It does not confine itself to a discussion of the impact on the new member states but also considers the likely effects of this enlargement on the EU itself These effects include not only the familiar need for new modes of governance but also involve other changes resulting from a process of what has been called mutual learning These essays analyse various aspects of this process starting with the Constitutional Convention Sometimes the focus is on the impact on the new members sometimes on the changes likely to occur in the EU and its older members as a result of this enlargement The emphasis on change is encapsulated in the book's title *Europe on the Move* **The Palgrave Handbook of Slavic Languages, Identities and Borders** Tomasz Kamusella, Motoki

Nomachi, Catherine Gibson, 2016-04-29 This book analyzes the creation of languages across the Slavophone areas of the world and their deployment for political projects and identity building mainly after 1989 It offers perspectives from a number of disciplines such as sociolinguistics socio political history and language policy Languages are artefacts of culture meaning they are created by people They are often used for identity building and maintenance but in Central and Eastern Europe they became the basis of nation building and national statehood maintenance The recent split of the Serbo Croatian language in the wake of the break up of Yugoslavia amply illustrates the highly politicized role of languages in this region which is also home to most of the world's Slavic speakers This volume presents and analyzes the creation of languages across the Slavophone areas of the world and their deployment for political projects and identity building mainly after 1989 The overview concludes with a reflection on the recent rise of Slavophone speech communities in Western Europe and Israel The book brings together renowned international scholars who offer a variety of perspectives from a number of disciplines and sub fields such as sociolinguistics socio political history and language policy making this book of great interest to historians sociologists political scientists and anthropologists interested in Central and Eastern Europe and Slavic Studies What is the Romani Language? Peter Bakker, Khristo Kiuchukov, Khristo Kiuchukov, 2000 This book deals with the Romani language It does not teach the readers to speak the language Rather it deals with its origin its current use and status its beginning literature and films and the way it is learned by children and much more It shows that Romani is a language in its own right

with its own unique grammatical system dialects and particular norms of language use Pressure from the outside world has diminished the use of the language in some areas but generally it is a thriving language spoken by millions of people

**The Legacies of the Romani Genocide in Europe since 1945** Celia Donert,Eve Rosenhaft,2021-12-27 This book explores the legacies of the genocide of Roma in Europe after the end of the Second World War Hundreds of thousands of people labelled as Gypsies were persecuted or killed in Nazi Germany and

across occupied Europe between 1933 and 1945 In many places discrimination continued after the war was over The chapters in this volume ask how these experiences shaped the lives of Romani survivors and their families in eastern and western Europe since 1945 This book will appeal to researchers and students in Modern European History Romani Studies and the history of genocide and the Holocaust The Catholic Reformation Michael A. Mullett, 2023-03-08 The Catholic Reformation 1999 provides a dynamic and original history of this crucial movement in early modern Europe Starting from the late middle ages it clearly traces the continuous transformation of Catholicism in its structure bodies and doctrine Charting the gain in momentum of Catholic renewal from the time of the Council of Trent it also considers the ambiguous effect of the Protestant Reformation in accelerating the renovation of the Catholic Church It explores how and why the Catholic Reformation occurred stressing that many moves towards restoration were underway well before the Protestant Reformation The huge impact the Catholic renewal had not only on the papacy Church leaders and religious ritual and practice but also on the lives of ordinary people their culture arts attitudes and relationships is shown in colourful detail *The Laissez-Faire Peasant* Jovana Diković, 2025-01-14 In rural development studies there are two mainstream assumptions One holds that peasants are the victims of state rural development schemes the other that only planning can ensure change and prosperity in rural regions It is rarely considered that peasants are architects of their own and local wellbeing notions which are often in opposition to state plans for agriculture The Laissez Faire Peasant explores how rural development emerges on the ground The concept involves the manifestation of peasant worldviews in which autonomy in decision making freedom of action spontaneity and flexibility in everyday cooperation play a dominant role A role in which individual and local values generate a self regulating system that manages a range of economic social and political relationships The book examines manifestations of peasant autonomy both in response to and independent of state rural development policies through a multi sited ethnography of three Serbian villages It is shown how these factors impede state programs for rural development while enabling the spontaneous flourishing of local communities By focusing on the agency of rural residents the book finds that peasants are resilient and competent agents who do not need government plans to thrive Praise for The Laissez Faire Peasant Anthropologists and missionaries claim to love their peasants Economists and planners claim to help them Both look down Dikovi brilliantly proposes a new approach which might be called humanomics It gives respect looking up from where people actually live Deirdre Nansen McCloskey University of Illinois at Chicago This is an ethnographically rich and conceptually original study of post socialist peasantry and rural development in Serbia Jovana Dikovi draws a complex picture of the post socialist peasants as autonomous and resilient subjects motivated by the visions of rural development anchored in their local lifeworlds Agnieszka Joniak L thi University of Fribourg In her excellent study Jovana Dikovi challenges the narrative about Serbian peasants usually viewed as downtrodden and exploited underdogs in need of governmental help In this careful case study these peasants represent an entrepreneurial self reliant and individualistic

social group that can survive and thrive even in the conditions of modern and technologically advanced capitalism Ivan Jankovi Institut auf dem Rosenberg      **The Routledge Handbook of European Criminology** Sophie Body-Gendrot, Mike Hough, Klara Kerezsi, René Lévy, Sonja Snacken, 2013-08-15 This new book brings together some of the leading criminologists across Europe to showcase the best of European criminology This Handbook aims to reflect the range and depth of current work in Europe and to counterbalance the impact of the sometimes insular and ethnocentric Anglo American criminological tradition The end product is a collection of twenty eight chapters illustrating a truly comparative and interdisciplinary European criminology The editors have assembled a cast of leading voices to reflect on differences and commonalities elaborate on theoretically grounded comparisons and reflect on emerging themes in criminology in Europe After the editors introduction the book is organised in three parts five chapters offering historical theoretical and policy oriented overviews of European issues in crime and crime control seven chapters looking at different dimensions of crime in Europe including crime trends state crime gender and crime and urban safety fifteen chapters examining the variety of institutional responses exploring issues such as policing juvenile justice punishment green crime and the role of the victim This book gives some indication of the richness and scope of the emerging comparative European criminology and will be required reading for anyone who wants to understand trends in crime and its control across Europe It will also be a valuable teaching resource especially at postgraduate level as well as an important reference point for researchers and scholars of criminology across Europe      *The Conflict and Culture Reader* Pat K. Chew, 2001 In any conflict the players seem to invariably view that conflict through the filter of their own cultural experiences This collection of essays draws on a variety of disciplines to analyze fundamental assumptions about how conflict arises and how it is resolved
