

The background of the book cover is a detailed medieval manuscript illustration. It depicts a chaotic battle scene with numerous knights in armor engaged in combat. In the upper left, a knight in a red surcoat is prominent. The center features a knight on a white horse, possibly a leader, surrounded by other combatants. The lower half of the image is filled with a dense, overlapping mass of soldiers, horses, and weapons, creating a sense of intense action. The style is characteristic of late medieval manuscript illumination, with vibrant colors and intricate details.

Introduction a Glossary and extensive Notes **The Arthurian Name Dictionary** Christopher W. Scala,2009-05-25 This collection of original essays repositions medieval literary studies after an era of historicism Analyzing the legacy of Marxist and materialist theory on medieval literary criticism the collection offers new ways of reading texts historically Drawing upon aesthetic ethical and cultural vantage points and methods these essays demonstrate that a variety of approaches and theories are historical and can change what it means to historicize medieval literature By defining our post historical moment in medieval English literary studies in terms of new possibilities this collection will have broad appeal to those interested in the English Middle Ages history culture and reading itself Morgan le Fay, Shapeshifter Jill M. Hebert,2013-03-12 This study re examines Morgan le Fay in early medieval and contemporary Arthurian sources arguing that she embodies the concerns of each era even as she defies social and gender expectations Hebert uses leFay as a lens to explore traditional ideas of femininity monstrosity resistance identity and social expectations for women and men alike **Misconceptions About the Middle Ages** Stephen Harris,Bryon L. Grigsby,2010-05-26 Brought together by an impressive international array of contributors this book presents a representative study of some of the many misinterpretations that have evolved concerning the medieval period **The Divine Feminine in Ancient Europe** Sharon Paice MacLeod,2013-12-23 This book is an exploration of the spiritual traditions of ancient Europe focusing on the numinous presence of the divine feminine in Russia Central Europe France Britain Ireland and the northern regions Drawing upon research in archaeology history sociology anthropology and the study of religions to connect the reader with the myths and symbols of the European traditions the book shows how the power of European goddesses and holy women evolved through the ages adapting to climate change and social upheaval but continually reflecting the importance of living in an harmonious relationship with the environment and the spirit world From the cave painting of southern France to ancient Irish tombs from shamanic rituals to Arthurian legends the divine feminine plays an essential role in understanding where we have come from and where we are going Comparative examples from other native cultures and quotes from spiritual leaders around the world set European religions in context with other indigenous cultures **Medievalisms** Tison Pugh,Angela Jane Weisl,2012 Medievalisms surveys the critical field and sets

the boundaries for future study providing an essential background for literary study from the Medieval period through to the twenty first century exploring The influence of medieval cultural concepts on key authors such as Shakespeare Dante Chaucer George Eliot and Mark Twain The continued appeal of medieval cultural figures such as King Arthur and Robin Hood The influence of the medieval on disciplines such as politics music film and art **2015 U.S. Higher Education Faculty Awards, Vol. 1** Faculty Awards,2022-09-01 Created by professors for professors the Faculty Awards compendium is the first and only university awards program in the United States based on faculty peer evaluations The Faculty Awards series recognizes and rewards outstanding faculty members at colleges and universities across the United States Voting was not open to students or the public at large **Welsh Mythology** Jonathan Miles-Watson,2009 A little known lecture by L vi Strauss is the inspiration for this work In this lecture he intuitively suggested that in medieval Europe there once existed a set of myths centred on the grail which are structurally the opposite of the goatsucker myths that he famously analyzed in his mythologiques series This work uses L vi Strauss inspirational lecture as a launchpad for an exploration of a group of related medieval Welsh myths two of which have been briefly considered previously by L vi Strauss himself The root of the methodological approach this book employs throughout is the Structuralism of Claude L vi Strauss however it has been modified to incorporate the suggestions of later neo Structuralists This analysis tool is applied to a group of myths which have become conveniently if somewhat erroneously known as the Mabinogion The name Mabinogion appears as part of a colophon at the end of one of the myth of Pwyll and it was later adopted first by Pugh 1835 and then by Lady Charlotte Guest 1838 as a title for their now famous translations of Welsh mythology Consequently the title has stuck to describe the material that is contained within their translations and while it is a somewhat inaccurate way to describe the myths it has the virtues of being both a succinct and widely recognised signifier The term has come to signify eight myths or perhaps more accurately eight groups of myths which are all present in the late fourteenth century manuscript Llyfr Coch Hergest The Red Book of Hergest and all but one of which can be found in the slightly earlier Llyfr Gwyn Rhydderch The White Book of Rhydderch As such the Mabinogion is the key collection of medieval Welsh mythology and an important source for early Arthurian material Although Structuralism and the Mabinogion have attracted a good deal of attention from the academic world there has been never been a sustained attempt to follow Levi Strauss intuitive insights with a methodical Structuralist analysis of this material In the year of L vi Strauss centenary celebrations this work is the first sustained attempt to follow his intuitive suggestions about several Mabinogion myths with a detailed Structuralist analysis of the Mabinogion This work is therefore a unique anthropological presentation and analysis of the Mabinogion which argues for a radical new interpretation of these myths in light of the existence of a central system of interlocking symbols that has the Grail at its heart Through the analysis the book reveals a logical organizational principle that underlies a body of material that has previously been viewed as disparate and confusing This underlying structure is demonstrated to be as L vi Strauss suggested it may the opposite of that

which L vi Strauss himself uncovered in the Americas The revelation of this new form of underlying structure leads to a rethinking of some important aspects of Structuralism including the Canonical formula at the same time as acting as a tribute to the farsightedness of L vi Strauss This book makes important contributions to the fields of Arthurian studies anthropology Celtic studies cultural studies medieval studies mythology and religious studies *Celtic Myth and Religion* Sharon Paice MacLeod, 2011-11-08 This book provides a comprehensive overview of Celtic mythology and religion encompassing numerous aspects of ritual and belief Topics include the presence of the Celtic Otherworld and its inhabitants cosmology and sacred cycles wisdom texts mythological symbolism folklore and legends and an appreciation of the natural world Evidence is drawn from the archaeology of sacred sites ethnographic accounts of the ancient Celts and their beliefs medieval manuscripts poetic and visionary literature and early modern accounts of folk healers and seers New translations of poems prayers inscriptions and songs from the early period Gaulish Old Irish and Middle Welsh as well as the folklore tradition Modern Irish Scottish Gaelic Welsh Cornish Breton and Manx complement the text Information of this kind has never before been collected as a compendium of the indigenous wisdom of the Celtic speaking peoples whose traditions have endured in various forms for almost three thousand years

Habitual Rhetoric Alex Mueller, 2023-09-19 Writing has always been digital Just as digits scribble with the quill or tap the typewriter digits compose binary code and produce text on a screen Over time however digital writing has come to be defined by numbers and chips not fingers and parchment We therefore assume that digital writing began with the invention of the computer and created new writing habits such as copying pasting and sharing Habitual Rhetoric Digital Writing before Digital Technology makes the counterargument that these digital writing practices were established by the handwritten cultures of early medieval universities which codified rhetorical habits from translation to compilation to disputation to amplification to appropriation to salutation through repetitive classroom practices and within annotatable manuscript environments These embodied habits have persisted across time and space to develop durable dispositions or habitus which have the potential to challenge computational cultures of disinformation and surveillance that pervade the social media of today
