Sculpted Thresholds and the Liturgy of Transformation in Medieval Lombardy Gillian B. Elliott, 2022-06-24. This book explores the issue of ecclesiastical authority in Romanesque sculpture on the portals and other sculpted gateways of churches in the north Italian region of Lombardy. Gillian B. Elliott examines the liturgical connection between the ciborium over the altar, the most sacred threshold inside the church, and the sculpted portals that appeared on church exteriors in medieval Lombardy. In cities such as Milan, Civate, Como, and Pavia, the liturgy of Saint Ambrose was practiced as an alternative to the Roman liturgy, and the churches were constructed to respond to the needs of Ambrosian liturgy. Not only do the Romanesque churches in these places correspond stylistically and iconographically, but they were also linked politically in an era of intense struggle for ultimate regional authority. The book considers liturgical and artistic links between interior church furnishings and exterior church sculptural programs, and also applies new spatial methodologies to the interior and exterior of churches in Lombardy. The book will be of interest to scholars working in art history, medieval studies, architectural history, and religious studies.

For forty years this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world, boasting the matchless credibility of the Janson name. This newest update features a more contemporary, more colorful design and vast array of extraordinarily produced illustrations that have become the Janson hallmark. A narrative voice makes this book a truly enjoyable read, and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship. Extensive captions for the book's incredible art program offer profound insight through the eyes of twentieth-century art historians speaking about specific pieces of art featured throughout. Significantly changed in this edition is the chapter on The Late Renaissance, in which Janson offers a new perspective on the subject, tracing in detail the religious art tied to the Catholic Reform movement, whose early history is little known to many readers of art history. Janson has also rearranged early Renaissance art according to genres instead of time sequence, and he has followed the reinterpretation of Etruscan art begun in recent years by German and English art historians. With a truly humanist approach

this book gives written and visual meaning to the captivating story of what artists have tried to express and why for more than 30 000 years Catalogue of the University of Michigan University of Michigan,1911 Announcements for the following year included in some vols **Catalogue and Register** University of Michigan,1909 Announcements for the following year included in some vols Library of Congress Subject Headings Library of Congress.
