David R. Sear

Roman Coins:

Catalogue of Late Roman Coins in the Dumbarton Oaks Collection and in the Whittemore Collection

Dumbarton Oaks, Philip Grierson, Melinda Mays, 1992 This is the first fully illustrated catalogue of a major collection of late Roman and early Byzantine imperial coins It follows the general layout of the Byzantine volumes in the Dumbarton Oaks series with a substantial introduction dealing with the history of the coinage including iconography mints and the monetary system **Historical Roman Coins** Sir George Francis Hill, 1909 **A Manual of Roman Coins** William Boyne, 1865

Roman Coins and Their Values David R. Sear, 1964 Roman Coins John Kent, 1978 **A Descriptive Catalogue of Rare and Unedited Roman Coins** John Yonge Akerman, 1834 **Roman Coins and Their Values** David Sear, 2004-12-31

The original edition of this volume was published by Seaby thirty-six years ago and has been through three revisions 1970 1974 and 1981 The only one-volume price guide to the coinage of Republican and Imperial Rome It is an indispensable listing of all major types of gold silver and bronze issued over some seven hundred and fifty years by the greatest militaristic state the world has ever known Over 4 300 coins are included with detailed description and valuations and all major and minor personalities are listed by means of their portrait coins This fourth revised edition takes note of recent work in the field especially that of Professor Michael Crawford Roman Coins and Their Values Volume 4 David Sear, 2011-12-31 This

fourth volume contains a comprehensive listing of the Roman coinage of the period AD 284-337 together with background information on the history of each reign and the principal characteristic of its coinage The catalogue is organized primarily by ruler with the issues then subdivided by denomination and by reverse legend and type **The Mysterious Spheres on Greek and Roman Ancient Coins** Raymond V. Sidrys, 2020-12-31 This book is not a standard coin catalogue but it focuses on quantities and percentages of the mysterious 5950 sphere images on Roman coin reverses and a few Greek coins This research identifies political cultural religious and propaganda trends associated with the coin sphere images and offers a variety of new findings *Roman Coins and Their Values Volume 1* David Sear, 2000-12-31 The original edition of Sear's

Roman Coins and Their Values was published by Seaby thirty-six years ago and has been through four revisions 1970 1974 1981 and 1988 However the publication of the Millennium Edition of this popular work makes a radical departure from previous editions **A Descriptive Catalogue of Rare and Unedited Roman Coins** John Yonge Akerman, 1834

Coinage in the Roman Economy, 300 B.C. to A.D. 700 Kenneth W. Harl, 1996-07-12 In *Coinage in the Roman Economy* 300 B.C. to A.D. 700 noted classicist and numismatist Kenneth W. Harl brings together these two fields in the first comprehensive history of how Roman coins were minted and used Roman Coins and Their Values Volume 5 David Sear, 2014-12-31 The current revision of this popular work marks a radical departure from the envisioned aims of the original edition This fifth and final volume of the Millennium edition contains a comprehensive listing of the Roman coinage of the period AD 337-491 together with background information on the history of each reign and the principal characteristics of its

coinage The catalogue is organized primarily by ruler with the issues then subdivided by denomination and by reverse legend and type **A Handbook of Greek and Roman Coins** Sir George Francis Hill, 1899 **Roman Coins from India** Paula J Turner, 2016-06-16 This book is a detailed collation of the recorded finds of Roman coins on Indian soil divided into Republican Julio Claudian and post Julio Claudian coins It also includes chapters on the historical significance of the scarcity of Roman finds the absence of base metal issues in the early empire the predominance of early imperial denarii and the difference in composition between the Julio Claudian gold and silver hoards There is considerable discussion on slashed gold coins and defaced silver coins and on imitation Roman coins found in India Three exhaustive appendices include a catalogue of finds of Roman coins found in India the present location of Roman coins found in India and Roman coins in the Madras Central Government Museum Copublished with the Royal Numismatic Society Records of Roman History Francis Hobler, 1860 Roman Coins and Their Values Volume 2 David Sear, 2002-12-31 Volume II now extends coverage of the Imperial series from Nerva the thirteenth Caesar and first of the Adoptive emperors down to the overthrow of the Severan dynasty in 235 It encompasses what may justifiably be termed the golden age of the Roman imperial coinage The full development of the Augustan system of coin denomination and perfection of the method by which government propaganda was communicated to the citizenry through the medium of coinage both reached their peak during these fourteen decades

The Roman coins from Apulum Cristian Găzdac, 2011 A Descriptive Catalogue of Rare and Unedited Roman Coins: from the Earliest Period of the Roman Coinage, to the Extinction of the Empire Under Constantinus Paleologos John Yonge Akerman, 1834 **The McGill University Collection of Greek and Roman Coins** Michael Woloch, 1985-01-01 This catalogue of The McGill University Collection of Greek and Roman Coins brings together reprints of three volumes The Roman catalogue of Volume I is by D H E Whitehead 1975 Volume I also contains a Roman Supplement by Vivien Law and a short history of the collection by John Sullivan Volume II 1975 by Prof Shlosser lists the gold and silver ancient Greek coins The third and last volume 1984 also by Prof Shlosser contains the ancient Greek including Judean and Indian bronze coins and the Greek Imperials Some silver coins are present In Volume III are a Supplement by Louise Cass Conrad of the Roman coins not in Volume I and Corrigenda to Volumes I and II The volumes are richly illustrated with plates The published collection consists of 1 763 coins almost equally divided between Greek and Roman This combined catalogue is unusual because so few university coin collections have ever been fully catalogued and published and is outstanding on account of its diversity One may say that nearly all time periods and mints are represented Study of the catalogue will be repaid with knowledge of examples of most kinds of ancient Greek and Roman coinage The McGill Collection will be of interest to numismatists including collectors dealers and museum curators as well as to historians of the ancient world
