Canadian Newspaper Ownership in the Era of Convergence Walter C. Soderlund, Kai Hildebrandt, 2005-06. Canadian Newspaper Ownership in the Era of Convergence investigates the current state of Canada's newspaper industry in light of recent developments: increasing concentration of ownership, multi-media convergence, and controversy over the actions of proprietors. Case studies examine how Conrad Black's acquisition of newspapers in the mid-1990s, bringing his total ownership to over half of the country's dailies, followed by the subsequent purchase of the most important of these by CanWest Global, has actually influenced the content of newspapers. Canadian Newspaper Ownership revisits social responsibility in the context of the changed media landscape as a means of prescribing how newspaper owners and employees might conduct themselves in the public interest.

Memory and Control of Action, 2011-10-10. *Memory and Control of Action* **Universality and Social Policy in Canada** Daniel Béland, Gregory P. Marchildon, Michael J. Prince, 2019-05-31. Bringing together top scholars in the field, *Universality and Social Policy in Canada* provides an overview of the universality principle in social welfare. The contributors survey the many contested meanings of universality in relation to specific social programs, the field of social policy, and the modern welfare state. The book argues that while universality is a core value undergirding certain areas of state intervention, most notably health care and education, the contributory principle of social insurance and the selectivity principle of income assistance are also highly significant precepts in practice.

Access to Care, Access to Justice Kent Roach, Lorne Sossin, Colleen M. Flood, 2005-01-01. Edited by Colleen Flood, Lorne Sossin, and Kent Roach, the collection explores the role that courts may begin to play in health care and how this new role is of crucial importance to the Canadian public and their governments.

Social Fabric Or Patchwork Quilt Jeff Keshen, Raymond Benjamin Blake, 2006-01-01. Both historical and contemporary features of Canadian social welfare are explored in this wide-ranging and in-depth collection. *Social Fabric or Patchwork Quilt* explores the evolution of the Canadian social welfare state from a system based upon voluntarism and philanthropy to one in which the State's involvement has increased considerably. It also shows how the roles of governments at all levels have changed in recent times. Chapters describe the developing Canadian welfare state from Confederation to the present. Beginning with an integrative framework in the general introduction, the selected essays represent many perspectives: chronological, regional, multidisciplinary, and ideological. An important feature of this collection is the consideration of providers and recipients. Such wide-ranging outlooks are possible given the diverse backgrounds of contributors, which include historians, sociologists, social workers, public policy experts, and political scientists. As well as historical and sociological studies, topics include key programs discussed in detail, the quality of services received by principal target groups, new directions in research, some contributions even revisit foundational older works and key government documents.

by examining the problem frame which entails how the Allies perceived their operational problem and developed an approach based on their understanding Ultimately the Allies failed to accurately identify their problem and developed an ineffective approach towards defeating the threat Had the Allies incorporated design thinking into their planning and execution they may have developed an effective campaign towards defeating the Nazi U boat threat rather than solving the wrong problem
