Roman Army:

The Roman Army Pat Southern, 2007-10-01 Written by a leading authority on Roman military history this fascinating volume spans over a thousand years as it offers a memorable picture of one of the world's most noted fighting forces paying special attention to the life of the common soldier Southern here illuminates the Roman army's history culture and organization providing fascinating details on topics such as military music holidays strategy the construction of Roman fortresses and forts the most common battle formations and the many tools of war from spears bows and arrows swords and slingshots to the large catapulta which fired giant arrows and bolts and the ballista which hurled huge stones Perhaps most interesting are the details Southern provides about everyday life in the Roman army everything from the soldiers pay they were paid three times per year but money was deducted for such items as food clothing weapons the burial club the pension scheme and so on to their often brutal life if whole units turned and ran about one tenth of the men concerned were chosen by lot and clubbed to death and the rest were put on barley rations instead of wheat Moreover soldiers who lost weapons or their shields would fight savagely to get them back or would die in the process rather than suffer the shame that attached to throwing weapons away or running from the battle Attractively illustrated this book offers a fascinating look at the life of the Roman soldier drawing on everything from Rome's rich historical and archaeological record to soldier's personal correspondence to depictions of military subjects in literature and art

The Roman Army at War Adrian Keith Goldsworthy, 1998 This detailed examination of the way in which the Roman army operated during a war and how it fought a battle breaks away from existing studies which mostly concentrate on the army in peacetime and attempts to understand the army as an institution whose ultimate purpose was to wage war Adrian Goldsworthy explores the influence to the Roman army's organization on its behaviour during a campaign emphasizing its great flexibility in comparison to most of its opponents He considers the factors determining the result of a conflict and proposes contrary to orthodox opinion that the Roman army was able to adapt successfully to any type of warfare Following the technique pioneered by John Keegan in *The Face of Battle* 1976 Dr Goldsworthy builds up a precise picture of what happened during battle tactics employed weaponry leadership behaviour of individuals as well as groups of soldiers and of utmost importance morale

and the New Testament Christopher B. Zeichmann,2018-10-31 Though New Testament scholars have written extensively on the Roman Empire the topic of the military has been conspicuously neglected leading many academics to defer to popular wisdom Against this trend *The Roman Army and the New Testament* provides a clear discussion of issues that are often taken for granted Who served in the military of early Roman Palestine Why did men join the Roman army seemingly at odds with their own interests as subject peoples What roles did soldiers serve beyond combat How did civilians interact with and perceive soldiers These questions are answered through careful analysis of ancient literature inscriptions papyri and archaeological findings to paint a detailed portrait of soldier civilian interactions in early Roman Palestine Contrary to

common assumption Judaea and Galilee were not crawling with Roman legionaries with a penchant for cruelty Rather a diverse mix of men from Palestine and nearby regions served as soldiers in a variety of social roles infrastructure construction dispute mediation bodyguarding officials like tax collectors etc Readers will discover a variety of complex attitudes civilians held toward men of Roman violence throughout the Roman East The importance of these historical issues for biblical scholarship is demonstrated through a verse by verse commentary on relevant passages that stretches across the entire New Testament from the Slaughter of the Innocents in Matthew's nativity to the climactic battle with the Great Beast in Revelation Biblical scholars seminarians and military enthusiasts will find much to learn about the Roman army in both the New Testament and early Roman Palestine

that encircled the Mediterranean and covered half of Europe The physical remains of its presence can be traced from the mountainous borders of Scotland to the arid deserts of Egypt but its legacy is far greater and more enduring as Rome's influence continues to shape the political legal and cultural landscape of Europe to this very day While the Roman army is rightly famed as an institution the image of the individual legionary is also an iconic one The uniformed disciplined soldier of the late Republic and early Empire is one of the first things many people imagine when they think of Rome They are the ultimate image of the ancient soldier their arms and armor instantly recognizable Their abilities not only as warriors but also as engineers and administrators have made them role models for other soldiers through the centuries In the same vein their commanders are still celebrated and studied and generals the world over have tried to emulate the likes of Julius Caesar Of course recruiting and equipping the Roman army were hardly easy tasks Gathering new recruits wasn't difficult since service in the military was a requirement for social advancement but new soldiers had to be trained to fight as heavy infantry and work together For these men to be trained properly however they needed to have equipment including swords shields javelins helmets and assorted armor In addition to this the new recruits had to be clothed fed and paid while commanders had to be found Moreover one of the key ingredients to Rome's success was the military's complete willingness to incorporate discovered technologies If a different weapon type of armor or basic equipment or artillery worked better than what they were using the Romans were not afraid to adopt that piece of military hardware for their own uses Thus the Romans were almost always using the finest military equipment in the world all of which had long since proven effective on the field of battle
