Approaches to Teaching the Romance of the Rose Daisy

Delogu, Anne-Hélène Miller, 2023-03-21 One of the most influential texts of its time the Romance of the Rose offers readers a window into the world view of the late Middle Ages in Europe including notions of moral philosophy and courtly love Yet the Rose also explores topics that remain relevant to readers today such as gender desire and the power of speech Students however can find the work challenging because of its dual authorship by Guillaume de Lorris and Jean de Meun its structure as an allegorical dream vision and its encyclopedic length and scope The essays in this volume offer strategies for teaching the poem with confidence and enjoyment Part 1 Materials suggests helpful background resources Part 2 Approaches presents contexts critical approaches and strategies for teaching the work and its classical and medieval sources illustrations and adaptations as well as the intellectual debates that surrounded it The Americana, 1911 The Americana Frederick Converse Beach, George Edwin Rines, 1906 **The Art of Medieval French Romance** Douglas Kelly, 1992-04-15 Douglas Kelly provides a comprehensive and historically valid analysis of the art of medieval French romance as the romancers themselves describe it He focuses on well known writers such as Chr tien de Troyes and Marie de France and also draws on a wide range of other sources prose romances non Arthurian romances thirteenth century verse romances and variant versions from the later Middle Ages Kelly is the first scholar to present the art of medieval romance to a modern audience through the interventions and comments of medieval writers themselves The book begins by examining the difficulties scholars perceive in medieval literature problems such as source and intertextuality structure in its manifold modern meanings and character psychology and individuality These issues frame Kelly s identification and discussion of all the known authorial interventions on the art and craft of romance Kelly s careful reconstruction of the art of romance based on the records left by the romancers themselves will be an invaluable resource and guide for all medievalists **The Penny Cyclopaedia of the Society for the Diffussion of Useful Knowledge**, 1838 **The Encyclopedia Americana** Frederick Converse Beach, Forrest Morgan, George Edwin Rines, Nathan Haskell Dole, E. T. Roe, Thomas Campbell Copeland, 1904 Kingship and Love in Scottish Poetry, 1424-1540 Joanna Martin, 2016-04-22 Looking at late medieval Scottish poetic narratives which incorporate exploration of the amorousness of kings this study places these poems in the context of Scotland s repeated experience of minority kings and a consequent instability in governance The focus of this study is the presence of amatory discourses in poetry of a political or advisory nature written in Scotland between the early fifteenth and the mid sixteenth century Joanna Martin offers new readings of the works of major figures in the Scottish literature of the period including Robert Henryson William Dunbar and Sir David Lyndsay At the same time she provides new perspectives on anonymous texts among them The Thre Prestis of Peblis and King Hart and on the works of less well known writers such as John Bellenden and William Stewart which are crucial to our understanding of the literary culture north of the Border during the period

under discussion **The Roman de la rose in its Philosophical Context** Jonathan Morton, 2018-02-22 The Roman de la rose in its Philosophical Context offers a new interpretation of the long and complex medieval allegorical poem written by Guillaume de Lorris and Jean de Meun in the thirteenth century a work that became one of the most influential works of vernacular literature in the European Middle Ages The scope and sophistication of the poem's content especially in Jean's continuation has long been acknowledged but this is the first book length study to offer an in depth analysis of how the Rose draws on and engages with medieval philosophy in particular with the Aristotelianism that dominated universities in the thirteenth century It considers the limitations and possibilities of approaching ideas through the medium of poetic fiction whose lies paradoxically promise truth and whose ambiguities and self contradiction make it hard to discern its positions This indeterminacy allows poetry to investigate the world and the self in ways not available to texts produced in the Scholastic context of universities especially those of the University of Paris whose philosophical controversies in the 1270s form the backdrop against which the poem is analysed At the heart of the Rose are the three ideas of art nature and ethics which cluster around its central subject love While the book offers larger claims about the Rose's philosophical agenda different chapters consider the specifics of how it draws on and responds to Roman poetry twelfth century Neoplatonism and thirteenth century Aristotelianism in broaching questions about desire epistemology human nature the imagination primitivism the philosophy of art and the ethics of money Monsieur Bossu's treatise of the epick poem: Preface of the translator. A discourse of ... to Monsieur the abbot knight of Morsan.
